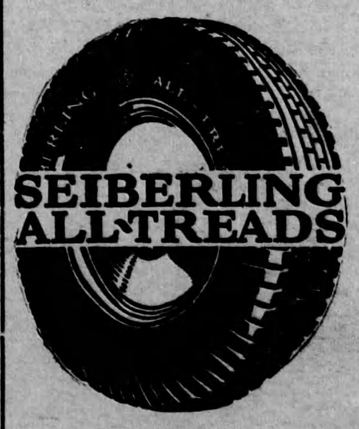
—H. G. BURKE, Clerk.

WHIPPET

The longer, larger bodies of the new Whippets, the low lines, distinctsive colors, higherradiators and hoods, heavier one-piece full-crown fenders, are bringing to Four and light Six buyers an entirely new conceptionof how beautiful an inexpensive car can be. Roomier interiors, broader seats, longer front and rear springs, snubbes and oversize balloon tires bring you the riding comfort of costlier cars.

Be sure to see the New Whippet at our first opportunity! We will gladly arrange a demonstration for you.



No Tire Built Like This Before

Those tough ribs of rubber extending over the side walls, making a tread virtually from bead to bead, are an extensive feature of Seiberling All-Treads. They mean extra wear; they give extra protection against chafing curbs, ruts, rocks.
