AYER'S

Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Eruptions, Pimples, Pustules, Blotches, Scaldhead, Blains, and all Skin Diseases.

[illegible]

Dyspepsia, Heart Disease, Dropsy, Melancholy, Neuralgia.

Many remarkable cures of these and other distressing complaints have been made by the stimulating properties of this preparation, which is a powerful tonic, yet does not intoxicate, or in any way injure the vital fountains, but, on the contrary, invigorates the whole system when it has become weak. Such a remedy has long been a desideratum in the profession, and its extensive diffusion is the best evidence of the estimation in which it is held by those who know its virtues.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptives in advanced Stages of the Disease.

This is a remedy so universally known and acknowledged for the cure of the dangerous lung complaints, that it seems hardly necessary to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds has made it a household word throughout the country. Even those who have never witnessed its wonderful cures have heard of them from their friends and neighbors. Throughout the entire Union, from the Atlantic to the Pacific, there is scarcely a village in which some of the blessed results of its use in the most alarming diseases of the lungs are not known. Even in those localities where it has not been introduced by agents, it is in demand for the relief of those who have tried it elsewhere, and have transmitted their testimony to its efficacy to their friends at a distance. As a result, it has been and is now, the most popular medicine of its class, and is in constant demand by all who have once proved its value. Its reputation is based on its intrinsic merits, and it is a medicine which may be confided in when we recommend it to the sick and suffering, as we can do from our own knowledge of its effects in many cases where other remedies had apparently failed to produce any beneficial result. Many of our neighbors and friends testify to its efficacy in the severe pulmonary diseases prevalent in this climate, and we have no hesitation in asserting that it is the most effectual remedy we can give our patients. Its extensive employment by the physicians of this and other countries, and the fact that they not only prescribe it themselves, but also give their patronage to its manufacture when they know it is offered to the public, are evidences of its superiority and value which we think should outweigh the testimony of those who are unknown to the medical profession, and who, from ignorance of the nature of the disease they attempt to cure, are necessarily incompetent to form correct opinions of the value of any medicine for the complaints for which this is offered.

QUARANTINE

GOVERNMENT HOUSE,

Ottawa, 21st March, 1867.

PRESENT,

HIS EXCELLENCY THE ADMINISTRATOR OF THE GOVERNMENT IN COUNCIL.

WHEREAS by the Fortieth Chapter of the Consolidated Statutes of Canada, intituled *An Act respecting Emigrants and Quarantine*, it is amongst other things enacted, that "The Governor in Council may from time to time make such regulations as he thinks proper for enforcing compliance with all the requirements of this Act, and for securing the due performance of Quarantine, by and in respect of Vessels, Passengers and Goods coming into the Port of Quebec, to which he thinks it right for the preservation of the Public Health that such Regulations should apply, and for the thorough cleansing and disinfecting of such Vessels, Goods and Passengers, so as to prevent as far as possible, the introduction or dissemination of any infection or contagion in this Province, and may from time to time revoke, alter or amend such Regulations or any of them, and make others in their stead;" and "such Regulations shall have the force of law during the time they respectively remain unrevoked, unless they be expressly limited to be in force only during a certain time or at certain times or seasons, in which case they shall have the force of law during the time and at the times and seasons during or at which they have been declared to be in force;" and "by such Regulations the Governor in Council may require the Master of every Vessel coming up the River St. Lawrence from below the Quarantine Station at Grosse Isle, (except only such Vessels as are hereinafter designated and referred to as excepted,) —to bring his Vessel to anchor at the place at the said Quarantine Station designated in the Regulations, and report such Vessel in writing to the Officer at the said Station designated for that purpose in such Regulations, with all the particulars relative to the same, and to the Voyage, Passengers and Cargo thereof, required by such Regulations or by any Order duly authorized under them to be given the same,—and to allow the proper Officer to visit and inspect such Vessel and every part thereof, and the Passengers and crew and their cargo and other articles on board the same—and to answer truly all questions asked of him touching the same,—and to send on shore at such Station and at the places there pointed out by the Officer in charge authorized by the said Regulations, all of the Passengers, Crew, Cargo or other articles on board such Vessel, as the said Officer shall deem necessary for preventing the introduction of contagious or infectious diseases,—and to allow such Passengers, Crew, Cargo and other articles, and the Vessel itself, to remain along at the said Station and at such places respectively, and to be treated, cleansed and purified as the said Officer shall think necessary for the purpose aforesaid: And by such Regulations, the Governor in Council may assign to the said Quarantine Station, the powers and jurisdiction of a Justice of the Peace or a Constable or Peace Officer for Grosse Isle and the said Quarantine Station, and for the space around the same described in such Regulations, and such Officer shall accordingly be such Justice of the Peace or Peace Officer whether he be otherwise qualified or not: And by such Regulations the Governor in Council may impose fines, not exceeding *Four hundred Dollars* in any case, on persons contravening the same and may provide that the offender shall be imprisoned until such fine be paid and may direct that no Vessel shall be entered or cleared at the Port of Quebec or of Montreal, until all the requirements of such Regulations are fully complied with, and may direct that any Person, Vessel, or thing, who or which has passed or be allowed or been removed from the said Quarantine Station, before all the requirements of such Regulations have been complied with in respect of such Person, Vessel or thing, or without the written permission of the Officer supposed to authorize such passing or departure, may be compelled to return or be carried back to the said Station, and by force if necessary."

