THE HISTORY OF CANADA.

NOW IN THE PRESS,

And Will be published about the 1st of June,

THE HISTORY OF CANADA,

From its first discovery to the present time,

By J. MacMullen, Esq.,

Second Edition, 650 pages 8vo., carefully corrected and revised, continued down to 'Dominion Day,' 1867, and beautifully printed on superfine paper. Price $3 in bevelled cloth, or $4 in antique morrocco, gilt or marbled edges

The first edition of this History, published in 1856, was received most favorably by the Canadian Press and Public, and immediately sold. The entire work has now been carefully revised, a large portion relating to the Province of Ontario re-written, and about 100 pages of entirly new matter added, continuing the narrative in the most full and complete manner from 1850 to 1867, an exceedingly interesting and important period in the constitutional History of this country. The Author has had access to the most authentic sources of information, and has spared no pains to make his history a valuable book of reference to the public man, as well as a reliable source of information to all those who desire to acquaint themselves with the annals of this Dominion. The last chapter will give full details of the social condition of the Canadian people at the present time, as well as the progress of this country in population, trade and commerce; education, &c., from the earliest period to the date of the latest government statistical returns. This work supplies the only full and complete history of the Province of Ontario, from its first settlement in 1784, to existence; while no event of any importance is omitted in the history of the province of Quebec. It will be beautifully printed on superfine paper, expressly made for the publishers by Cowan & Co., of Edinburgh, and will be one of the handsomest books, as regards and binding, ever published in Canada.
