What We Have To Offer

No one chartered Bank in Canada has anything greater to offer the business community than its contemporaries unless it be in the character of the service it renders. During its life, the Canadian Bank of Commerce has developed a distinct individuality through the kind of service maintained in its daily transactions. The commercial aspect of this individuality is found in the many unique services for which the Bank of Commerce is peculiarily equipped.

Council To Assist In Road Building

An emergent meeting of the Village Council was held in the Clerk's office on Friday evening in regard to the road program on the conecting link of the provincial highway through town.

Engineer Alder of Durham gave Reeve Findlay figures for the cost of the road and these were presented to the Council. The roadway would be twenty feet in width, of mulch tar construction and would cost approximately $1800, Flesherton's share of this would be twenty-five per cent or nearly $450. The length would be from Wm. Henderson's corner to the Baptist Church, a distance of about 112 rods. Councillor McCauley thought that it would also be a splendid idea to lay crushed stone from curb to curb in the business section at the same time the 20-foot strip was laid.

It was moved by H. A. McCauley and seconded by G. B. Welton that this Council accept the offer of the Department of Highways to pay 25 per cent. of the cost of the work on the 20-foot strip.

It was also decided to take the money out of the general fund, as to raise money otderwise would necessitate a vote by the people and there was not time to do so.

Clerk W. J. Bellamy stated that unless other reductions were made it would mean a two mill raise on taxes next year.

Councillor C. N. Richardson brought up the question of the dump and to the motion passed at the last regular meeting requesting H. Down & Sons to remove certain materials left in the wrong place. The feeling of the Council was that an injustice had been committed by mentioning the above firm's name while other parties had also dumped rubbish where it was not supposed to be placed, but they wished the public to realize that there was a proper place to dump rubbish and that the Council would take steps to have it moved and the expense attached would be charged against the persons in question.

BLACK—MacCANNELL

A very quiet, but pretty wedding took place at Dundalk on Saturday, June 1st, at the manse. When Rev. Mr. Annand united in marriage Ila Viola MacCannell, second youngest daughter of Mr. and Mrs Angus MacCannell to Mr. George Black of Swinton Park. The bride looked charming in a beautiful gown of Trianon Georgette with rosebud trimming and carried a corsage bouquet of Ophelia roses and Lily of the Valley. The bride, who was attended by Miss Alice Broughton, looked charming in a gown of shell pink gloria crepe. Mr. Dan McCannell, brother of the bride, supported the groom. The groom's gift to the bride was a handsome necklace and to the bridesmaid, a sterling silver bar pin, and to the groomsman, a set of military brushes. After the ceremony the young couple left on a motor trip to Detroit, Windsor and Toronto. On their return they will reside on the groom's farm, near Swinton Park.

And a heart that was purer than gold,
And to those who knew her and loved her,
Her memory will never grow cold.
