Markdale Champions

With a whirlwind finish Markdale juniors won from Listowel 4-2 at Walkerton on Thursday night last in the third and deciding game for the championship of the Northern Hockey League. Markdale proved to be a great finishing team and seemed stronger in the third period than the first. The team was composed of the two McFarland brothers and Woods of Chatsworth, John Nunn of Flesherton and Johnston and Wright, the latter goaler. A special train accompanied the boys to Walkerton and two score or more from here cheered the boys to victory. Congratulations are extended to the boys for bringing the first N. H. L. championship to this district.

Ewe Had Four Lambs

Twin lambs are ordinary occurrences, the arrival of triplets is an event, but the issuing of quadruplets into the fold is worthy of chronicling Last week a two year old ewe owned by Mr. Chas. Thompson gave birth to four lambs, all fairly large and in perfect health. However, one of the larger ones died a few days later, presumably from a chill. With a whole flock of the value of this ewe in productivity, the sheep population in Artemesia would rapidly increase.

Flesherton Has Power Surplus

According to the 13th power bill issued by the Hydro Electric Commission there is a balance on hand to the credit of Flesherton of $624.-27. Owing to shortage of power Flesherton was obliged to take care of its share of power purchased from other systems to the extent of $121.77. The amount of credit is scarcely as large as that of last year. In January of 1929 the minimum bill was dropped from $1.50 to $1.25 and the rate per horsepower was lowered $5, and included lower cost of street light. The Commission is shown to be in a very healthy state at the present time.

EVERY BELL TELEPHONE IS A LONG DISTANCE STATION

More Lines, Quicker, Better, Cheaper Service

Last year we added about 14,000 miles of talking channels to our long distance system.

Associated apparatus — switchboard, cable, amplifying equipment — has also been vastly extended and improved.

And lower rates on calls to points 75 to 800 miles distant are now in effect.

Long Distance now gives you quicker and better communication — with the next town, or across the continent. And it costs less than ever before.
