5,000 Facts About Canada

Frank Yeigh's popular compilation "5,000 Facts About Canada," for 1928 is out, having reached its improvements, including an illustrated section and twenty-fifth year. The edition is marked by many tables showing the marked progress of the Dominion in a quarter century, while the stirring story of our national development in a single year is strikingly shown in a series of crisp paragraphs in 50 chapters, ranging alphabetically from "Agriculture" to "Western Canada." No publication sells Canada—not only to Canadians but to the world—more effectively than this tabloid encyclopedia, and one can well understand that it has a large circulation. It may be had from leading newsdealers or by sending 35 cents for a copy to the Canadian Facts Pub. Co., 588 Huron St., Toronto

FARM FOR SALE OR RENT

75 acre farm, lot 178, 2 S.W. Artemesia, at Saugeen Junction. Barn 36 by 50 with L 30 by 32, cement stabling throughout. Large cement veneer house, 8roomed, with woodshed, in which is drilled well, farm well watered small orchard.—W. J. Blackburn, Proton Station.

Frogs in March

Last week, two live frogs were picked up on the ice at the Alexandra rink and are now being cared for by Mr. F. J. Raper. The visitors were stepping lively about the ice when noticed by Mr. Alf. Raper, while at the rink, and their appearances were somewhat of a novelty at this season. The greenbacks were taken home where they are now reposing in a box supplied by Mr. Raper, Sr. They are smart and sing their spring notes as thought it were the first of May.

Just where they came from and how they got in the rink is a conundrum, and their appearances here about March 1st is awaiting a satisfactory explanation. — Meaford Express.

Advertise in The Advance

Dundalk 6, Flesh'ton 6

The long looked-for game of hockey between the Dundalk Red Shirts and the local Cougars was pulled off on the local ice on Thursday night of last week, and resulted in a tie, 6 all. The game was scheduled to start at 8 p.m., but owing to some discussion over the referee the boys lined up at last, with Harold McCutcheon, of Markdale handling the ding-dong.

The first period opened with the speed of the new Ford, each team trying to get the lead over their opponents. Flesherton opened the scoring, and in the twenty minutes of play scored 3 goals against Dundalk's 2. The second period ended with Flesherton still in the lead, 6-3. Everything looked rosy for the local boys and even Dundalk thought they saw their doom. But, still miracles happen, even at a hockey match, and owing to Dr. Lively being called on a case in the middle of the last period, the result might have been different. The play was inclined to be strenuous at times, both teams securing many penalties. Gracey, the Flesherton goal tender certainly played a whirlwind game in goal, when in the last period the local boys were bottled up in their own end and shots were coming hard and fast from all angles, but Gracey was there every time. Thurston and Boyd blockaded many a rush and used their body check to great advantage. Nuhn, Lively and McDonald played a good game on the forward line and shot hard and wicked, although passing was somewhat difficult. Dow turned in a very effective game on the defence when Boyd went on the forward in place of Doc.

Lively again led the goal-getters with four goals and was considered the best and most effective player on either team. McDonald and Thurston secured the other two goals. Thompson for Dundalk scored three, while F. Montgomery netted two and Bellamy one for the visitors. The following is the line up.

Flesherton—Goal, Gracey; defence, Boyd and Thurston; wings, Lively and McDonald; Centre, Nuhn; Sub. Dow.

Dundalk—Goal Stephenson, defence, Mel. Thompson and Cec. Thompson; Wings, Wellwood and Bellamy; Centre Walker; Subs., F. Montgomery and H. Montgomery.

Referee—H. McCutcheon of Markdale.

25 Years Ago

(Fyle of March 12th, 1903)

Mr. M. K. Richardson left for Ottawa on Tuesday, to be present at the opening of Dominion Parliament on Wednesday.

There is a mild case of small pox in Markdale.

Miss McEachnie of thePost Ofice, was called to her home in Collingwood last week by the illness of her mother.

Joe. T. Park, formerly of Dundalk, has purchased B. A. St. John's jewellery business at Portage la Prairie Man.

BORN—On March 4th, to Mr. and Mrs. T. A. Blakely, a son.

Judge Creasor died at his home in Owen Sound on Tuesday morning at the age of 70 years.

Mr. and Mrs. John A. Boyd celebrated their 15th anniversary of their wedded life on Friday evening. A large crowd was present and a jovial time was held by all.

