PORTLAW

We extend our deepest sympathy to the Thurston family in their recent sore bereavement, in the death of Mr. Shaw of Lions Head. Especially does our sympathy go out to the bereaved young wife and fatherless children, in the great loss they have sustained.

This section of country was visited last Monday night by one of the most violent cyclones we have ever experienced.. Fences were levelled, fruit and other trees were broken down. The most serious happening was the unroofing of a large barn belonging to Wm. T. Fletcher and used by T. R. McKenzie, which contains the most of the sasons crop. Also part of the roof was taken off Mr.Luther Love's large barn. A pig was killed and Mr. Love had a thrilling experience in which he narrowly escaped serious injury. The twister came from the west and taking the third line as its centre it swept along for a few moments at a trrific rate. In addition to the damage already mentioned part of the roof of Mr. W. H. McNally's house on the Thompson farm was taken off and a summer kitchen blown down. Mr. Lewis Hill had his kitchen roof taken off. Mr. Lewis Sheardown had his implement shed moved on the foundation, and a number of other roofs were stripped of their shingles.

Mr. Robert Blakey suffered a severe loss on Monday night when his barn and contents were destroyed by fire, which, we understand, was caused by the upsetting of a lantern.

Mr. and Mrs. Lawrence of Creemore were visitors with friends on the 4th line.

Mr. and Mrs. Thomas Taylor visited Rev. Mr. Kendall, who is still a patient at the hospital at Fergus.

Mss Frier of St. Catharines visited last week with her aunt, Mrs. Albert Blackburn.

PROTON STATION

The anniversary services held in the United church last Sunday were well attended and were much enjoyed by all. Rev. F. Sullivan of Priceville preached at the three services, earnest and eloquent sermons, which were listened to with rapt attention. The choir of the church was assisted by Mrs. Baguley and Messrs. Edwin Fowler and R. G. Acheson and rendered splendid selections at each service. The church was tastefully decorated for the occasion and ideal weather contributed to its success.

Mr. and Mrs. Thos. Mino of Owen Sound and Mr. and Mrs. A. McDonald of Priceville visited with Mrs. Park and daughter, Miss Lena Park.

Miss Margaret Lyons was home for the week end.

Several from this village attended the funeral of the late W. A. Armstrong of Flesherton.

. . . to save time
USE THE DIRECTORY
and avoid "wrong number"

TELEPHONE numbers are tricky things to remember. Often when you think you know a number you have really transposed the two inside figures. It is so easy to say 3264 instead of 3624! The result is that you get "Wrong Number". You are annoyed and so is the other person. You have wasted your own time and his.

It is safer and quicker to use the directory before you call a number, because "Wrong Number" is one of the chief causes of a million calls a day in Ontario and Quebec which go wrong — tie up traffic — cause irritation — block business.

Some of these are operators' errors, and some are mistakes by the person making the call. He may ask for the wrong number — he may speak indistinctly and be misunderstood.

We want you to have the best possible telephone service. We are constantly striving to provide it by reducing our own errors and by improving equipment.* But it takes three people to complete a call.

Use the directory — speak slowly and distinctly — avoid wrong numbers — save time — help business efficiency.

*To keep a step in advance of demand, and to improve facilities, will involve an outlay this year in excess of $27,000,000.

SQUIRREL HAD NINE LIVES

When two electric circuits at the substation were tripped out one day last week in Orillia, the Packet-Times tells, it was discovered that the "trouble" was caused by a black squirrel which had got across the wires on the roof, and caused a short circuit. 4,000 volts is considered fatal under almost all circumstances, but when a lineman went to pick up the body of the squirred to his surprise the little animal suddenly leapt to life and started away — leaving every scrap of his hair behind him! All his beautiful black coat had been burned off him by the 4,000 volts shock he had received, and part of his body had been burned a copper color.

The squirrel had to undergo more trials of adversity, as two stray cats became interested in him, apparently mistaking him for a rat. Giving a hopeless squeak, the coatless squirrel ran away, the cats in full pursuit. Mr. Starr came to the rescue,and the squirrel took refuge under a tombstone in Price's yard. When that was moved, he ran up a tree and disappeared. If the squirrel is still alive, he is in for a cold time next winter."
