THE ATLANTIC CABLE

ARRIVAL OF THE NIAGARA AT TRINITY BAY.

PREPARATION FOR THE FIRST MESSAGE!

TRINITY BAY, Aug. 5.

The Atlantic Telegraph fleet sailed from Queenston on Saturday, July 17—arrived at mid-ocean on Wednesday, the 28th—made the splice on the afternoon of Thursday, the 29th, and then separated—the *Agamemnon* and *Valorous* bound to Valentia, Ireland—the *Niagara* and *Gorgon* for this place, where they arrived yesterday; and this morning, the end of the cable will be landed. It is 1,698 nautical, or 1,950 statute miles, from the Telegraph House at the head of Valentia harbour, to the Telegraph House, Bay of Bulls, Trinity Bay; and for more than two-thirds of this distance the water is almost two miles in depth. The cable has been paid out from the *Agamemnon* at about the same speed as from the *Niagara*.

The electrical signals sent and received through the whole cable are perfect. The machinery for paying out the cable worked in the most satisfactory manner, and was not stopped for a single moment from the time the splice was made till we arrived here. Captain Hudson, Messrs. Everett & Woodhouse, the Engineers, the electricians and officers of the ships, and, in fact, every man on board the Telegraph fleet has exerted himself to the utmost to make the expedition successful, and by the blessing of Divine Providence it has succeeded. After the end of the cable is landed and connected with the land line of telegraph, and the *Niagara* has discharged some cargo belonging to the Telegraph Company, she will go to St. Johns for coals and then proceed at once to New York.

PHILADELPHIA, August 5.

The President, who is at Bedford, received the first intimation of the successful laying of the Atlantic cable, through the Associated Press. The following is a copy of Mr. Field's message to the President of the United States:—"Washington,—Dear Sir,—The Atlantic telegraph cable on board her British Majesty's steamer *Agamemnon* and the United States frigate *Niagara*, was joined in mid-ocean, July 29th, and has been successfully laid, and as soon as the two ends are connected with the land lines, Queen Victoria will send a message to you, and the cable will be kept free until your reply has been transmitted. With great respect, I remain your obedient servant—CYRUS W. FIELD."

THE ATLANTIC TELEGRAPH.

BEDFORD, PA., August 5.

To Cyrus W. Field, Trinity Bay,—My Dear Sir,—I congratulate you with all my heart, on the success of the great telegraph with which your name is so honourable connected. Under the blessing of Divine Providence, I trust it may prove instrumental in promoting perpetual peace and friendship between the kindred nations. I have not yet received the Queen's despatch.—Yours very respectfully, JAMES BUCHANAN."

NEW YORK, August 5.

The news of the success of the Atlantic Telegraph Cable created an unexampled excitement here and elsewhere.

QUEBEC, August 5.

Intense excitement is created by the announcement of the success of the great event of the age. It has since been the almost exclusive topic of conversation, and a general feeling of gratification is apparent.

ALBANY, July 5th.

The intelligence of the arrival of the Telegraph Cable created an immense sensation here. The news reached here about 12 30 o'clock, and instantly spread over the city, causing much excitement. Crowds of persons flocked to each newspaper office and the telegraph offices for confirmation of the news, which was at first doubted; but when the conviction of the truth of the report forced itself upon the public mind, the scene in the streets was as though each person had received some intelligence of personal interest. No commercial event created more excitement. The news was conveyed to the Board of Trade, to the court and the meeting of Central Railroad, and for a while entirely interrupted the proceedings of those bodies. The telegraph office and other public offices are illuminated to-night in honour of the arrival of the Telegraph Cable.

WASHINGTON, July 5.

The public mind was greatly excited today by the news of the success of the Atlantic Telegraph Cable. The general impression at first was that the news was too good to believe, but the confirmation of the news has caused a feeling of delight, amounting almost to transport.

CINCINNATI, July 5.

Great excitement on 'Change upon the announcement of the success of the Atlantic Cable. Business for some time was suspended.

MONTREAL, July 5.

The news of the arrival of the *Niagara* at Trinity Bay was received here shortly after noon to day, and caused a profound sensation. The union of the Provinces with the mother country by the electric bond was hailed with intense gratification.

HALIFAX, August 6.

