Poetry.

A THRUSH IN A GILDED CAGE.

Was this the singer I had heard so long,
 But never till this evening face to face?
And were they his, those tones so unlike song—
 Those words conventional and commonplace?

Those echos of the usual social chat
 That filled with noise, confused the crowded hall,
That smiling face, black coat, and white cravat.
 Those fashionable manners—was this all?

He glanced at churches, operas, politics,
 And other common topics of the day;
But not one brilliant image did he mix
 With all the prosy things he had to say.

At least I hoped that one I long had known,
 In the inspired books had built his fame,
Would breathe some word, some sympathetic tone,
 Fresh from the ideal region whence he came.

And so I leave the well dressed buzzing crowd,
 And vent my spleen alone here by my fire,
Mourning the fading of my golden cloud,
 The disappointment of my life's desire.

Simple enthusiast! why do you require
 A budding rose for every thorny stalk?
Why must we poets always bear the lyre,
 And sing when fashion forces us to talk?

Only at moments comes the Muse's light—
 Alone, like shy wood-thrushes warble we;
Catch us in traps like this dull crowd to night,
 We are but plain, brown-feathered birds you see!

ODDS AND ENDS.

"MURPHY riots" occurred in North Shields on April 4th.

THE Queen has created Prince Arthur a Knight of St. Patrick.

WHEN did Moses sleep with five in a bed? When he slept with his forefathers.

IT is stated that an order will shortly appear permitting the wearing of beards in the British navy.

THERE was a man so intensely polite that as he passed a hen on her nest, he said: "Don't rise ma'am."

THE number of persons who died from drunkenness in Russia last year was 2,748, being at the rate of seven per day

THE number of emigrants who left the Irish ports in 1868 were 62,190 – being a decrease of 19,534 compared with 1867.

A TYPOGRAPHICAL mistake of a "c" for an "h" made a paper say: "A locomotive ran over a cow and cut it into calves."

ON Saturday Lord Cloncurry committed suicide by throwing himself from a window of his residence in the county of Kildare.

EASTER week closed with a fearful occurrence at Bailleul, in Belgium. A circus director was eaten in public by his own lions.

THE total amount of the Confederate German forces now form an effective of 600,000 combatants, without including the landwehr.

THE *Wisconsin Farmer* says castoroil will keep leather soft and pliable, and black, though not glossy, and quite impervious to water.

IT is stated that a velocipede enthusiast has driven a velocipede with great ease and without fatigue from London to Glascow in seven days.

THE British Government has consented to grant, to a limited extent, free passages to dock-yard laborers in ships leaving Great Britain empty for Canada.

A FELLOW in Kansas who was ducked by a parcel of boys for beating his wife, sued them for damages. The magistrate promptly sentenced them to duck him again.

PRUSSIA is concentrating considerable forces on the Western frontiers, and orders have been given bidding the men to join their regiments two months earlier than usual.

THE prospect of Beaverton soon becoming a railway terminus has given an impetus to building. The first sod on the Beaverton extension is expected to be turned this week.

AN Irishman, recommending a cow, said she would give good milk, year after year, without having calves, because it run in the breed, as she came from a cow that never had a calf.

"THE oldest man in the world" has just died in Poland. He had just entered his 139th year. *Le siecle* says that at 80 his hair was quite white, and afterwards became of a brown shade.

THERE is a chap in Jamaica, so lazy, that when he is seized with the fever and ague he is too lazy to *shake*; and in the same town there is a young doctor so *green*, that when he goes into the country, it takes three men and a boy to keep the cows from him!

PAINFUL DISCLOSURE.—Chewing gum is made of gum arabic, gum tragacanth, rosin, and fat. The latter, being too dear, is obtained from the bodies of hogs, cats, dogs and other animals found dead in the streets of the city. How do you like that boys!

IRISH EVIDENCE.—An Irishwoman, giving evidence of some persons threatning to break her door open, said, "I says to them, ye reverence, don't break the door open, I says, for I'm here all alone by meself, wid me six childer and me husband, that's out at work."

AN anxious mother in Scotland, taking leave of her son on his departure for England, gave him this advice: "My dear Sandy, my ain bairn, gang south, and get a' the siller ye can from the southerns—tak' everything ye can' But the English are a brave, boxin' people, an' tak' care o' them Sandy. Never fight a bald man, for ye canna catch him by the hair."

TOO MANY CLERKS.—The New Orleans *Crescent* says: The number of clerks out of employ in New Orleans now is very large, especially in the dry goods line. Half a dozen were hired off the street the other day, to work as waiters in one of our hotels, glad to get something to do to get their bread. Let the young men of the North understand at once that the South wants no more clerks or salesmen, but sturdy yeomen, men who can till the soil, handle an axe, or build houses.

