Golden Wedding

Mr. and Mrs. R. J. Colquette celebrated the fiftieth anniversary of their wedding at their home in Feversham on Monday, March 31st. It was fifty yeas on that date that they were married at Mrs. Colquette's home near Feversham. Present for the occasion were their two daughters, Mrs. H. B. Horton and Mrs W. G. Dand of Toronto, also one son, W. R. Colquette, wife and two children of Owen Sound and a niece of Mr. Colquette and her husband, Mr. and Mrs. John Stewart of Flesherton. Their eldest son R. D. Colquette of Winnipeg, Man. was unable to be present.

To celebrate the happy event a wedding dinner was served at 5 o' clock. At the dinner hour their son W. R. presented them with a purse of gold from their children and friends who were assembled with them. Mr. Colquette in a few words thanked one and all for their kind remembrance. Letters and phone messages of congratulations were received from different parts of Ontario and also from Western Canada.

After dinner in the evening a very pleasant surprise was given them, when a procession of Mr. Colquette's brother Foresters and their friends and neighbors in Feversham and the surrounding neighborhood marched to their home and read to them an address and presented Mr. Colquette with a gold emblem ring of the Canadian Order of Foresters, as he was a charter member of Court Feversham No. 534; also a gold piece by the friends and neighbors to Mrs. Colquette, with the best wishes of the community and wth the hope that they would have many more years of associations with their friends in that community.

IN MEMORIAM

WOOD—In loving memory of our dear sister, Bessie, who departed this life April 7th 1926.

In the city of life on a hill far away
Where the sun never sets nor flowers decay.
She has gone from this world free from sorrow and pain
Where in God's own good time we shall all meet again.

To Send Radio Car

Owners of radios in town circulated a petition last week to request the radio department to despatch their trouble-finding car to this locality, in an effort to clear up some of the interferences which have been bothering radio users for some time. The inspector in Toronto has informed the petitioners that the car is to be here this week, so the local trouble should be satisfactorily located. Be sure to have your license to operate a radio handy when the inspector calls.

CARD OF THANKS

The families of the late Mrs Frank Taylor wish to extend their heartfelt thanks to the neighbors and friends of Flesherton and surrounding district for the many expressions of kindness and assistance during her recent illness and death.

NOTICE

Owing to crowded conditions of junior rooms of the public school and the short time between Easter and midsummer holidays it is requested that persons proposing to start pupils at Easter will not do so until fall term—By order—W. J. Bellamy.

EGGS

Profits on Extras or Losses on Seconds

WHAT RETURNS WILL THEY BRING THIS SPRING?

It is up to the individual producer and shipper to decide. He may benefit by the premium paUid for Extras and suffer by the low price paid for Seconds. To secure Extras observe these rules:

SHIPPERS

Keep eggs covered in a cool, dry place, away from all noticeable odours.

Never expose eggs to sun or rain either lose or in containers.

Market eggs as often and as quickly as possible to prevent deterioration.

Ship eggs in strong cases with whole, clean fillers and flats, and excelsior pads at top and bottom.

You are the guardians of your customers' eggs. Make sure to maintain their quality.

AN EXTRA—An egg weighing 24 ounces per dozen, clean, sound in shell, air cells less than one-quarter inch in depth, white of egg firm and clear, yoke may be moderately visible when candled, but must blend gradually into the white.

PRODUCERS

Produce clean eggs—provide plenty of nests and keep fresh litter in the houses and nests. Gather eggs often.

Never wash eggs. If soiled, wipe them with a dry cloth or steel wool.

Feed grain. Scavanger feeding produces weak eggs or Seconds.

Dispose of all males unless they are being used for breeding. Produce infertile eggs.

Treat eggs as carefully as you would milk. They are just as subject to deterioration if not properly handled.
