HEMORRHOIDS or **PILES** find in this the only immediate **relief** and ultimate **cure.** No case, however chronic or obstinate can long resist its regular use.

VARICOSE VEINS. It is the only sure cure.

THE GREAT ENGLISH REMEDY!

Specific Medicine.

Cures all Nervous Diseases, such as Premature Debility, Prostration, etc., which are in many cases produced by over indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhœa, Impotency and all diseases that follow as a sequence of self-abuse, as loss of memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which are the result of a first error caused by deviating from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet which we desire to send free by mail to every one.

The Specific Medicine is sold by all Druggists at $1 per package, or six packages for $5, or will be sent by mail on receipt of the money by addressing

Sold in Ottawa by Wm. A. Lord, Alex Christie & Co., H. F. MacCarthy, R. J. Mills, F R. Davidson, G T O Ewell, and by all respectable druggists everywhere.

PHOSPHORUS:

AS A

MEDICINE

Although the modern Materia Medica includes many valuable remedies for human afflictions, it is a matter of certainty that in all cases where the animal vitality is failing, phosphorus is decidedly superior to every other remedy at present known. It will work effects such as nothing else will produce, and it possesses the great advantage of not causing, when its use is relinquished, the slightest reaction or depression.

The *Cornhill Magazine* of April, 1861, says:—"But of all the inorganic elements, none seem to exhibit so striking an adaptation to become a constituent of the organic body as *Phosphorus.* Here, then is an element, which can imperceptibly and quickly pass from a condition of great chemical activity to one of great chemical inertness. In virtue of this character Phosphorus may follow the blood in its changes, may oxidise in one great set of capillaries, and be indifferent to oxygen in the other; may occur in the brain in the vitreous form, changing as quickly as the intellect or imagination demands, and literally flaming that thoughts may breathe and words may burn, and may be present in the bones in its amorphous form, content, like an impassive caryatid, to sustain upon its unwearied shoulders the mere dead weight of stones of flesh—and what is here said of the brain, as contrasted with the bones, will apply with equal or similar force to many other organs of the body. All throughout the living system, we may believe that Phosphorus is found at the centres of vital action in the active condition, and at its outlying points in the passive condition."

Dr. Rowbotham says it is difficult to avoid the conclusion that Phosphorus in a free, unoxidated state is an essential element of activity in the brain and nervous system of animals: it is equally difficult to resist the conviction of the great importance of Phosphorus as an element of the *Materia Medica.*

The question naturally presents itself, "Why is so valuable an element so little regarded and so seldom prescribed?" The only answer which can be given is:—that a certain difficulty has been found in so preparing it that its action may be kept under perfect control. Hitherto it has been used in almond and olive oils, in Sulphuric Ether, in rectified Alcohol, in Chloroform, and in several other substances; but, however valuable it has been found in all the hitherto known methods of its preparation, certain irregular results have been experienced, which have led physicians to neglect it for general purposes, and to employ it only in extreme cases. But a chemical process has now been discovered, by which its invaluable action on the human system may be realised without any of those drawbacks which previous modes of administration have invariably produced.

Protected by Royal Letters Patent.

UNDER DISTINGUISHED PATRONAGE

DR. BRIGHT'S

PHOSPHODYNE,

THE NEW CURATIVE AGENT, AND ONLY RELIABLE REMEDY FOR NERVOUS AND LIVER COMPLAINTS.

This Phosphatic combination is pronounced by the most eminent members of the Medical Profession to be unequalled for its power in replenishing the vitality of the body, by its supplying all the essential constituents of the blood and nerve substance, and for developing all the powers an functions of the system to the highest degree.

It is agreeable to the palate, and innocent in its action, while retaining all its extraordinary properties, and as a specific, surpassing all the known therapeutic agents of the present day for the speedy and permanent cure of

Nervous Prostration.
Liver Complaints.
Palpitation of the Heart,

Nervous Fancies,
Impoverished Blood,
Nervous Debility in all its Stages
Premature Decline

and all morbid conditions of the system arising from whatever cause. The action of the Phosphodyne is twofold—on the one hand increasing the principle which constitutes nervous energy, and on the other the most powerful blood and flesh generating agent known; therefore, a nervious medicine for renovating impaired and broken-down constitutions. It quickly improves the functions of assimilation to such degree, that where for years an emaciated, anxious, cadaverous, and semi-vital condition has existed, the flesh will rapidly increase in quantity and firmness, and the whole system return to a state of robust health.

The Phosphodyne

acts electrically upon the organization; for instance, it assists nature to generate that human electricity which renews and rebuilds the osseous, muscular, nervous, membranous and organic systems. It operates on the system without exciting care or thought upon the individual as to the process. It moves the

LUNGS, LIVER,
HEART, KIDNEYS,
STOMACH,
AND INTESTINES

with a harmony, vigour, yet mildness, unparalleled in medicine.

The Phosphodyne

gives back to the human structure, in a suitable form, the phosphoric or animating element of life, which has been wasted, and exerts an important influence directly on the spinal marrow and nervous system, of a nutritive, tonic, and invigorating character, maintaining that buoyant energy of the brain and muscular system, which renders the mind

CHEERFUL, BRILLIANT, ENERGETIC

entirely overcoming that dull, inactive, and sluggish disposition which many persons experience in all their actions.

THE BENEFICIAL EFFECTS

of the Phosphodyne are frequently shown from the first day of its administration by a remarkable increase of nervous power, with a feeling of vigour and comfort, to which the patient has long been accustomed.

DIGESTION IS IMPROVED,
THE APPETITE INCREASES WONDERFULLY,
THE BOWELS BECOME REGULAR,
THE EYES BRIGHTEN,
THE SKIN CLEAR AND HEALTHY,
AND THE HAIR ACQUIRES STRENGTH,

showing the importance of the action of the Phosphodyne on the organs of nutrition.

Nervous Debility,

Many of the hundred symptoms which this distressing disease assumes, may rest assured of an effectual and even speedy cure by the judicious use of this most invaluable remedy.

DR. BRIGHT'S PHOSPHODYNE

Is sold only in Cases at 10s. 6d. by all Chemists and Patent Medicine Vendors throughout the Globe.

Full Directions for Use in the English French, German, Italian, Dutch, Spanish, Russian, Portuguese, Danish, Persian, Hindoostani, Turkish, Madrasee, Bengalese, Chinese, and Japanese Languages, accompanying each case.

Finally, the PHOSPHODYNE maintains a certain degree of activity in the previously debilitated nervous system; its use enables all debilitated organs to return to their sound state and perform their natural functions. Persons suffering from

CAUTION.—The large and increasing demand for Dr. Bright's Phosphodyne has led to several imitations under similar names; purchasers of this medicine should therefore be careful to observe that each case bears the English Government Stamp, with the words Dr. Bright's Phosphodyne engraved thereon (white letters on a red ground), and that the same words are also blown in the bottle. Every case bears the trade mark and signature of patentee. The public are also particularly cautioned against purchasing spurious imitations imported from the United States, and are requested to note the directions for use printed in all the languages as above, without which none can possibly be genuine.
