## The Money Losing Cow

THE average production of milk per cow in Canada is about 4,000 pounds annually, but authorities are agreed that the higher the production per cow the greater the profit. You can materially increase the productiveness of your herd by breeding better live stock, and the local branch of the Canadian Bank of Commerce is at your service in supplying loans for the purchase of stock which will give a greater cash return for the feed iand labor expended.

## Organized Men's Club on Monday Evening

A meeting for the purpose of discussing the organizing of a men's club was held in St. John's United church Monday evening It was quite evident from the spirit manifested that there was both need and desire for such an organization. It was decided to organize at once.

The election of the President and Secretary was at once proceded with the honor of first President falling to Dr. E. C. Murray and that of Secretary to Charles Bellamy Jr.

It was agreed to complete the organization at the regular meeting. A program committee was however appointed consisting of the Pres. and Secretary together with Wm. Miller, Thos Findlay and Dr. Bryce, which should be responsible for making all arrangements for the next and first regular meeting of the club on Monday, Jan. 27th.

It is hoped that this organization may serve as a get-together for the men of the community and its aims and purposes shall be to promote good fellowship and engage in any activity by which the community at large may be benefitted. No sectional lines will be recognized and the membership will be open to all who wish to come.

## PIONEER PASSED AWAY

A highly esteemed resident of the Lockwood district passed away in the Regina General hospital Dec. 29, in the person of Edward Armstrong. The deceased came West from Flesherton, Grey County, Ontario in 1903 and settled near Manor Sask. In 1906 he removed to the Lockwood district where he homesteaded west of town. In 1929 he moved to the village, where he resided since and will be sadly missed. He leaves to mourn, his widow, three sons and one daughter, Cecil of the Royal Bank staff Edmonton, Russell, Carol and Mildred at home.

The funeral was held from the United church, Thursday afternoon and was attended by a large concourse of sorrowing relatives and friends. The following officiated as palbearers Messrs L. Hummason, C. Campbell, C. Morningstar, F. McFarland, F. Sutherland and E. Gardiner.

There has been about four different kinds of weather here since last issue. Friday night and Saturday morning the thermometer registered between 10 and 18 degrees below zero and the temperature gradually rose until rain was falling Tuesday morning and a real thaw in progress.

## Esteemed Old Resident Passes in Toronto

Mrs. Wm. Petch, formerly a resident of Flesherton, died at the home of her daughter, Mrs. J. A. Houden, Toronto, on Saturday last. The remains were brought to Flesherton on Tuesday morning train and interment was made in Flesherton cemetery, where she was placed in the family plot beside her husband, who pre-deceased her in 1901. Mrs. Petch was born at Churchville, her maiden name being Nettie Hall and was in her 73rd year at the time of her death. She was wed in 1886 to William Petch of Georgetown, and came with him to Flesherton where he was engaged in the butcher business. To them were born five children, who survive: Alva (Mrs. J.A. Houden,Toronto; Lloyd of Mervin, Sask; Glen and Bert of Toronto; and Almon of Regina.

After her husband's death in 1901 the family moved to Toronto, where they have since resided.

The deceased lady was a member of Victoria Presbyterian church, Toronto. The funeral service here was conducted by Rev. St. John of Markdale, a personal friend of the family. The pallbearers were R. Bentham, John Wright, Albert, William and Charles Stewart and D. McTavish.

## Transformer Upset

The Hydro Electric Commission was busy this week transporting a huge transformr to the power house in the valley when a soft spot was encountered in the road when one mile east of town and the 22 ton of machinery upset, making for naught the heavy work already expendd on the moving of such a heavy articl. The load was righted on the skids used to transport it and it was returned to the C.P.R. station to be sent back for repairs.

Thtre were two of the transformers to be transported to the power house, but with the accident on Tuesday it is likely that both machines will be returned and dismantled and to be re-erected at the power house by one of the experts. This would save considerable time and expens in moving the ponderous machinery to the valley. Six teams were required to move the load and they were able to walk right along, once it was started.