THE QUEEN'S BIRTHDAY.—The day fixed for the celebration of the Queen's birthday in England, has, by Her Majesty's command, been changed from Saturday, May 29, to Wednesday, June 2. We doubt not that the same day will be adopted here, on which Canadians demonstrate the continued respect and admiration in which they hold the character and functions of the Queen.

[The fixing of the day in London depends upon a variety of contingencies that do not in the least affect the other parts of her Dominions. The 24th of May will be the day celebrated in Canada, and the chap who wrote the above is an ass.]

Richmond Hill, Oct 8, 1868.

ENLARGEMENT & IMPROVEMENT

OF

The Weekly Globe!

Programme for 1869.

THE GLOBE PRINTING COMPANY respectfully announce that, in addition to the great improvements which have recently been made on THE WEEKLY GLOBE—and which have been so warmly acknowledged by the readers of the paper and by the public press—very extensive and most valuable further improvements will be made on the paper for the coming year, A spacious new Press-room and Despatch-office has recently been erected in connection with THE GLOBE buildings: a new font of type from the Foundry of Messrs Miller & Richard, Edinburgh, has been imported from Scotland; one of Messrs Hoe & Co 's celebrated Lightning Presses, capable of throwing off 8,000 impressions per hour of THE DAILY GLOBE, is now in operation; and a second new Press, specially constructed for printing THE WEEKLY GLOBE with great rapidity and in the highest style of workmanship, will shortly be added to the Machinery of the Establishment. The sheet on which the paper is printed will be hereafter of a very superior quality, The staff of Editors, Reporters, Contributors and Correspondents has been recently greatly strengthened, and nothing will be left undone in the year 1869, to maintain the fame of THE WEEKLY GLOBE as beyond comparison, the best conducted and most attractive weekly journal in the Dominion.

But in addition to the general improvements now being effected in the conduct of the paper, several special attractions are about to be added for the coming year that will greatly enhance its value and interest to all classes of readers throughout the country. Foremost among these, is the addition of

AN AGRICULTURAL DEPARTMENT,

Not a collection of mere clipping from Agricultural Journals—but a full and well prepared weekly compendium of Agricultural, Horticultural and Floral intelligence and information written for THE WEEKLY GLOBE by a regular staff of competent and practised writers, and quite up to the best light of the day. Everything affecting the farming interest—such as the management of field crops, the barn-yard the stable, the dairy, the orchard, the poultry-yard, the vineyard, the apiary, the kitchen-garden and the flower-garden—will come within the weekly review of this department. The improvements in machinery, the best best breeds of cattle, the best systems of feeding, the most-approved processes of cheese and butter-making, the best mode of packing, and the best markets to sell in, will all form subjects of profitable discussion. The sheep and wool interest will also receive special attention; and the doings at agricultural fairs, shows, auctions and society meetings will be carefully and fully chronicled. The Markets for Canadian produce, at home and abroad, will receive an amount of careful attention that has not been heretofore accorded to them in any Journal The quantity of agricultural matter thus proposed to be published in THE WEEKLY GLOBE will exceed the contents of any purely agricultural journal now circulated, and will be worth the annual subscription of the paper!

Another new and valuable improvement proposed to be made in 1869, is the increased space devoted to LITERARY MATTER. In past years it has been usual to publish in THE WEEKLY GLOBE one tale, continued in successive numbers for months together. For the coming year it is proposed to devote a much larger space than heretofore to the publication of RACY AND CLEVERLY-WRITTEN TALES, and to give in each week's issue a much greater diversity than ever before.

It is also proposed to publish every week a full summary of RELIGIOUS AND ECCLESIASTICAL INTELLIGENCE from all parts of the world. This summary will embrace the operations of all the churches, and will be conducted in a spirit entirely free from sectarian exclusiveness.

Very great pains will hereafter be taken to place before the readers of THE WEEKLY GLOBE a full and clear summary of the DEBATES IN THE PROVINCIAL AND FEDERAL PARLIAMENTS. The speeches will be condensed from the full Reports of THE DAILY GLOBE, and the several measures before Parliament will be carefuly explained.

The British American and other Foreign News will continue to be published fully and promptly. The COMMERCIAL INTELLIGENCE from all parts of the world will be culled from the most reliable sources, and kept up to the latest dates.

ENLARGEMENT OF THE SHEET.

