MORE CHEQUE SWINDLER ARTISTS.

Ten Orillia merchants were victimized by a pair of clever cheque writers recently, nine for $20 each and one for $40. Two strangers signing themselves Grace Ball and C. M. Ball went from shop to shop making small purchases and tendered bank cheques drawn on the Dominion Bank at Coldwater, in exchange. Each time the cheque was for an amount considerably in exces of their purchases, and a plausible story was given which was rarely questioned. As Monday was Civic Holiday little was known of the swindle till Tuesday and the pair made a clean get-away. At Bracebridge an attempt had been made to try the same scheme, but the passer was apprehended but he was not one of those who had been in Orillia. Various other centres in Ontario have been victimized by cheque artists of late and merchants are warned to be on the lookout

DIABOLICAL TRICK PLAYED ON FARMER

Thos. Calverley of Ardtrea had a most uncomfortable experience last Friday. He was driving home when he was stopped by a man in a big motor car. After asking some questions the man took out a flask and offered Mr. Calverley a drink. At the same time he poured glasses for himself and his wife. Mr. Calverley drank his glass (whether the other two did he does not know) and knew nothing more for fifteen hours. He was found in his buggy, with the horse wandering aimlessly, and was brought to the Orillia Soldier'sMemorial Hospital where the stomach pump was used. He did not recover consciousness for fifteen hours. Fortunately he had no money on him at the time so that if robbery was the object, the man got nothing for his pains. But it was a diabolical trick to play.

Editor of a New York magazine received a short story from a young author in Knoxville, Tenn., who signed herself Corona Remington. The story itself was acceptable, but the author was asked to use some other "non de plume." She set the editor right by advising him that this was her real name. And she wasn't named after either of the well-known typewriters, she said.

EUGENIA

Fire again visited ous locality and devoured the blacksmith shop belonging to Mr. Harry Foester, on Friday last. The fire broke out about 5 o'clock p.m. Mr. Foester was engaged shoeing a horse at the time, and it is thought that a piece of red hot calk off the shoe or a spark fell through a crack in the floor and ignited some hay which was underneath in the stable, and in a few moments the shop was a mass of rearing flames. Mr. Foester carried no insurance. The villagers took up a substantial collection to help build a new shop and buy tools and supplies. We extend our sympathy to Mr. Foester. He had the misfortune to lose his home by fire last year.

Mr. David Genoe, accompanied by his parents, Mr. and Mrs. Thos. Genoe, and Mr. Henry Tudor, spent a few days with friends in the city.

RAILWAY AUTOMOBILE

Travelling by automobile on the railway tracks Divisional Superintendent R. McKillop and party paused here Monday morning to pass the C.P.R. boat train. The car in which the party travelled was an ordinary one of Packard make and differed in nowise from the highway cars except in the wheels which were metal and flanged as are the wheels of all railway cars. While standing on the siding one of the wheels was removed for some adjustment and the spectators who were on the spot were able to look the wheels over. Its weight was considerably more than that of the wheel of a road car, but in size there was no apparent difference. The speed of the railway automobile is high; it can probably outdistance the largest locomotives operated by the railway. Mr. McKillop's car was running on train orders issued by the dispatcher same as any ordinary train. —Alliston Herald.

Mr. Robert Trench's men, 15 in number, left last Friday for Saskatchewan by motor. The truck used was fitted out with sleeping and dining accommodations, or they could get out and pitch a tent and build a fire and therby have this accommodation otherwise. The automobile was in reality a house-built-one and could be used if necessary. The men were taken out from Teeswater to harvest Mr. Trench's own crop. He has 3,000acres under cultivation. —Teeswater News.

IT takes three to complete a telephone call: the operator, the person calling and the person called. If any one of the three is at fault, the call fails.

Uncompleted telephone calls are a serious public problem. We call attention to it because we want you to have the best possible service at lowest possible cost.*

Every day in Ontario and Quebec there are over one million local telephone calls which are blocked — a waste of two million minutes a day — a congestion of traffic — a source of irritation — a handicap to perfect service.

Some of these uncompleted calls cannot be helped and some are due to our own errors, which we are constantly reducing. Many of the failures — "Line's Busy" — "They don't Answer" — "No one on the Line now" — "Wrong Number" — originate with the other two parties to the call.

We plan now to give publicity to common faults in telephone usage in the hope that there may be a mutual effort to maintain high efficiency of telephone service.

It is costing more than $27,000,000 this year to extend and improve telephone service in Ontario and Quebec.

IN MEMORIAM

STEWART — In loving memory of my dear husband, John Stewart, who passed away just one year ago, Sept. 14th, 1928.

I watched him suffer day by day,
It caused me bitter grief
To see him slowly pine away
And could not give relief.
Not dead to me, I love him dear,
Not lost, but gone before,
He lives with me in memory still
And will forever more.

—Sadly missed by his wife.

IN MEMORIAM

KAITTING—In loving memory of our dear mother, who passed away Sept. 11th, 1925.

In our homes you are fondly remembered,
Sweet memories cling 'round your name,
Hearts that loved you with truest affection
Still love you in death just the same.

—Ever remembered by the Family.
