Quite an excitement around the village on Saturday last when Mr. John Smith took his snow car out for its first trip. This car is on runners and is drawn with a propeller, like an airplane, and while John can't lay claim to a very fast machine but with some minor changes he might work up a speed record against Major Seagrave with his Golden Arrow. However against a good many ideas John sure did run up and down the street with the machine drawn by the propeller.
