Census on Highway

Again the yearly census of traffic on the Provincial and County highways was taken last week by Mrs. E. Best and Mr. R. Fisher. It shows that 9541 cars of Ontario licenses travelled on the provincial highway with 8402 on the county. Foreign cars numbered 505 and 434, trucks 903 and 840, busses 38 and 33 and horse drawn vehicles 513 and 582 on the provincial and county highways respectively. The figures show that there is a steadily increasing stream of traffic through town, and that it is an important intersection for north and west traffic. With the roads becoming better and more pavement being laid it is apparent that the Toronto and Owen Sound highway will become an important artery of traffic as time progresses.
