Bear Was Seen On Twelfth Line, Osprey

For some time there has been talk of wolves in the southern part of Artemesia township and in Proton, but they have not been actually observed. Now comes the story that a bear was seen on Sunday shuffling along the side of the road on the 12th line of Osprey Township. The above fact is declared to be correct by Mr. Steve Sutton of town, who knows a bear when he sees one, and stated that it appeared to him to be a yearling about half grown. As he was motoring along he discovered it coming towards him and on slowing the machine a good chance was given him to make sure of the animal and then it moved off into the bush at the side of the road, afterwards coming back on when the car passed. Bears have been seen and caught on the Bruce Peninsula, but it has been some years since one has been seen in this district.

Car Troubles

Mr. F. G. Karstedt of town was very unfortunate in a motor trip on Sunday. He and other members of the family visited his son, Jack, in Hamilton. On the return journey the engine heated up, and a short distance the other side of Arthur Mr. Karstedt got out to get water, using a tin can with a sharp edge. In doing so he slipped on a grassy bank and fell, the can cutting a finger very badly, severing an artery. A fast trip was made into Arthur where Dr. McFarlane bound up the injured member.

This was not, however, the end of trouble, for when the party got about three miles this side of Mount Forest the engine heated up very badly, and more cold water was added, with the result that the engine head was cracked and the car had to be abandoned. A car was engaged to bring the stranded occupants to Durham, where they were met by a Flesherton car.

Let everyone be out to town that night and listen to the music to be provided by the band.

His Doubts Vanished

That the big speckled trout have not all been caught was evidenced last week, when the largest fish of the season was reported to The Advance. It was caught by Mr. Sam McMurdo of Swinton Park and measured twenty inches long, twelve inches in girth and weighed three pounds and five ounces and was caught in the Saugeen river near Priceville. Mr. J. S. McMillan of Ceylon accompanied his friend, Mr. McMurdo to the river for some sport and that day no fish arose to the lure to prove that fish of any size resided in the Saugeen. Mr. MacMillan took a skeptical view that there were no finny monsters in the river and there was no use dangling bait to something that wasn't there, but Mr. McMurdo, to prove to his friend that there were, went back the next day and landed the big beauty. as described above. He was a proud man and drove at once to the MacMillan home where he exhibited his catch, and then presented the skeptical one with the trophy of the rod and line. Needless to say it was a dish that any king would be proud to surround.