The orders of the associated press to hold open the lines between New York and Trinity Bay, last night, were received and complied with as far as this Province, but from some unexplained cause, the Newfoundland line closed, or at least ceased to work in the evening, thus cutting off all communication with the cable at Trinity Bay. We have as yet no communication this morning with the Trinity Bay Telegraph office, and have, therefore, nothing important to communicate in addition to the satisfactory reports of yesterday, from Mr. Field. Our latest advices left the engineers and their assistants employed in getting the cable on shore at the Bay of Bulls. No doubt was entertained but that the *Agamemnon* had arrived at Valentia Bay, but as the telegraphic instruments for the transmission of intelligence have never been put up on board of either vessel, there can be no actual communication expected by signals, until both ends of the cable shall have been connected with the shore, which may require several days.

NEW YORK, August 6.

The Merchants' Exchange in this city and the several telegraph offices at 21 Wall-street, will be brilliantly illuminated this evening, in honour of the success of the Atlantic cable. This greatest event of the age will also be appropriately celebrated this evening, in every city and town and village throughout this State and New England, and the British provinces, where there are telegraph offices.

PHILADELPHIA, Aug. 6.

The President has given permission to the Associated Press to copy the Messages referring to the opening of the telegraph cable.

SHACKVILLE, N. S., August 6.

The lines east to Halifax and west to New York are in good order, but the Newfoundland line is out of order. It probably will be repaired in the course of the afternoon.

TRINITY BAY, Aug. 8.

The people here seem to have little faith—in the laying of the cable—they have made very slight preparations. One end of the Atlantic cable was landed on the Irish coast, by the *Niagara*, on the 5th of August, 1857, the other end from the same vessel on the 5th August, 1858. The shore end from the Valentia laid last year, remains; so that both ends have been actually laid by the *Niagara*.

NEW YORK, Aug. 9.—We understand that the recording instruments for the Atlantic cable are in such a state of forwardness as to ensure the early opening of the line for business. It is understood that the transmission of the Queen's and the President's first message through the cable will take place early in the afternoon, and probably in the course of the present week. Instantly after the transmission of the President's reply to the Queen's communication, the two messages, by consent of the President and co-operation of the managers and employees of the telegraph lines throughout the country, will be made public, from Quebec to the boundary of civilization in the north-west. We have assurances from all points that so soon as the Queen's and President's messages are received, there will be public and private demonstrations of joy by the ringing of bells, firing of salutes, &c., in every city, town, and village throughout the whole country. It is understood that Mr. Field will cause notice to be given in advance of the day when the first message will be transmitted through the cable.

BEDFORD, PA., Aug. 7.—A large crowd assembled to day to congratulate the President on the success of the Atlantic cable. It is estimated that 1500 persons were present. The following is Mr. Field's reply to the President:—"Trinity Bay, Aug. 7.—To His Excellency James Buchanan, President of the United States, Bedford Springs.—Your telegraph despatch is received. We landed here in a wilderness, and until the telegraph instruments are all perfectly adjusted no message can be recorded over the cable. You shall have the earliest information, but some days may elapse before all is effected. The first message from Europe shall be from the Queen to yourself, and the first from America to England your reply. With great respect, very truly your friend,—C. W. FIELD."

News Items.

Dred Scott in now a "citizen" of Vancouver's Island.

The Philadelphia City Treasury is again empty.

More gold mines it is reported, have been found in Georgia.

The cost of the Atlantic Cable is said to be about $500 a mile.

John McDish, a giant from Georgia, passed through Norfolk, on Friday week. He weighs 300 pounds, and is 7 feet in height.

A Salt Spring, of great purity, is said to have been discovered at Clyde, Wayne Co., to work which a company has been formed.

There were 607 deaths in N. Y. city last week, 462 of which were under ten years of age. There were 139 deaths from cholera infantum.

Peaches have begun to arrive at New York from the South. One thousand boxes, sent from Charleston, reached that city on Monday week.

lives in the Block House, and who bravely pushed out in a punt to their assistance despite the violence of the storm. Another boat was also capsized below the town; but the men on board, three in number, clung to the bottom and were rescued.

The Kingston *Whig* says that, on Friday last, a party of artillerymen went off in a boat to Fort Henry, and, as might be expected from the weather, the boat swamped, and two of them were drowned. The bodies have not yet been found.

RAREY'S CAREER BROUGHT TO AN END.—Mr. Rarey's career has unexpectedly been stopped. He had cleared some £15,000 to £20,000 by his horse taming secret, when suddenly, Routledge, the cheap publisher, got hold of a pamphlet published by the horse tamer in America, and printed it. It contains in a small compass all the art of horse taming; and the subscribers, who had bound themselves not to divulge the secret under a penalty of £500, became furious, and Mr. Rarey had to release them from their pledge, in a letter in the *Times*.

