PREFACE

The Publishers, in presenting their 1928 edition of the City of Chatham Directory, thank the people for the liberal support they have received. Every means has been taken to render this Directory accurate and up-to-date in every detail known to progressive Directory Publishers. ✓ 35503

The number of names in the Alphabetical Section is 7,500 which multiplied by $2\frac{1}{2}$ (the multiple used by all Directory Publishers), gives a population of 18,750.

Free to green keepers and others who desire the latest information on the building of a new Club Green or renovating an old lawn.

We quote Special Prices to Clubs, Institutions, Parks and others who require seed in large quantities.

LAWNS AND GREENS

It is most important that the lawn should be sown with a mixture of grass seeds especially adapted for the purpose required. A mixture suitable for a Park or Golf Course would be quite unfit for a private lawn, Bowling or Putting green. All the finest grasses that are most suitable for the formation of a lawn when grown for seed, produce very much less weight of seed per acre than do the coarser growing varieties, consequently the cheaper the mixture the coarser the turf. We maintain that the finest dwarf growing grasses are the most economical even for large areas, as the turf formed by the dwarf compact habit of the finest grasses requires to be mown only about half as many times as a turf formed of coarser growing varieties.
