SPECIAL NOTICES.

The proprietors of Johnson's Anodyne Liniment, Parson's Purgative Pills, and Sheridan's Cavalry Condition Powders, have published a readable and instructive pamphlet, which may be had free at the stores.

ORDER AND SYSTEM.—In every branch of cultivation—whether in the field, the orchard, the vineyard or the garden, there must be order and system to insure successful results, and this truth is firmly established by actual experience. Another great truth has also been established by the same means, which is: That as a preventative medicine, or a medicine for the cure of colds, coughs, rheumatism, and summer complaints, the "Canadian Pain Destroyer," is the most reliable For sale by all Druggist and country dealers. Price, 25 cents per bottle.

GREAT CONDITION MEDICINE.—As a condition medicine for horses "Darley's Condition Powders and Arabian Heave Remedy" has no equal Its effects in this respect are astonishing; many horses that were supposed to be broken down and almost worthless have, by the use of a few packages, been restored to a healthy and sound condition, all traces of the disease having been completely removed, and have been sold for from $50 to $75 more than they would previously have brought; when you want a horse medicine get "Darley's Condition Powders and Arabian Heave Remedy." We know you will be perfectly satisfied with the result. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

Obtain only "Brown's Bronchial Troches," and do not take any of the *Worthless Imitations* that may be offered.

TO THE PUBLIC OF CANADA.

OFFICE OF THE JOSEPH HALL MANUFACTURING COMPANY, OSHAWA, ONT., March 8, 1872.

Being desirous of testing the merits of the different water-wheels now offered for sale in Canada, as to their economical use of water, we, as the manufacturers of the GENUINE JAMES LEFFEL DOUBLE TURBINE, make the following challenge to the manufacturers of ANY WHEEL now made in Canada, whether it be IMITATIONS of the JAMES LEFFEL DOUBLE TURBINE or ANY OTHER PATTERN, the wheels in all cases to be wholly manufactured by the competing parties:—

We will place in the hands of any responsible party, six thousand dollars ($6,000), and the party accepting the challenge to do the same, the money to be held subject to the award of the judges. The wheels to be tested in a flour mill, driving the same runs of stone, grinding the same wheat, and having the same number of square inches of opening to receive the water, the amount of water discharged to be the measure of the amount used by each wheel.

The judges to be non-residents of Canada, and to be thoroughly well informed in the mode of testing the power of turbine wheels—each party to choose one judge and the two to choose the third.

The owners of the winning wheel to have their money refunded them, and the loser's money to go towards establishing a mechanical free library in any town in Canada named by the owner of the successful wheel.

The wheels to be tested at ¼, ½, ¾, 5/8 and full gate.

Each party to give good and sufficient bonds, to the amount of $4,000, that the loser shall pay the entire expenses of the test.

There are some wheels that give very good results with full head and full gateage, which entirely fail under partial head and partial gateage. Such wheels in our climate, where water powers are affected by both cold and drouth, are of no practical value.

We claim that we are the only makers of the GENUINE JAMES LEFFEL DOUBLE TURBINE WHEEL in Canada, and that it is without a RIVAL in the WORLD IN PRACTICAL RESULTS.

More than 6,000 of these wheels are now in operation in Canada and the United States. The sale of no other wheel ever yet introduced on this continent exceeds one-sixth this number.

Our wheel has been thoroughly tested in GREAT BRITAIN, and has fully maintained the reputation it has gained in Canada and the United States, as the most economical water-wheel in practical operation ever yet introduced.

We are now publishing a new descriptive water-wheel pamphlet, containing 150 pages of valuable matters, which will be sent free to all applicants.

For further information address,

F. W. GLEN, Oshawa, Ont.

N. B.—We desire to call attention to the following certificate:—

SPRINGFIELD, Ohio, Dec. 25, 1868.

We take pleasure in informing the public of Canada, that we have sold and furnished Mr. F. W. GLEN, of Oshawa, Ont., Patterns, Formers, Drawings, Gauges and, all other necessary information to build our celebrated Double Turbine Water wheel, invented by James Leffel, and known as the 'Leffel Wheel.' We have also obligated ourselves to furnish the same facilities for manufacturing to no other parties in Canada. Without the information we have given to Mr. GLEN, no one can successfully build our wheels, and we advise parties in Canada to purchase our wheels of no other manufacturer. Mr. GLEN's facilities are unsurpassed, and we feel sure that he will build a wheel that will give perfect satisfaction. We therefore commend him to the public of Canada, with entire confidence, feeling sure he will manufacture a wheel in all respects equal to our own.
