OREGON AND WASHINGTON.

No section of the country is to-day attracting as much attention as Montana, Oregon and Washington; Montana, because it now ranks first in the production of precious metals; Oregon, because of its rich valleys, and Washington Territory by reason of its mild climate, timber, coal, minerals and wonderful production of fruits and cereals. The rapid growth of Spokane Falls, with a water power exceeding that of Minneapolis; Tacoma, on Puget Sound, the terminus of the Northern Pacific Railroad, with 12,000 inhabitants; Seattle, 80 miles distant, an energetic and thriving city, mark this section of the Pacific Northwest as one that offers peculiar inducements to those seeking new homes.

By writing Chas. S. Fee, General Passenger Agent, Northern Pacific Railroad, St. Paul, Minn., he will send you illustrated pamphlets, maps and books giving you valuable information in reference to the country traversed by this great line from St. Paul, Minneapolis, Duluth and Ashland to Portland, Oregon, and Tacoma and Seattle, Washington Territory. This road, in addition to being the only rail line to Spokane Falls, Tacoma and Seattle, reaches all the principal points in Northern Minnesota and Dakota, Montana, Idaho, Oregon, and Washington, possesses unequaled scenic attractions, as well as superior train equipment, such as dining cars, and colonist sleepers for the use of intending settlers, neither of which conveniences are to be found on any other line ticketing business to the States and Territories named. 47-10ms.

NOTICE.—As we purpose making a change in our business all accounts must be settled at once.—P. M. McKAY & SONS.

EVIDENCE of the evil results of Halton rejection of the Scott Act and return to license was furnished last Friday by a savage fight on Main street, which was allowed to continue without the intervention of the authorities until the life was nearly choked out of one of the fighters and several bystanders interfered. The participants were a bull-dog and a collie, but nevertheless the incident will be valuable to the "temperance" jawsmiths, who are busy now working up a case against the Crooks Act, and there is more in it than there is in most of the yarns concocted by the aforesaid jawsmiths, according to whom all was peace and quietness here so long as prohibition was in force.

On the day of the matches of the Milton rifle club the adburn-haired young man who is the Milton correspondent of the Toronto Globe and all the country papers that will accept his contributions was standing at the bar of a Milton hotel imbibing a glass of his favorite "budge." As usual he was on the lookout for local items, and when he heard the landlord getting off a joke about the competitors at the matches being all armed with "pocket pistols," he swallowed it like a gudgeon and it appeared with sundry embellishments in last week's issue of a certain journal which publishes his productions. As there was not a whiskey bottle to be seen on the range during the matches, nor a man the worse of liquor, the marksmen are very indignant with the scribbler, from whom, they say, criticisms of other people's habits with regard to the use of intoxicants come with a particularly bad grace, seeing that his own are too well known.

The Omagh literary society resumed its weekly meetings last Friday evening and, considering the state of the roads and the inclemency of the weather, there was a very good turn out which I think augurs well for the success of the society the coming winter. Bigger; Treas., Miss E. McCann; door-keeper, P. McDuffe. The night of meeting will be Friday, and all are cordially invited to attend.
