Road Maintainer Was Working on Highway

A road maintainer, owned by the Provincial Department of Public Highways, was in operation last week on the eight miles of Provincial highway, No. 10, over which Mr. W. J. Moore is overseer. The machine is being used under the direction of Mr. Alder of Durham, Provincial engineer, whose district includes the whole Provincial highway system in the County of Grey and does excellent work in keeping the road in shape for heavy motor traffic. The road maintainer is drawn by a Fordson tractor. In front, the width of the machine, is a row of iron teeth that tear up the road to whatever depth is required and the seven sections of road drag level the highway, filling up the holes and making the road smooth for travel. At present Mr. Moore is drawing gravel filling up the road at the Cemetery swamp, which sank about on foot during the past year, for a length of about 100 feet. A person would go a long way before he would find a better gravel road than that from Victoria Corners to the north end of Orange Valley, over which Mr. Moore is overseer.

CLOSE STORE SATURDAY NIGHT

Midland Argus: The Canadian Department Stores under new management immediately introduced here a new movement in closing their large store at six o'clock on Saturday nights That is a radical change as far as Midland is concerned, where the idea has grown up that it was next to suicidal for any merchant to introduce early closing during the summer and particularly on Saturday night. The Eaton people apparently don't think so and they have determined upon shorter hours here as elsewhere. It will work out satisfactorily like every other advanced movement and in a short time people will forget all about mid-night Saturday night shopping.

Tarvia on Highway

We understand that the Provincial Highway north from Melancthon will receive a coat of Tarvia this year. The condition of the highway, with the crushed stone, thereon, has not been satisfactory to motorists or others, and with the application of Tarvia should make a road that would stand the present traffic conditions.

NOT only is the "Bigger and Better" Chevrolet a finer car mechanically . . . not only does it offer more thrilling performance and more delightful riding comfort—but it is infinitely more beautiful and more superbly styled!

Every one of the seven new models is worthy of detailed comparison with cars costing hundreds of dollars more—not only in brilliance of design and execution, but in completeness and richness of appointment as well.

The new Fisher bodies are artistically beaded and paneled—with long, racy lines. The new genuine Duco colors are modish and smart.

Interiors, too, are impressively luxurious—rich upholsteries, wide, restful seats and a beautiful, new, completely enclosed instrument panel.

Come in and see for yourself the beauty you've always wanted! We'll gladly place a car at your disposal—for an actual road demonstration.

The G.M.A.C. . . . General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet on time.