The roads are in bad condition now on account of the storm.

Markdale Here Friday

Probably the last hockey game of the season will be played in Flesherton this Friday evening, when a team from Markdale will try conclusions with the locals. The visitors will bring a team composed of Hand, a newcomer from Southampton, in goal for Markdale, P. and H. York on defence, and H. McCutcheon, P. Kelly and H. Beard as forewards. The substitutes have not yet been announced. This should be a formidable lineup and should give the boys a good run to win.

Mary's Husband

On short dresses, has set-to with a Bishop

The Venerable Bishop of Ely and Viscount Lascelles, the king's son-in-law, are debating the authorship of a new form of campaign against the modish short skirt. The campaign started with this rhyme:

Half an inch, half an inch, half an inch shorter,
The skirts are the same as mother and daughter.
When the wind blows each one of them shows
Half an inch, half an inch, more than she oughter.

Viscount Lascelles announced the bishop was the author. The bishop, in an article, denied authorship, but contributed another rhyme of his own:

Mary had a little skirt
So neat, so bright, so airy
It never shows a speck of dirt
But it surely does show Mary.

The Bishop qualified his statement by adding to the last line: "At least in so far as the portion of her below knees is concerned."

Once started on the campaign, the bishop is going through with it, in the same indirect fashion.

"I think modern fashions have robbed women, and especially older women, of a measure of grace, dignity and charm which is associated with the dress of previous generations," he said.

Flowing robes not only enchance physical perfection, but also modify or conceal physical imperfections which modern dress emphasizes and proclaims. There are many women who cannot really afford to be so candid about their ankles and so on.

The commercial travellers want Friday to be adopted as the half-holiday throughout Ontario. Most towns prefer a day in the middle of the week. Travellers are at a disadvantage, but after all, it's our half holiday, not the commercial travellers'. It is pointed out that the public has to pay for these enforced half-holidays for the travellers. What we've often wondered is, how can so many firms afford to keep the number of men they do, on the road. The public is paying for this too. It's like a good many small towns are — too many merchants with sidelines, at which no one can make many sales, but if one or two merchants only handled these lines a worthwhile profit could be made. But if a man can get orders amounting to a few dollars he is kept on the road for competition's sake and the profits are small for all—but the public pay. As we have said before, we don't know how firms can do this. Wouldn't a more logical outlook be fewer travellers and bigger sales? Business to-day is just one traveller after another. In some instances they almost outnumber the customers.—Dundalk Hearld.

On Monday of this week there passover Dundalk and Priceville an airplane, equipped with ski runners which was likely from Camp Borden.

1927 Automobile Statistics

Automobile statistics for 1927 from the Dominion Bureau of Statistics, Ottawa, show that our automobile bill for 1927 was $49 00 a car more than in 1926. Because of price reductions announced by all makers of cars during 1927 we could expect it to be less. But the extra cost that had to be met by the public amounted to $7,752,780. This increase in our automobile expense account was no doubt caused by the non production of our great single automobile producing unit, the Ford Motor Co. of Canada, Limited, which since June 1927 has been only producing service parts.

Quantity production in May 1927 for the Dominion by all companies reached the highest monthly output of all time and it also marked the last month of active production by The Ford Plant before the shutdown that heralded the event of the new car. The part represented by one company in the furthering of economical motor car transportation is best illustrated by comparing figures for active production during 1926, when out of a total of 204,727 units produced in Canada the Ford Motor Company of Canada was responsible for 100,614. With the economic benefits of mass production and standardization out of the field for 1927 it was unevitable that motor car costs would be increased.

Now that production of Model A is again under way at Ford, Ontario and assembling will soon be carried out at the branches at Montreal, Toronto and Winnipeg the benefits of mass production will again be passed on to the automobile buying public during 1928. Announcement of sweep-price reductions have just recently been made by almost all companies No doubt this will aid considerable in making 1928 the greatest year in automotive history both from a production standpoint and a quality standpoint. It will be a case of more car for less money, and at the present moment, it is being well carried out.

Small Advertisements

LOST OR STRAYED

LOST—In Flesherton, at the United Church shed, on Saturday night, Mar. 10th, black dog skin mit for right hand. Finder please leave at The Advance ofice. — Lloyd Wauchope, Proton Station.
