## The Service a Bank Renders.

FROM the very moment production of a commodity is planned, until, through the channels of cammerce, it finds its way to the ultimate consumer, it must be financed. In providing funds to finance production and distribution, banking renders one of its major services to the Consume.r.

When a pedlar calls at your door ask him what he does for your town or community The merchants should ask printing canvassers the same question. Always remember that these people usually live in some other place and do not help to support the community in any way. Money spent with them goes to some other town or city. Buy from your home merchants. Money spent at home works at home, and helps your community and yourself.

## John S. Black A Personal Sketch

John S. Black, a much-respected resident of Glenelg Township, will shortly celebrate his 93rd birthday. Week before last he motored to Toronto and back with his son, and without fatigue, and attended the Toronto exhibition. A fact worthy of mention in this connection is that he attended the same exhibition 52 years ago. The fair was then held at the foot of Bathurst street, alongside the Garrison Common, and was a very small concern compared with that of the present day.

Mr. Black is a remarkable old gentleman in many respects, as you will agree after reading these notes of his long life. Born in Inverness-shire, Scotland, he arrived in Canada when only fourteen years of age, settling in the township of Eramosa, near Guelph. He came to Glenelg Township in 1855. He was married to Catherine McDonald, daughter of Archie McDonald, the ceremony being performed by Rev. Father Grannotiere at Owen Sound. To them were born thirteen children, eleven of whom are still living. These are, Angus in Dakota, John and Frank in Michigan, Alex. of Fort William, George on the homestead, and Joseph in Toronto; Mrs. McCormick and Mrs. McDonald, living near the home; Mrs. Bowie, Mrs. McDonald and Mrs. Graham, of Toronto

Mr. Black never received a day's schooling previous to his fourteenth birthday, and after that only such as he could get from a night school; yet his natural ability and Scotch perseverance qualified him for the position of Township Clerk which he held in the Township of Glenelg for 38 years! For seven years he was assessor of the township, and for six years filled the position of tax collector. Altogether he served his township in these three capacities for 52 years—a truly remarkable record. He was also appointed Justice of the Peace three consecutive times—under Queen Victoria, King Edward and King George. Four years ago Mr. and Mrs. Black celebrated their golden wedding when all their children were present, with one exception.

To-day, at nearly 93 years of age, Mr. Black can read his newspaper without the aid of glasses! He has the full possession of all his faculties, the only apparent infirmity being a slight deafness. He was always a great reader and had gathered together a quantity of historical data, which he had carefully put away in a trunk. Unfortunately this was burned a few years ago, and its loss is yet mourned by its owner.

Fancy the handicaps with which this rearkable old gentleman started life; then vision the extent to which these were overcome and the success he accomplished in qualifying himself for helping his fellow men in municipal capacities, and we think you will agree with us that under a kinder environment and better facilities for education he would have been qualified to become one of the great men of his time. The name of John S. Black is so closely interwoven with the history of Glenelg Township that to speak of one without mentioning the other would be like describing Windsor Castle without referring to the distinguished personage who resides therein.

The Advance recently remarked to Mr. Black that he was likely to reach the century mark before he left us. There was just a touch of pathos as he replied: "I hope not." His has already been a full life, and he is ready to lay down the burden. May the present afterglow of his sunset be as glorious as his energetic and successful life has been worthy of.

## Change of Election Date in Artemesia

At the last regular meeting of the Artemesia Council it was decided to have the Clerk prepare a by-law for the purpose of changing the dates for nomination and election of the officials of the township, to be presented at the next meeting of the Council. It is proposed to have the nominations the last Monday in November and if any election is desired to have it the first Monday in December. It is expected that the by-law will be placed before the electors for their ratification at the elections at the end of the year.

We believe this will be an excellent move on the part of the township officials as it takes the election away from the busy season around Christmas and New Years, and we believe more interest would therefore be taken in the selection of a council. There are many other places throughout Ontario that have already changed the dates and they are well satisfied with the results.

## The Political Outlook

The Chesley Enterprise issues the political situation editorally as follows.

The most of the executive Liberal party of South-East Grey live in Hanover. It seems the Liberal executive a few weeks ago made a proposition to the Conservative executive of the same riding for the Conservatives to withdraw their candidate in the Federal riding and allow the Liberals to contest the riding against Agnes McPhail, M. P. and in return for this the Liberals would not nominate a candidate for the Ontario Legislature. At a meeting of the Conservative executive in Durham the proposition of the Liberals was turned down and there will be no fusion of the two old parties in South-east Grey.

Nelson Perdue, a very popular farmer in Holland Township has been nominated by the Conservatives to oppose Mr. Oliver. the present local representative of the riding. We understand he will have a large majority of the vote of Holland.

Dr. Campbell was nominated several months ago as Miss McPhail's opponent. In talking to Durham Liberals we find the tendency is to support Miss McPhail. They claim she was not given due credit for the part she played in securing a new post office for Durham and are sympathetic towards her. The U.F.O.still has considerable strength through co-operative societies in South-East Grey and with Liberal support in Durham and Hanover for the only lady member she should stand a good chance of re-election.

We have heard very little about the situation in South-East Grey from the provincial standpoint excepting what we said about Mr. Perdue being strong in his own township, which always speaks well for any candidate. There isn't much in the charge that Mr. Oliver has done nothing for his riding. There are very few grants of public money a member can get for a riding in Old Ontario.

The Federal and Provincial ridings of South-East Grey are not the same, Sullivan township being in North Grey for Provincial purposes and in South-East Grey for Federal elections.

Watch the school at 1 p.m. on Fair day, Sept. 20th.
