Banking and Prosperity

Prosperity on the farm is largely dependent on the factors beyond the realm of the farmer's control. There must be a good market demand for farm products and the production costs must be kept in proper relation with market returns Our Branch Manager is thoroughly familiar with the business of farming and is ready to assist in carrying your farm program to successful conclusion.

Big Circus Coming to Town on August 17

A grand Gala Day for the children from six to sixty when the Barnett Brothers big Circus and trained animal circus pitches their big City of Tents on the Exhibition Grounds for one day only. There are more wonderful features, more sensational acts in the Barnett Brothers program than most all the other shows combined. There will be a grand free street parade at noon through the principal streets of Flesherton—the open dens of wild animals from all parts of the world—the beautiful Tableaux trucks —the funny Clowns— beautiful women—four bands of music— and the Calliope—all helps to make the children wonder, if any fairyland is any more beautiful and gives them the thrill of their life time. Don't forget the day and date—rain or shine.

The Memorial Park

The principal business before the Women's Institute at Flesherton, last week, was the passing of a resolution to have the iron work of the fence around the Memorial Park painted. It was conceded by all that this work was much needed, as already the iron had begun to corode and would likely soon rust away. There should be no delay in having the work completed. At the same time it would be well to have a town "bee" and have all grass and unsightly weeds removed. Perhaps it would be too much to expect visitors to refrain from littering the grounds with papers, etc., and surely no citizen of Flesherton will throw away rubbish within the grounds, which all ought to unite to keep in good shape.

Leaving on Motor Trip

Dr. and Mrs. E. C. Murray and daughter, Betty, accompanied by Miss Shirley Murray of Toronto are leaving this week for a delightful motor trip through Michigan to Sault Ste. Marie, thence to Manitoulin Island, back home by the east shore of the Georgian Bay. They expect to be away for about two weeks.

The Turner Re-Union

The Turner reunion was held on August 2nd, at the memorial Park, Eugenia and a very happy time took place when over a hundred relatives gathered to spend the afternoon. Many friends from Toronto, Streetsville, Heathcote and Duncan were present, besides those living in Artemesia. About 1 o'clock a dainty dinner was spread and all sat down to well laden tables, to which all did full justice. During the afternoon Mr. Pluss, photographer, Thornbury, arrived and took photos of the gathering, after which ball games and music and social chat closed a very enjoyable afternoon.

BEAVERS STILL AT WORK

People of the district and some from a distance continue to view the dam which beavers persist in maintaining on the pasture farm of Mr. James Copp, about four miles east of Elmwood village. The result of the activity of these little builders has been that the water in the creek and the lake north of it is raised to an extent that the adjacent property of Mr. Wm. Henderson also is partially flooded.

Until this spring beavers have been unknown in that district for fifty or sixty years This dam, fifty or more feet wide, is quite substantial. Although efforts have been made with a view to free access for the water, the beavers repair, at night, the outlets made by farmers.

Mr. Henderson has asked the Government to have the beavers removed. On every hand there is evidence of their work. Quite large branches of trees have been cut in shorter lengths and used to reinforce, with materials picked up in the bush. The dam and its history are very interesting. — Walkerton Telescope.
