OUR OTTAWA LETTER.

Somewhat better progress has been made this week with the serious business of the session, but if on the one hand the legislation on the order paper has been put forward a few stages other matters have developed which give every indication of lengthening out considerably a session which has already fully run the average length. The principal item under this latter head, which has materialized this week has been the charge made by Mr. Monk of Jacques Cartier against the Militia Department of purchasing worthless emergency rations for the South African contingents, to which reference was made last week. When the worthy member first launched his tirade against the Minister of Militia, he was evidently not prepared for the very prompt manner in which he was taken up by the Government, and promised his committee of inquiry if only he would lay before the House something definite to inquire into.

Modifying His Charges.

So specific was the challenge that Mr. Monk had no alternative but to accept it and in due course his indictment was presented. It was at once seen that the hon. member had most materially modified his accusations, for instead of fraud, malfeasance of office, and sundry other high crimes and misdemeanors, which were either definitely charged or broadly insinuated in his first harangue to the House, the most serious accusation that he dared definitely make against the Minister was one of "gross and culpable negligence". But this is serious enough of course, and the Government promptly implemented their promise of a committee of investigation. The opposition now has one more chance to squander public time and money in a wild goose chase after an election cry; their success at this sport has not been strikingly manifest in the past, it remains to be seen what luck awaits them this time.

Signs of Disintegration.

The ingenuity of Oppositionists is being severely taxed these days to discover those signs of disintegration in the ranks of the Liberal party which are being so earnestly hoped for but which so obstinately refuse to manifest themselves. Because half a dozen or so supporters of the Government in the present House of Commons have intimated their intention of retiring when their present term expires, we hear the old familiar cry that, "The Grits are on the run." A typical sample of this is the case of Mr. Speaker Bain who has, it is well known, been anxious to retire from public life for some years past, and who is now unhappily compelled by failing health to carry that desire into effect; but even his twenty eight years of faithful service, during which his political conduct has never once been called in question even by his most bitter opponents, does not protect him from the miserable insinuations of small politicians. So too, the intimation that the Minister of Customs may not offer himself for re-election in North Grey, is taken as an indication that he fears the result of a contest there; whereas

It is Pertectly Well Known

by every man who makes any pretence of being informed of the facts, that Mr. Paterson only sought the suffrages of the electors of North Grey because the constituency happened to fall vacant, by the death of the sitting member, at the time of his entering the Government, and he was then elected by a majority twice as large as the biggest majority ever obtained by a Tory in that riding, and thirteen times greater than that secured by his predecessor over the same opponent two months before.

DISTRACTED CHINA.

Humanity stands a greater chance of being "staggered" by Chinese atrocities, than by anything Oom Paul may or can do. The long suppressed hatred to "foreign devils" has found vent and as the native 'devils' are not guilty of much diplomacy, their overwhelming masses may in moments of madness crash the life out of the scattered European groups in their empire.

A "Concert" of the Powers has again to be invoked, European no longer since Japan and the United States must be consulted, but before they can overawe an Empire, not very responsive to its rulers rapine and bloodshed may violently rage.

They dont't want us there and we don't want them here, but what a position it is to be a "dying nation." If they weren't they would take a leaf out of Canada's book, and put a tax of $100 on every foreign devil entering their kingdom and thus make a financial profit out of them. If $1000 was necessary they could do it, but being a weak nation, exasperation leads to deeds of blood instead of deeds of diplomacy.

Late news report the taking of Taku forts by the Powers. These are on the sea coast. Tien Tsin, on the only railway to Pekin is cut off, as is Pekin itself and between these two places is a composite force of the powers, whose fate is regardod with anxiety, as they are not provisioned

Later—The force is back to Tien Tsin and the foreign residents of Pekin may all be butchered. The Chinese forts audaciously fired on the fleets but were captured.

IN AFRICA.

The British position is still improving, defeats are being inflicted here and there, pacification is progressing, Baden-Powell has captured a few hundred of the enemy, but still no guns are taken.

Baden-Powell and Hunter are now in touch with Pretoria from the west, Buller will also be from the east so that a British cordon cuts off the Free State from the Transvaal. Carrington is supposed to be pressing on the north and the Delagoa Bay Railway is expected to be cut soon, thus isolating the Boers.

They have got to know Britain would like to be free to attend to China and their opposition is stiffened. The end is near however, and any day may come news of surrender.

The British force besieged in Ashanti on the West coast is in dangerous straits. Relief is pushing to their help.

RE STATUTE LABOR.

To the Editor.

Dear Sir:—

I have been waiting to see opinions expressed on the timely letter of Collector McDougall in your columns a few weeks ago on this question of Statute Labor. Seeing none I venture to give my opinion as entirely in favor of the abolition of this wasteful system of road improvement.

