Majority of 42 For Town Hall By-Law

Flesherton now has a town hall of which it can be justly proud. This was decided on Thursday last with a vote of 65 to 23 by the ratepayers, on the by-law to purchase the building and lot, formerly known as Chalmer's United Church, and which was built by th Presbyterian congregation in the year 1883. The price of the building is $2,000 and $500 extra was voted in order to make the needed alterations to comply with concert house regulations. Debentures are being offered for a term of ten years and each year the sum of $331.67, amount of principal and interest, is to be raised.

The need of a public hall in Flesherton has been felt for some years as the present township hall, which has been used as a town hall was too small and could not accommodate the crowds. Shortly before the vote was taken it was felt that the by-law would have a hard time passing but the people of the village realized the opportunity presented to them in the chance of securing a village hall that is easily worth three times the purchase price.

The total vote was 88, out of a possible ballot of 128, an therefore practisally three quarters of the ratepayers availed themselves of the opportunity of supporting or opposing the measure.

Track Record at Chesley

About 20 years ago Postmaster W. W. Trimble owned a pacing horse called Paddy McKinley and while racing at Chesley at that time ran the mile in 2.12¼, a record for the track. This feat has never been accomplished by any other horse since that time until the races on Monday, when Ramona Grattton, owned by Dr. Whitely of Goderich, equalled the record set twenty years before. Mr. Trimble sold Paddy shortly afterwards and it made a name for itself on the tracks in the United States.

Entertainment at Mt. Zion

Mount Zion church will give an entertainment in the hall on Friday evening, June 15th. Maxwell Dramatic Club will render their popular play, "Cranberry Corners." With other features of the program, including lunch, an enjoyable time is assured. Admission 35 and 25 cents. Proceeds to be appllied to reshingling, and other necessary repairs to the church. Everybody come and share in the enjoyment.

BUILT on a wheelbase of 107 inches—four inches longer than before . . . swung low to the road . . . and with its hood streaming back in graceful, unbroken lines to blend with contours of the Fisher bodies—the "Bigger and Better" Chevrolet is everywhere hailed as a car of outstanding distinction.

The new radiator is higher and narrower, and embellished with a large, flat, all-metal radiator cap. The hood is longer and deeper—vividly interpreting the greater stamina, staunchness and fleetness of the new chassis. Windshield posts are slender and graceful, bodies are beautifully beaded and paneled, hardware is of period pattern, and roof-lines are smartly low.

Interiors, too, are impressively rich—with new upholsteries, wide, restful seats, and a beautiful enclosed instrument panel—indirectly lighted.

Come, see this great new car—and you'll know why thousands have acclaimed it the world's most luxurious low-priced automobile. C-26-5-28C
