PIC-NICS TO HEAR THE LEADERS

The political leaders are endeavoring to stir up the electors in various parts of the Dominion. We have had in these parts a series of gatherings addressed by Miss MacPhail and Mr. Woodsworth, who have set forth their views on public affairs with considerable vigor. Then Prime Minister King is starting on a tour of his constituency in Saskatchewan and will also address meetings at various Western points and probably also in the east. But the new leader of the Conservatives is out-doing them all in point of systematic orating. Mr. Bennettt has during the last two weeks been addressing large gatherings in the Eastern Townships of Quebec, and during the next month or two will make the rounds of Ontario, speaking with other leading members of his party at central points, the meetings taking the form of old-time pic-nics. In the central district arrangements are to be made for the visitation in the week beginning August 19, and it is likely that the pic-nic will be held at Eugenia, though why the gathering should not be held in the admirably adapted Memorial Park, Flesherton, so easily reached by fine highways, east and west, north and south, is difficult to understand. It is expected that Premier Ferguson will appear with Mr. Bennett when he visits this region and that the gathering will be one of the greatest ever convened in this district.

"No Fish at Eugenia" Idea is Now a Myth

The bogey of "no fish at Eugenia" has been broken at last, and that by no other person than Mr. John Tomlinson of Toronto, who is a member of the Toronto Angling Association and is also fly-casting champion of Canada. During the past few days he has been staying at the Munshaw House at Eugenia and his trips on the Hydro Lake were productive of some lovely catches of fish. While on his way to Toronto on Tuesday afternoon Mr. Tomlinson showed us one of the finest catches of fish we have seen for some time. The fish were all one pound in weight or over and were caught with nothing else than equipment made especially for fly fishing and his skill in casting the fly. He secured his limit in the three days' fishing and goes back to his work in the city with the knowledge that the fish are in the lake just waiting for an expert to coax them up to the lure.

Grey Regiment at Camp

On Tuesday the Grey Regiment left for camp which is being held in Collingwood for the next ten days or so. "D" Company is commanded by Capt. A. E. Bellamy of Owen Sound, formerly of Flesherton and Lieut. W. E. Turney of Flesherton is second in command. Twenty-one privates left by motor bus Tuesday morning for camp, together with three officers. Those from Flesherton who are attending besides Lieut. Turney are Ted McDonald, Peter Dow, Bernard Chercotte and Melville Sled. There will be one hundred and thirty-four men, all ranks in the Regiment and includes the Regimental Bugle Band and the officers. Lieut. Co. T. J. Rutherford is the Commanding Officer, Major R. C. Ferguson of Thornbury, second in command, and Lieut. R. A. Vincer, adjutant. Major O. E. Carr of Owen Sound, formerly of Priceville, is the Brigade Medical Officer.

ADDITIONAL LOCAL ITEMS

Marathon Hi-Test Gasoline costs no more.

Mrz. A. D. Thurston and two children, of Montreal, are visiting relatives at Eugenia.

Mr. Malcolm Leitch has purchased the house and lots owned by the late Hannah Pedlar and will make needed improvements.

Rev. Bro. M. Saunders will address the Loyal Orange Lodges, who will attend Divine Worship in the Rock Mills church at 3 p.m., and the Flesherton Baptist Church at 7 p.m., on Sunday, July 8th. A hearty welcome is extended to all brethren and friends of the Order.

The Salvation Army band from Toronto played on the market square in town on Saturday afternoon to a large and appreciative crowd. The band was late in arriving and the length of the program had to be reduced quite an extent and many were therefore disappointed that this fine band could not have given a longer program.

Arnold Brown Passed Away At Durham

Just as we go to press we learn of the sudden death in the Durham hospital on Wednesday morning of Arnold Brown, only son of Mr. and Mrs. John J. Brown of Springhill. Arnold was undergoing an operation for the removal of his tonsils and it is stated, failed to rally after the anaesthetic was administered. Arnold was an exceptionally bright boy and was in his seventeenth year and has been attending high school in Flesherton for the past couple years. It has not been learned when the funeral will be held but it is expected that it will be on Friday afternoon. The death of Arnold is a distinct shock to the community, where he was highly regarded as a fine upstanding boy, and the sympathy of the entire commuinty is extended to the sorrowing parents and sisters.

Harriston band will supply the music in Flesherton on July 12th.

125 Times Around the World

IN pursuing its policy of consistent progress—in its continual search for new ideas : : : in its constant development of better cars : : : General Motors not only maintains its great International Research Laboratories and hundreds of skilled engineers, but also operates the first, largest and most completely equipped automobile proving ground in the world.

Here, on the vast fourteen-hundred-acre tract of the General Motors International Proving Ground, every type of road is duplicated, every condition of driving is reproduced. Here all makes of General Motors cars are constantly being subjected to the most searching tests. Here every principle developed by General Motors engineers is put to proof : : : every detail of each test car's performance carefully and closely checked. Here years of normal use are crowded into a few months of continuous, gruelling operation.

A typical example is offered by Chevrolet. Since the opening of the General Motors Proving Ground, Chevrolet cars alone have piled up over three million miles of testing . . . a distance equal to 125 times around the world.

In the countless millions of miles that General Motors cars have covered on the General Motors Proving Ground, there has been one great purpose kept in view : : : to improve, by constant testing, the quality and worth of every General Motors product.

Every Canadian buyer of a General Motors car gets a car built in Canada by Canadians to meet Canadian conditions of road and climate : : : a better car and a greater value because General Motors uses so freely and unsparingly its unequalled facilities for testing and research . . .

With better General Motors cars at the end of the journey, millions of miles is not too far to go.
