

NOTED EXHIBITION SPECIALIST TAKES CHARGE OF WORLD'S GRAIN SHOW BUILDING

World's Grain Exhibition and Conference Building

J. O. Turcotte, Canadian Exhibition Commissioner, has arrived in Regina for the purpose of conferring with members of the executive and exhibition committee of the World's Grain Exhibition and Conference to be held at Regina in 1932. Mr. Turcotte will have charge of the interior decoration of the building specially erected to house the 1932 exhibition and conference.

J. O. TURCOTTE

Recently, Mr. Turcotte returned to Canada from the British Trade Exposition at Buenos Aires, Argentina, where he had complete charge of the Canadian Pavilion. He is expected to remain in Regina for a few days in conference with various officials of the World's Grain Exhibition and Conference.

Mr. Turcotte, who is a French-Canadian by birth and a Paris trained architect, was appointed Canadian Exhibition Commissioner in 1925. For some years prior he had been assistant exhibition commissioner. He was responsible, almost in its entirety, for the Canadian pavilion at the British Empire Exhibition, Wembley, England, 1924-25, and for the Canadian exhibit at the World's Poultry Congress at the Crystal Palace, London, England, last year, the Canadian exhibit at the Paris Exposition the same year and the Canadian Pavilion at the British Trade Exposition at Buenos Aires last March.

On two occasions Mr. Turcotte has been signally honored. At the opening of the Wembley Exhibition, attended by over 110,000 people, he was one of five presented, by command, to His Majesty the King, and at Antwerp he was also presented to the King of the Belgians, receiving congratulations on both occasions for the excellence of his work.

Mr. Turcotte personally prepared

the plans and specifications of the buildings in which Canadian exhibitions are housed. He superintends the construction, designs, educational and commercial exhibit stands and is also responsible for the entire color schemes and decorative features.

Mr. Turcotte is the originator of the style of decoration work in seed, samples of which have already been displayed at Regina in the form of the crest of the World's Grain Exhibition and Conference. When his services for the decorative work of the World's Grain Exhibition and Conference building at Regina were made available to the organization by the Canadian Department of Trade and Commerce he saw the opportunity to develop the seed style of interior decoration as being particularly appropriate for the first exclusive world's grain exhibition and conference in history.

This style of interior decoration came as a result of Mr. Turcotte's hobby of mosaic work. If color schemes could be worked out in small pieces of marble, he argued, similar schemes could be evolved from natural Canadian products and for the interior decorative

work of the World's Grain Exhibition and Conference he has chosen seeds of various kinds which will permit him to work out the most elaborate decorative features.

Those who have been associated with Mr. Turcotte at former world exhibitions state that he has built up a reputation of never being late. All Canadian pavilions of which he has had charge at exhibitions in different parts of the world have been ready for the public by opening day. He created a noteworthy record at Wembley in 1924 when the Canadian Pavilion was the only one of the hundreds of structures actually complete in all detail at the hour set for opening.

Mr. Turcotte also established another record in connection with the Buenos Aires Exposition. The Canadian Pavilion was actually built in London, England, and consisted of a wooden building about 86 feet high, 100 yards long and 40 yards wide, made in 35,000 pieces. The pieces were numbered, packed into thousands of cases, the whole weighing about 1,200 tons. They were shipped to Buenos Aires and upon their arrival Mr. Turcotte laid out the work, set the building up, planned and erected the decorative features and had the pavilion ready for the public nearly two weeks before the official date of opening. English newspapers, commenting upon this remarkable feat, described the building, at the time of packing, as the world's greatest jigsaw puzzle.

The above picture lay-out shows the magnificent new building erected on the exhibition grounds at Regina to house the World's Grain Exhibition and conference in 1932. The cost of the building and decorations is approximately \$250,000. It has an area of 150,000 square feet with an exhibit frontage in excess of one and one-half miles. The building is practically ready to hand over to the National Committee of the World's Grain Exhibition and Conference who, in turn, will place it at the disposal of Mr. Turcotte (below) for the purpose of interior decoration.

Every phase of industry will be represented at the 1931 Canadian National Exhibition, Toronto. The Canadian National Exhibition is the world's largest annual spectacle.

CRyderman-RUSE PICNIC

The Cryderman-Ruse family picnic was held in Elliott Memorial Park on Saturday, July 11th. In spite of threatening clouds and occasional showers the different branches of the families gathered together to again spend an afternoon in pleasant companionship. They were present from Huntsville, Baldwin, Newmarket, Toronto, Oshawa, Orono, Bowmanville, and surrounding country to the number of one hundred and twenty-five.

During the afternoon an exciting game of ball was played and an excellent program of sports arranged by Mr. C. Cryderman, Mr. and Mrs. H. Hudson and Mr. F. Ruse, for which prizes were given to the winners, after which a group picture was taken. The supper served would please the most fastidious.

Afterwards a business meeting was held at which the following officers were elected: President—Mr. L. E. Ruse, Long Branch; 1st Vice Pres.—Mr. F. M. Cryderman, Bowmanville; Committee—Mrs. Fred Tamlyn, Orono, Mrs. W. Wilbur, Hampton, Mrs. F. M. Cryderman, Bowmanville, Mr. Fred G. Kerslake, Hampton, Mr. C. Cryderman, Toronto; Sec.—Treas.—Mrs. Everett Cryderman, Enniskillen.