To make room for all these improvements, THE GLOBE Printing Company have resolved greatly to enlarge the size of THE WEEKLY GLOBE FOURTEEN COLUMNS OF READING MATTER will hereafter be added to the paper—making this Journal without exception the LARGEST WEEKLY NEWSPAPER IN THE WORLD! And notwitstanding the heavy additional expense entailed by these improvements, it has been resolved to offer the paper for the coming year at the same low price as formerly—$2 per Annum.

CLUB RATES FOR 1869.

It has also been resolved to continue the same inducements for the formation of Clubs as were offered last year, These were, and will be for 1869, as follows.—

Six Copies, one year	$10 00
Ten " "	15 00
Twenty Copies, one year	30 00

And an extra copy of the WEEKLY GLOBE to the person who gets up the Club of Twenty.

Thirty Copies, one year for	42 00

And an extra copy of the WEEKLY GLOBE to the person who gets up the Club of Thirty,

Fifty Copies, one year for	65 00

And a copy of the DAILY GLOBE to the person who gets up the Club of Fifty.

Eighty Copies, one year for	100 00

And a copy of the DAILY GLOBE to the person who gets up the Club of Eighty.

Payment must always be in advance,

Each paper is addressed separately, and may be sent to any Post Office,

When additional names are added to any Club during the year they must be sent to THE GLOBE Office by the person who made up the Club; and the money sent with such additional names must be such a proportion of the year's subscription at the Club rate as will pay up to the expiration of the Club.

Clergymen and Teachers of Common Schools are entitled to receive THE WEEKLY GLOBE for one dollar per annum, payable in advance.

Orders and remittances should be addressed to "THE GLOBE PRINTING CO."

TORONTO.

☞ All subscriptions, (including clubs, sent in before the 1st of January, will entitile the parties to receive the paper until the December 31st, 1869.

EXTRACTS FROM JUDGMENT OF COURT OF CHANCERY.

"The Novelty of making A WOODEN FORCE PUMP, was introduced by the Plaintiff, (C. Powell) and it has that MERIT OF INVENTION which etitles it to the protection of a Patent."

"The usefullness of this invention is unquestioned; it is both ingenious and worthy of merit, and to the isolated dweller, must be of the greatest possible value."

HON. P. M. VANKOUGHNET.

See Judgment Court of Chancery.

The Hon. P. M. Vankoughnet, in delivering Judgment on the celebrated Patent Swing Pump trial; remarked, after justly eulogising the merits of the Pump, "That the person who infringes on a Patent, is a wrong-doer and should be punished, and that an infringer's operations are, not only a Robbery of the Patentee, but also a Fraud upon the Public."

Jacobs' Rheumatic Liquid.

JACOBS' Rheumatic Liquid is the best thing in the world, except a skillfull physician, to have at hand in case of any accident.

999 out of 1,000 of the accidents to which we are daily liable may be greatly relieved, and a large proportion rendered no longer troublesome by a timely application of this justly celebrated medicine.

"I would not attempt to keep house without it."

"I want it where I can put my hand on it at any time."

"I consider it the greatest remedy known."

"Nothing I ever saw can touch it as a remedy."

"I do not consider a sprain or lameness of any account if I can got hold of a bottle of Jacobs' Rheumatic Liquid"

"It cures a cold in tanter."

"It is the only thing I know that cures scratches on horses."

"I never saw anything that would relieve a burn so quick."

Above are some of the statements being daily made by those who have used Jacobs' Rheumatic Liquid

The name of the medicine is blown in each bottle of the genuine; all others are worthless imitations.

Dr. Colby's Anti-costive and Tonic Pills.

DR. COLBY'S Anti-costive and Tonic Pills never fail but always relieve if taken in time.

They can be taken by the most delicate.

They do not sicken or grip in any case.

They always produce the same beneficial results.

They are an effectual but mild cathartic.

They cannot be excelled as an antibilious remedy

They are the greatest blood purifier known.

They afford immediate relief for bowel complaint.

They are the best and safest remedy for children.

They are a positive cure for costiveness.

They *cure* the worst forms of dyspepsia.

They cure all diseases arising from any derangement of the Stomach, Liver, and Bowels.

They are recognised by all medical men who know the formula as a standard remedy.

They were not invented in a day by ignorant parties as a means of money getting, but were originated by M F. COLBY, M.D., one of the first physicians of the country, and perfected during a course of 40 YEARS successful practice so that for the purpose intended they can scarcely be improved.

For certificates of cures see circulars.

All genuine pills are sugar-coated and will in future have our signature on the wrapper.

S. J. FOSS & CO., Proprietors.

*** Sold by druggists everywhere.