Now therefore it is ordered by His Excellency the Governor General in Council:

1. That all Ships and other Vessels, except the Canadian Mail Steamers, which henceforth and during the eight months next following the First day of April in each and every year shall arrive in the Port of Quebec, from any port or ports, place or places in Europe or elsewhere by way of the mouth of the River St. Lawrence, which is below Grosse Isle, and which shall have at the time of their said arrival, or shall have at during their passage from the places they respectively cleared, any person on board laboring under Asiatic Cholera, Fever, Small Pox, Scarlatina or Measles, or other infectious or dangerous disease, or on board of which any person shall have died during such passage, which, being of less tonnage than seven hundred tons measurement shall have on board 150 or more Steerage Passengers, or which being of greater tonnage than seven hundred tons measurement, shall have on board fifty or more Steerage Passengers or which shall have come from some infected Port, shall make their Quarantine at Grosse Isle in the River St. Lawrence, and there remain and continue until such ships or vessels shall be discharged from such Quarantine, by such license or passport and discharge, given without fee or emolument of any kind, as shall be directed or permitted by such orders as shall be made by the Governor, with the advice of the Executive Council thereon; and until the said ships and vessels shall respectively have performed such Quarantine, and shall be discharged therefrom by such license or passport and discharge as aforesaid produced, goods or merchandise which shall be on board such ships or vessels, shall not come or be brought on shore, or go or be put on board of any other ship or vessel in this Province, except on Grosse Isle aforesaid, when duly required by competent authority.

2. That all or parts of vessels which henceforth and during the eight months aforesaid, shall arrive at the Port of Quebec, from any port or parts in Europe, place or places, elsewhere as aforesaid, of the class or description hereinafter mentioned, as liable and bound to make their Quarantine at Grosse Isle, to make their Further Quarantine in the Harbour of Quebec, according to the Regulations hereinafter provided.

1.—*Establishment.*

And by such Regulations the Governor in Council may impose fines, not exceeding *Four hundred Dollars* in any case, on persons contravening the same and may provide that the offender shall be imprisoned until such fine be paid and may direct that no Vessel shall be entered or cleared at the Port of Quebec or of Montreal, until all the requirements of such Regulations are fully complied with, and may direct that any Person, Vessel, or thing, who or which has passed or be allowed or been removed from the said Quarantine Station, before all the requirements of such Regulations have been complied with in respect of such Person, Vessel or thing, or without the written permission of the Officer supposed to authorize such passing or departure, may be compelled to return or be carried back to the said Station, and by force if necessary."

Now therefore it is ordered by His Excellency the Governor General in Council:

1. That all Ships and other Vessels, except the Canadian Mail Steamers, which henceforth and during the eight months next following the First day of April in each and every year shall arrive in the Port of Quebec, from any port or ports, place or places in Europe or elsewhere by way of the mouth of the River St. Lawrence, which is below Grosse Isle, and which shall have at the time of their said arrival, or shall have at during their passage from the places they respectively cleared
