MEAFORD FISHING FEATURED IN GREY COUNTY EXHIBIT

Through the efforts of Mr. H. Rowe, chairman of the Fishing Committee of the Meaford Board of Trade and the courtesy of Mr. T. Stewart Cooper, Agricultural representative of Markdale, Meaford fishing is featured in the Grey County exhibit at the Canadian National Exhibition in Toronto. The large fish weighing 33 lbs. 8oz. caught by Mr. Geo. Duncan, of Owen Sound, was recently mounted and takes a prominent position in the display. A number of photographs are included; a fresh caught trout is kept on display in the refrigerator display case. This is good advertising and should result in many visitors to our town, much to the credit of Messrs. Cooper and Rowe.

The Secretary, T. W. Findlay, has entries in from 80 miles away already.

Be a booster and talk for our fair, not against it.

While our fair gained 800 entries last year the Secretary informs us that he will look after just as large an increase this year if he has to.

Co-operation means success to any object. Let everybody co-operate and make our Fall Fair a real success.

The production of lead in Canada has increased from 25,000 tons in 1918 to 170,000 tons in 1928. The great Canadian source, according to Natural Resources, is British Columbia which contains the largest lead and zinc mines in the world.

It is true in a sense that "nothing ever happens in a country town" but that after all is one of its great assets. There are no murders, no riots, no communistic disturbances. The citizens are thrifty and are producers—not destroyers. It should be a matter of pride that "nothing ever happens in this town."

When Jules Verne wrote his stories, which many of us read as boys, he thought an airship might fly round the world in sixty days. The great zeppelin has now cut this time in half and the actual flying time was much less than that. Moreover, the passengers and crew have not had quite as harrowing experiences as those on board Verne's "Clipper of the Clouds."
