ROD AND GUN

Taking the form of a special Ontario Tourist Number, the June issue of Rod and Gun and Canadian Silver Fox News which is just out is of special interest not only to all residentes of that province but also the rest of the Dominion and those of the United States with whom Canada is becoming a popular vacation ground A personal message of welcome from the Premier of Ontario to tourists as the leading article offers every encouragement to visit Canada and enjoy the delights of the country offers.

The contents include a notable aggregation of articles on hunting and fishing with two very good ones. One by S. H. Howard deals with sport in the Mattawa district while a very good article by Alan N. Longstaff describes fishing in the Pickerel River district. The regular departments and Canadian Silver Fox News contain the usual list of entertaining and instructive material.

Rod and Gun and Canadian Silver Fox News is published monthly by W. J. Taylor, Limited, Woodstock, Ontario.

Dogs and chickens must be kept off the streets of Milton until November 1st. The Council has passed a by-law to that effect and the police department is ordered to enforce it.

BLOOD PRESSURE

Blood pressure is the forcethe heart exerts in order to pump the blood through the circulatory system. The heart is a hollow muscular organ which acts as a pump to keep the blood in circulation. The blood leaves the heart in two streams. One stream carries the blood to the lungs, where it is purified; the othe stream goes to all parts of the body, carrying food to the tissues.

The arteries are hollow tubes which carry the blood. Normal arteries are soft and elastic. The impulse of the heart beat is carried along through the arteries and can be felt at the wrist, where it is called the pulse.

In the normal, healthy body, the blood pressure is normal. Certain abnormal conditions, particularly the ones affecting the heart, arteries and kidneys, cause an alteration in the blood pressure and it becomes abnormal.

An abnormal blood pressure is not a disease but it is a symptom of some abnormal condition. It is a warning sign and the physician seeks for and treats the cause.

Disregard of the needs of the body for exercise, rest, proper food and such things, throws a needless strain upon the whole system, and one symptom of this is frequently an increased blood pressure.

The family physician should be consulted regularly for advice as to how to live. The periodic health examination is not only for the purpose of discovering abnormal conditions, but also for receiving advice as to how to keep normal.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

Midland Band Broke Up, Leader Resigned

Midland Argus: The Council at its meeting on Tuesday night decided to accept the resignation of Miss Park, the band leader, which we understand was prompted through criticism of the band in not filling an engagement at the recent C.P.R. demonstration and at the same time the Council decided to call in the instruements and other property of the band. Like many other towns Midland has found it a most difficult matter to maintain a band for some years past. Different organizations took the matter in hand with the same result, that there has been a large expenditure of money with a little return. The past year has been no exception and while we are told that it has cost the town about $1500 there has been very little service of a public character performed. The band has become such an expensive proposition that its service could be secured only at almost a prohibitive figure.

A LARGE STURGEON

Last Friday when Mr. Chas. Eberhardt visited his fish lines in the Nottowasaga Bay he was agreeably surprised to find that he had hooked an immense sturgeon, the largest fish caught in these waters for years. It measured seven feet, three inches and tipped the scales at 195 pounds. A few years ago in the time of John B. Vanslack, a visit to "The Mouth" was never complete without seeing the sturgeon "pen" where one was always sure to see six to a dozen sturgeon from three to six feet long but for some reason they have almost disappeared from the bay.—Stayner Sun.

Rev. Dr. Pedley Nom.

Cornwall, May 26 — Rev. J. W. Pedley was nominated Moderator of the General Council of the United Church of Canada, at a meeting of the Glengary Presbytery held here. Dr. Pedley is past chairman of the Toronto conference, and presided over the Congregation Union of Canada before that body merged in the United Church. He is well-known as a strong preacher and during the past few years has been invited to preach from nearly every pulpit of importance in Ontario. No United Churchman is better known in the far west, where Dr. Pedley opened a mission church in the days when Vancouver was little more than a prosperous village. The General Council will meet in Winnipeg next September.

NEWSPAPER ADVERTISING

It would be going too far to say that a business which advertises in the newspapers is bound to succeed, and is safeguarded against failure, but figures do show that the business which does not use newspaper advertising is more likely to be a failure than a success. The newspapers have an appeal to the great masses of the people which cannot be equalled by any other advertising medium, for they are read and studied in the home, and the advertising columns are as eagerly scanned as are those devoted to news. The people have been educated to look for announcements of wideawake merchants and manufacturing concerns in their daily newspaper, and they readily come to the conclusion that if a product or a firm is not worth advertising, then it can hardly be worthy of patronage.
