A MISLEADING REPORT

At last Friday's session of the County Council a delegation was present from Feversham to ask for a grant for equipment to Feversham Continuation School. In committee the question of making a $400 grant was tied, when Mr. Taylor, the chairman gave a casting vote in favor of the grant. In open Council, however, the grant was defeated by a considerable majority, although several spoke in favor of it, including the Reeve of Osprey. The Sun-Times report of the incident is misleading, as Mr. Taylor certainly did not agree with Mr. Lembke, the chief opponent.

Ruthven - Cairns Picnic

Last week we neglected to mention the large gathering of the Ruthven and Cairns families at Eugenia for which we are indeed very sorry. The gathering was held in the beautiful Memorial Park at Eugenia and was attended by about 125 relatives and friends of the two families. It was the largest family gathering that has ever been seen in this district and the visitors were from Chesley, Allliston, Paisley, Markdale, Clarksburg, Kenora, Proton Station, Angus, Regina, Kingsville, Ceylon, Priceville and Flesherton. Many of those present had never seen the beautiful surroundings of Eugenia and a visit was made to all points of interest and games were played by all. There was also music and singing and old-time dancing that made ol hearts young again. Little Miss Itabel Mcdonald of Weston gave a very fine interpretation of the Highland Fling that was applauded. This was the first annual reunion of these families and it is expected that next year the fine Memorial Park in Flesherton will be the meeting place of the gathering.

Large Crowd at Picnic

The second annual U.F.O. picnic was held in Mr. J. A. Lever's grove on Friday afternoon of last week and it is estimated that a crowd of about 4,000 people was in attendance at this event. The day was perfect for a picnic and was sandwiched in between two days of rain which was fortunate tunate for the promoters. Mr. J. S. Woodsworth, M.P., Labor member for North Winnipeg, spoke at both the afternoon and evening programs while Miss Macphail, M.P., and F. R. Oliver, M.P.P. also spoke in the afternoon. The Markdale Highland band was in attendance and gave excellent music to a appreciative crowd. The horseshoe pitching contests were followed by large crowds and was of an excellent variety, and was the cause of much interest. Smith Bros. of Durham had the grounds well lit up for the evening performance. A dance was held on the fine platform and was well crowded all evening. It was expected this year that over $300 more was taken in than what was received at the 1927 picnic.

CAR BADLY DAMAGED

A large six cylinder Studabaker sedan, owned and driven by Judge Kleni of Walkerton, overturned on the curve just east of the overhead bridge, between Ceylon and Priceville on Sunday evening, while returning to Walkerton. The top of the car was badly damaged, besides having all the glass windows broken, steering wheel smashed and fenders twisted. The occupants of the car were cut with flying glass and shaken up, but fortunately did not suffer serious injury.

This week we had hoped to print an extra page but the page was not received in time and our news columns have to be cut down and some items left out entirely.

The Semi Annual meeting of Artemesia District will meet in Markdale L.O.L. 1045 on Friday, June 29, at 8:30 p.m. — G. W. Littlejohns, Dist. Rec.

New World's Record for Speed & Endurance

Setting a new world's speed and endurance record for cars under $1200, the new Whippet Six, in a continuous 24-hour run under official observation covered 1357½ miles and averaged 56.52 miles per hour for the entire 24 hours.

Brought to a dead stop from a speed of 35 miles per hour in 49 feet 7½ inches.

Accelerated from 5 to 25 miles an hour in 7.2 seconds.

Records that men unqualified leadership in speed and safety . . . Records made possible by the most advanced engineering of any light Six on the market.

The new Whippet Six upsets all previous standards of motor car value. It has an array of mechanical features, such as 7-bering Crankshaft, air-cleaner and thermostat, never found in a car of its price before.

Among the features of the bodies are unusual roominess, harmonious lacquers, smart cadet-type visors, remote door controls, attractive window reveals, extended dash panels affording greater leg room, and quick-acting cowl ventilator.

The new Whippet Six is unusually smooth and silent, due to its 7-bearing Crankshaft (instead of the usual 3 or 4) and its silent timing chain (a feature of the highest-priced cars). It is exceptionally powerful on hills; it has flexibility never before obtainable in any car of this size or price.
