"Queen's Birthday was kept in the usual loyal style last month, and next month the citizens of the Dominion of Canada will celebrate the birth of their new and rising existence; but receivers of invalids still feel that a public holiday would be too short to celebrate all the virtues of that celebrated Indian Medicine, the great Canadian REMEDY, now on sale by the respectable druggists in your locality.

BRONCHITIS.—This accidental infection, called by the French coup de froid, is supposed to occur more frequently in the country as cleared but such indeed is not the case. In the same manner many suppose that urine is at the increase at the country because older, but this is also deception. The true in both illnesses spring from the increased facilities for communication, which, like the great commerce Rosseyn for consumption, travel in the wake of civilization.

—The efficacy of Bryan's Pulmonic Wafers in curing Coughs, Colds, and all Bronchial affections, and cheering the afflicted, has passed into a proverb. In the United States, where these marvellous Wafers are known, they bear down all opposition and eclipse all rivalry; the demand for them has steadily increased for the last twenty years, until now the sales average over hundred thousand boxes a year. Eminent members of the medical profession without number admit that they know of no preparation producing such immediate results as these Wafers. When taken in season they effect a permanent cure. Sold by every druggist and most of the respectable stores throughout the Province, at 25 cents per box.

Coughs and Colds—Sudden changes climate are sources of Pulmonary Bronchial and Asthmatic affections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "Brown's Bronchial Troches," or Lozenges. For over years of the importance of checking a cough, or "common cold," in its first stage. That which is the beginning sometimes yields to a mild remedy, if neglected may attack the lungs. "Brown's Bronchial Troches," or Cough Lozenges, allay irritation which is the cause coughing, having a soothing effect on the affected parts. As there are imitations, be sure to obtain the genuine. Sold by all dealers in medicine, at 25 cents a box.

HYPERMNESTRA DATU SAY.—That is all who hay either used the certain themselves or witnessed its effects when used by others; all such, and they are only fit to judge, are unanimous in the opinion that "Seabury's Quinine Powders and Arabian secret Remedy" is superior to anything of the kind heretofore or at present in use for coughs colds, thick wind, and all diseases which affect the wind of horses. As a condition medicine it has no equal; there is nothing in it which can injure a horse whether sick or well—nor need the horse be kept from working while using it; it is just the article which all who own horses require, and which they should have constantly on hand. Remember the name, and see that the signature of Hand and Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada.

Marseilles Cocoa.—*For Breakfast.*—The "Globe" says:—Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of "Marseilles" Cocoa. Adopting their perfect system of preparation to this food of all species of the Theobroma, they have produced an article which surpasses every other Cocoa in the market, nature solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Marseilles Cocoa above all others for home consumption, and invalids we could not choose a more agreeable or valuable beverage." Cocoa in packets only by all Grocers, of whom also may be had Taylor Bros. Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills—Brick Lane London, Eng.

MORTIMER'S INFALLIBLE REMEDY FOR CHOLERA, DIARRHŒA, and BOWEL COMPLAINTS.

The following extract, which Mr. Mortimer is kindly permitted to publish, is from the letter of a relative of Dr. Wolfe, of this city, now residing in the United States:

"Find out if the Express charges are too high and if not, arrange with Mortimer to let you have a box of the bottles of CHOLERA MIXTURE, I could make a good little fortune with them. The bottle I brought with me here brought two ladies round from decided cholera; one on board the boat, and the other in Berlin, United States. Both commenced with diarrhœa, then with dysentery and then vomiting. The one at Berlin was very bad. I gave her three doses of the Cholera Mixture, the third of which stopped the vomiting. The next day she was all right, or nearly so. She was very grateful. I have now only a little left."

☞ This excellent mixture, which should be in every family, is only

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are liable to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the diseases of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they crumble and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it is never followed by any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride and gratification by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold round the world.

MADOC, County of Hastings, Province of Ontario, Feb. 9th, 1869.

This is to certify that during the winter of 1866 I was taken with a weakness of the muscles, which gradually, during the spring of 1867, extended to my knees, and on up to my hips, and I became so weak that I could not walk, but was confined to my chair. For about two years, while this weakness was coming on me, and afterwards, I sought medical advice, employing, at different times, three doctors, and medicines of different kinds prescribed by friends, but of no avail. I continued to get worse and worse, until the summer of 1868, when I was induced to try the great Shoshoness Remedy by reading the cures performed in a pamphlet. At this time I had begun to feel the weakness in my hands; in fact I was getting almost helpless. I have taken two bottles of the Shoshoness Remedy and two boxes of the pills and I am entirely restored to health. I never expected to get better, but simply tried the medicine as a sort of forlorn hope. This case of mine was not a private one, but known to all my neighbours and friends; and to any one afflicted as I was, I have only to say try the Shoshoness Remedy; I believe it will cure you.

MARY ANN DOUGHTY

Sworn to before me at Madoc, County of Hastings, this ninth day of February, 1869.

A F WOOD, J P, &c.

I hereby certify that I have known Mrs. Mary Ann Doughty for the last fifteen years; she is a woman of probity and truth. I have known her before, during, and since her illness. I believe her certificate to be true in every particular. I know that while ill her case was declared hope, less; and I know that she has, since her recovery, always attributed her recovery to the Shoshoness Remedy. Whatever may be the peculiar properties of this medicine, one thing is certain, that in her case it has acted almost like the performance of a miracle.

A F WOOD, J P. Warden of the County of Hastings, Province of Ontario, Dominion of Canada.

UNIVERSAL EXHIBITION OF 1855,

First class Medal, ALF LABARRAQUE & CO.

QUINIUM LABARRAQUE, Approved by Imperial Academy of Medicine.

The QUINIUM LABARRAQUE is an eminently tonic and febrifuge wine, destined to replace all the other preparations of Peruvian bark.

The bark wines usually employed in medicine are prepared from barks which vary considerably in the degree to which they possess the desired properties. Besides, owing to the manner in which they are prepared, these wines contain scarcely more than the traces of active principles and these always in variable proportions.

The QUINIUM LABARRAQUE, approved by the Academy of Medicine, constitutes, on the contrary, a medicine of determined composition, rich in active principles, and on which the physician and patients can always rely.

The QUINIUM LABARRAQUE is prescribed with great success for persons of weak constitution, for those debilitated by various exhaustion, disease or past sickness; for youths fatigued by too rapid growth; for young girls whose development takes place with difficulty; for women in child birth; and for aged persons enfeebled by years or illness. It is the best preservative against fevers.

In cases of chlorosis, anæmia, or greenickness, this wine is a powerful auxiliary of the ferruginous preparations. In conjunction, for example, with VALLETT'S PILLS, the rapidity of its action is really marvellous.