TORONTO MARKETS.

Beef $6 per cwt.
Potatoes 2s 6d per bushel.
Butter 10d per lb
Eggs 10d per doz.—*Leader*.

DIED.

ANNA MARR, the beloved wife of Jacob Marr, Esq., departed this life, in the triumphs of faith, July 27th, 1858. Sister Marr died in the quite of her own family, surrounded by weeping and dutiful children, kind friends, and an attentive and sorrow-stricken husband. She was third daughter of Major John Button, of Buttonville, Mownship of Markham. She was born 20th Nov., 1806; experienced religion 1827; and continued a most faithful and devout member of the Methodist Church till, by death, she was taken from the evil to come to her reward in heaven. In Nov. 27th, 1858, she was united in marriage with Jacob Marr, Esq., who ever proved a kind husband and her constant friend. In her, children have lost one of the kindest of mothers, the church one of its bright st ornaments, the communits a kind neighbor, and her husband a constant, affectionate, and attentive wife.

The graves of all his saints he blest,
And softened every bed;
Where should the dying members rest,
But with their dying head.

—*Economist*. R. H.

Special Notices.

THE SKIN

Is formed with thousands of pores in every inch of surface whose office it is to carry off the impurities of the blood—the acknowledged cause of all diseases of mankind—when the skin is dry and parched—when it is covered with eruptions—when it is cold and clammy—when there is inward fever or inflamation—it is impossible for the skin under these circumstances to perform their proper functions and to carry off the impurities from the body as designed by our Creator.

Morse's Indian Root Pills remove these obstructions, and produce free and healthy blood, remove the eruptions from the skin, and cause it to brighten with the flush of youth and beauty. Beauty is much admired and loved. Beauty without paints and cosmetics—but beauty produced by health and happiness.

Dr. Morse's Indian Root Pills are sold by all dealers in Medicines.

LIFE Pills and Phœnix Bitters. Sedentary denizens of our large cities afflicted with headache, dyspepsia, short breathings, pains in the region of the pleuritis and the liver, should invariable try the effects of these medicines, instead of resorting to cupping, leeching or phlebotomizing. Thousand of lives have been saved by the Moffat medicines. Sold by W. B. MOFFAT, 335 Broadway, New York, and his Agents.

PROSPECTUS OF
The Woman's Advocate
FOR 1858.
Fourth Volumn.

A. E. MCOWELL, EDITOR.
L. J. PIERSON, CORRESPONDING EDITOR.

The object of the Woman's Advocate is the opening out of new spheres of employment for women who have so long suffered the distress attendant upon the insufficient remuneration, and a too limited number of occupations.

The paper endeavors to collect all information that can be important to women, relative to occupations better suited to them, and which will yield a more comfortable subsistence than the few unhealthy trades upon which they have been so far obliged to depend for existence.

The Advocate employs, in the various departments of the business, many women, who are paid for their labor as high prices as are paid to men for the same amount of work. To the editor and proprietor the past three years in which she has been engaged in this work, have been years of anxiety and toil; but the enterprize has been carried on with the hope of doing good to others, and finally pushing the business to a successful point, when it may remunerate all concerned. With this hope she enters the field for another year, trusting to the many assurances of friends in all parts of the country, for aid and co-operation.

TERMS OF SUBSCRIPTION:

For One Copy, one year.....$2 00
For Five Copies,..... 8 00
For Ten Copies.....15 00

TO POSTMASTERS.

Postmasters throug out the country are requested to act as agents, and deduct the usual commission.

EMPLOYMENT FOR LADIES.

Any lady of good address, and energetic habits, can make from five to twenty dollars a week, by canvassing for subscribers for the Advocate. We want such agents in every township and city in the United States and the Canadas. If any one wishes to enter upon a lucrative employment, and will send a recommendation for honesty and ability, they will have credentials forwarded to them to act as agents.

Address, ANNA E. M'DOWELL,
Editor and Proprietor,
59 Philadelphia, Pa.

PHONOGRAPHY
OR
WRITING BY SOUND!

