ENLARGEMENT & IMPROVEMENT

OF

The Weekly Globe !

Programme for 1869.

THE GLOBE PRINTING COMPANY respectfully announce that, in addition to the great improvements which have recently been made on THE WEEKLY GLOBE—and which have been so warmly acknowledged by the readers of the paper and by the public press—very extensive and most valuable further improvements will be made on the paper for the coming year, A spacious new Press-room and Despatch-office has recently been erected in connection with THE GLOBE buildings ; a new font of type from the Foundry of Messrs Miller & Richard, Edinburgh, has been imported from Scotland ; one of Messrs Hoe & Co 's celebrated Lightning Presses, capable of throwing off 8,000 impressions per hour of THE DAILY GLOBE, is now in operation ; and a second new Press, specially constructed for printing THE WEEKLY GLOBE with great rapidity and in the highest style of workmanship, will shortly be added to the Machinery of the Establishment. The sheet on which the paper is printed will be hereafter of a very superior quality, The staff of Editors, Reporters, Contributors and Correspondents has been recently greatly strengthened, and nothing will be left undone in the year 1869, to maintain the fame of THE WEEKLY GLOBE, as beyond comparison, the best conducted and most attractive weekly journal in the Dominion.

But in addition to the general improvements now being effected in the conduct of the paper, several special attractions are about to be added for the coming year that will greatly enhance its value and interest to all classes of readers throughout the country, Foremost among those, is the addition of

AN AGRICULTURAL DEPARTMENT,

Not a collection of mere clipping from Agricultural Journals—but a full and well prepared weekly compendium of Agricultural, Horticultural and Floral intelligence and information written for THE WEEKLY GLOBE by a regular staff of competent and practised writers, and quite up to the best light of the day. Everything affecting the farming interest—such as the management of field crops, the barn-yard the stable, the dairy, the orchard, the poultry-yard, the vineyard, the apiary, the kitchen-garden and the flower-garden—will come within the weekly review of this department. The improvements in machinery, the best best breeds of cattle, the best systems of feeding, the most approved processes of cheese and butter-making, the best mode of packing, and the best markets to sell in, will all form subjects of profitable discussion, The sheep and wool interest will also receive special attention ; and the doings at agricultural fairs, shows, auctions and society meetings will be carefully and fully chronicled. The Markets for Canadian produce, at home and abroad, will receive an amount of careful attention that has not been heretofore accorded to them in any Journal The quantity of agricultural matter thus proposed to be published in THE WEEKLY GLOBE will exceed the contents of any purely agricultural journal now circulated, and will be worth the annual subscription of the paper !

Another new and valuable improvement proposed to be made in 1869, is the increased space devoted to LITERARY MATTER. In past years it has been usual to publish in THE WEEKLY GLOBE one tale, continued in successive numbers for months together. For the coming year it is proposed to devote a much larger space than heretofore to the publication of RACY AND CLEVERLY-WRITTEN TALES, and to give in each week's issue a much greater diversity than ever before,

It is also proposed to publish every week a full summary of RELIGIOUS AND ECCLESIASTICAL INTELLIGENCE from all parts of the world. This summary will embrace the operations of all the churches, and will be conducted in a spirit entirely free from sectarian exclusiveness.

Very great pains will hereafter be taken to place before the readers of THE WEEKLY GLOBE a full and clear summary of the DEBATES IN THE PROVINCIAL AND FEDERAL PARLIAMENTS. The speeches will be condensed from the full Reports of THE DAILY GLOBE, and the several measures before Parliament will be carefuly explained.

The British American and other Foreign News will continue to be published fully and promptly TheCOMMERCIAL INTELLIGENCE from all parts of the world will be culled from the most reliable sources, and kept up to the latest dates.

ENLARGEMENT OF THE SHEET,

To make room for all these improvements, THE GLOBE Printing Company have resolved greatly to enlarge the size of THE WEEKLY GLOBE FOURTEEN COLUMNS OF READING MATTER will hereafter be added to the paper—making this Journal without exception the LARGEST WEEKLY NEWSPAPER IN THE WORLD ! And notwitstanding the heavy additional expense entailed by these improvements, it has been resolved to offer the paper for the coming year at the same low price as formerly—$2 per Anumn.

CLUB RATES FOR 1869.

It has also been resolved to continue the same inducements for the formation of Clubs as were offered last year, These were, and will be for 1869, as follows .—
