Very Large Funeral for the Late Arnold Brown

One of the saddest events that has taken place in Flesherton for many years was that on Friday, when the remains of the late Arnold Brown were interred in Flesherton cemetery. A large crowd gathered at the house where the service was being held and showed their sympathy to the parents in their bereavement and their high regard to the departed one who was one of the most highly respected boys in the community. His ready smile and cheery disposition made many warm friends, who were deeply grieved when the sad occurrence became known. The deceased had entered Durham hospital and had undergone an operation for the removal of his tonsils, which was apparently successful when he suddenly took a heart attack and passed away immediately before any assistance could be given. The doctors worked for three quarters of an hour, but he failed to rally.

Deceased was a member of Flesherton United church and was in his 16th year and was the only son of Mr. and Mrs. John J. Brown of the East Backline, Artemesia, and had been attending Flesherton high school for the past three years and had tried his examinations at the finish of the past term.

Rev. Jos. Harrower, pastor of the St. John's United Church preached a very comforting and impressive sermon at the house and also had charge of the service at the grave. The funeral cortege was one of the largest ever seen, fully one hundred cars of friends and fellow students of the high school following the remains to the cemetery.

The flowers were very beautiful and the casket was banked with a mass of color from the following friends and relatives:

Car Badly Smashed

While returning from Priceville, where he made a trip with bread on Friday afternoon, Mr. Thos. Bentham of town was badly injured when he suffered from a sudden weakness and lost control of the light truck he was driving and it left the road, crashing into a hydro pole. The force of the impact threw him forward onto the driving wheel, which he hit with his chest so hard that one section of the wheel was broken and one of the iron rods was bent, and Mr. Bentham suffered a crack in the breast bone, and also received a severe shaking up. The front wheel and axle was badly bent, one spring broken and the body of the car bent, besides the back doors broken when the bread boxes inside were suddenly thrown against them. The car was later towed to town and it was found that some further damage was done to the car. While it was on the side of the road where the accident occurred one mile east of Priceville, some low down sneak thief examined the wreck and walked off with all the tools the car contained. Mr. Bentham remained in bed for a few days resting after the accident. Mr. Pinder will rebuild the car.

New World's Record for Speed & Endurance

Setting a new world's speed and endurance record for cars under $1200, the new Whippet Six, in a continuous 24-hour run under official observation covered 1357½ miles and averaged 56.52 miles per hour for the entire 24 hours.

Brought to a dead stop from a speed of 35 miles per hour in 49 feet 7½ inches.

Accelerated from 5 to 25 miles an hour in 7.2 seconds.

Records that men unqualified leadership in speed and safety . . . Records made possible by the most advanced engineering of any light Six on the market.

The new Whippet Six upsets all previous standards of motor car value. It has an array of mechanical features, such as 7-bering Crankshaft, air-cleaner and thermostat, never found in a car of its price before.

Among the features of the bodies are unusual roominess, harmonious lacquers, smart cadet-type visors, remote door controls, attractive window reveals, extended dash panels affording greater leg room, and quick-acting cowl ventilator.

The new Whippet Six is unusually smooth and silent, due to its 7-bearing Crankshaft (instead of the usual 3 or 4) and its silent timing chain (a feature of the highest-priced cars). It is exceptionally powerful on hills; it has flexibility never before obtainable in any car of this size or price.