PITMAN'S Manual of Phonography is a work of about 100 pages, every other leaf of which is printed from stone engravings, giving writing exercises in the art which the book is designed to teach. By the use of this Manual, any school boy or girl, of 5 or 6 years and upwards, may learn, in a surprisingly short space of time, to read and write Phonography or Phonetic Short-hand, and a few months of daily practice is all that is required to enable a child of ordinary intelligence to write 100 or more words per minute! This rate of speed is sufficient to take down ordinary sermons, speeches, and conversation as fast as spoken. The "Manual of Phonography," 75 cents, and the "Phonograpic Copy-book," 25 cents, are sent to any address, by mail, post-paid, on receipt of the price, ONE DOLLAR.

Address, post-paid,
WILLIAM H. ORR.
Oshawa, C. W.,

From whom all English or American Phonograpic Works may be procured. t.

DAVID THOMPSON.
Markham, 13, 1858. t49-4

The Scottish American Journal!

DEVOTED TO THE

Interests of Scotchmen in America,

AND TO THE DISSEMINATION OF

SCOTTISH LITERATURE AND ART!

CONSIDERING the multiplicity of newspapers in America, it has to many been a matter of surprise that the numerous body of Scottish residents should have been so long unrepresented. To supply this desideratum, No. 1, of the SCOTTISH AMERICAN JOURNAL was published on Saturday, August 8, 1857, and is now continued weekly.

The primary object of the JOURNAL is to furnish its readers regularly with the news of their native country. It presents a weekly record of all events of interest occurring in Scotland, and its subscribers are in this way as fully informed of what is transpiring at home as if they were in regular receipt of an old-country newspaper. Scottish questions will be discussed with intelligence and impartiality in the editorial columns, and the sentiments of the leading parties on those subjects will be fairly represented and commented upon.

In the literary and miscellaneous department of the paper, while merit and talent will be appreciated from whatever country they emanate, the Scottish element will preponderate. Tales, sketches, and poetry, illustrative of the Scottish character, and of a nature fitted to call forth the sympathies of Scotchmen both at home and abroad, will occupy a conspicuous place. In this department, the co-operation of various distinguished authors, possessing unrivalled facilities for the task, has been secured.

In politics, the JOURNAL will occupy a thoroughly independent position, alike free from party bias and national prejudice. In order to interest its readers wherever situated, it will take a broad view of topics of this class, avoiding those of a merely local nature, except in so far as they may present points of importance to the general public. Questions involving the interests of British residents in the United States and in the British Provinces, will be specially considered, and it is believed that the information and news of the JOURNAL on this impo tant class of subjects will be such as shall command attention.

The SCOTTISH AMERICAN JOURNAL, will in every respect be conducted in an efficient and business like manner, with every requisite guarantee for its permanence. The proprietors, who are responsible parties, resident in New York and elsewhere, therefore look with confidence for the support of their numerous countrymen in all parts of America, and they will be glad to communicate with respectable parties at a distance who may be disposed to co-operate with them for the establishment of the paper in their respective localities.

A publication established with these objects must of course look for support mainly from those connected by birth or descent with the country whose current history it chronicles; but as the broad basis of this journal necessitates, in addition, the treatment of all important questions affecting American interests, and as its literature will be cosmopolitan, it is hoped that even to the general reader its columns will not appear unentertaining or profitless.

☞ LOOK AT THIS! ☜

ALMOST EVERYBODY is ordering the *PLOUGH, LOOM and ANVIL*. That the rest may be as wise, and possess themselves of what we are bound—at any cost to ourselves—to make the Leading Industrial Journal of the times—the best for the Farmer, the Mechanic, and the Family Circle—we make the following unprecedented liberal offer:—

Our Eleventh Volume will commence with January, 1858—will run to January, 1859—and contain 768 large octavo pages, on fine paper, with new type. It will be issued within the first week of each month, in numbers of 64 pages each, done up in the best magazine style.

To all who will forward the money for this volume, as single subscribers or in clubs, we will send gratuitously, the numbers of the current volume, from the time of their forwarding, and one month previous, thus giving in two, three, or four numbers, according to the time, to all who subscribe before January.

TERMS:—$2 a year, in advance; $1 50 to clubs of four and upwards; $1 for six months. Advertising, ten cents a line. For giving publicity to improved stock, agricultural implements, mechanical improvements, and like matters of general interest, there is no other medium good at the price.

Liberal terms to persons disposed to act as agents for this work. Let us hear from it.

J. A. NASH,
M. P. PARISH,
7 Beekman Street.