In an acquaintance of these roads for about 46 years I have been a witness to the improvements, sometimes supposed improvements, made upon our roads, and it will scarcely be questioned that much has been done that had better been left undone, and much undone that was their duty to do. Part of the gravel road between Durham and Hanover is not better than it was 40 years ago, though perhaps hundreds of days of Statute labor have been put on it.

We pronounce against the old system.

1. Because while some sections do their duty others are very much deficient, consequently there is an inequality of burdens that is as unfair as it is unprofitable.

2. Because of the constant change of pathmasters. It is no uncommon occurrence to see good work done and a new pathmaster next year by some ill-considered effort destroy the work of his predecessor, causing a waste of effort and at the same time produce bad roads.

3. Because with the limited work available in any one season it frequently happens that all the work is "put in" before some good piece of work is finished, consequently it goes unfinished, and next year a new man has a new idea.

4. Because by commuting the work at 50c a day as pointed out by Mr. McDougall, a sum of money would be secured that would far exceed in usefulness the present hap-hazard system.

I have talked with many in Bentinck and Glenelg on this question, and all agree the present way is wasteful. The appointment of overseers to apply the money would be necessary and the right man continued in office long enough would in a few years confirm the value of the change.

More machinery such as road graders, is also needed, but enough has been said in this letter. I hope others will take it up and keep it up till a change is made.

GEO. TURNBULL, SR.

BY-LAW NO. 383.

A By-Law for the Regulation of Employment and hours of labor in Shops and places of business in the Town of Durham.

Whereas an Application signed by not less than three fourths in number of the occupiers of Shops within the Town of Durham belonging to the class to which such application relates, has been received by the Council of the said Town, praying for the passing of a By-law requiring the closing of all places of business, at the time and hours in said application mentioned.

Therefore the Corporation of the Town of Durham, by the Council thereof, under the provisions of Chapter 257, Revised Statutes of Ontario 1897, Enacts as follows:—

1—All general stores, hardware shops, drug stores, boot and shoe stores, groceries, butcher shops, watchmaker shops, produce stores, tinsmith shops, upholsterer and cabinet-makers shops, within the municipality of the Town of Durham, shall be closed and remain closed on each or any day of the week, at and during any time or hours between seven of the Clock in the afternoon of any day, and five of the Clock, in the forenoon of the next following day, excepting only however, on the day next preceding any public holiday and on Wednesdays and Saturdays. For the period extending from the fifteenth day of May to the fifteenth day of September in each and every year.

2—This By-law shall come into full force and effect on Thursday the 21st day of June A. D. 1900.

3—Any person or persons offending against the provisions of this By-law, shall on summary conviction before a Justice of the Peace, be liable to a penalty not exceeding $50 exclusive of costs and in default of payment of such fine as may be adjudged together with costs, then distress and sale of the goods and chattels of the offender shall be made to satisfy the said fine and costs: and in case there be no distress found out of which such fine can be levied, such offender shall be liable to imprisonment in the Common gaol of the County of Grey, with or without hard labor, for a period not exceeding twenty one days: unless the fine inflicted and costs including the costs of the distress, and of the committal and conveyance of the offender to the gaol are sooner paid.

Passed in Council this Eight day of June A. D. 1900.

W. A. Anderson, Clerk. W. Laidlaw, Mayor.

Live Stock Market.

TORONTO.

Light run.
Trade brisk.
Export cattle higher.
Butchers' cattle firmer.
Other cattle steady.
Sheep and lambs firmer.
Spring lambs in better demand.
Hogs unchanged.

Run was light, 48 loads—600 cattle 1,540 hogs, 351 sheep and lambs 100 calves.

Export cattle—A few buyers needed some cattle to make up freight space. The run was light and consequently prices stiffened. Choice loads sold at $5.10 to $5.35 per cwt, but $5.25 was the average top price. Light cattle sold at $4.75 to $5 per cwt.

Butchers' cattle—Light run caused a brisk demand at about yesterday's prices, and a little firmer in some cases. Choice lots sold at $4.40 to $4.75 per cwt, good mixed lots at $4 to $4.35 per cwt, and down to $3.25 to $3.50 for common cows. Light rough cows sold at $3 to $3.25 per cwt.

Feeders—Practically none offered. Moderate demand at $4.35 to $4.60 per cwt for short-keep steers of 1,100 to 1,200 lbs, and $4 to $4.25 for lighter feeders.

Stockers—Were if anything in easier demand but prices were quoted unchanged at $3.25 to $3.75.

Bulls—Offerings light. There is a good steady demand for all weights at prices quoted in table.

Sheep—Fair trade in all stock sold out at former prices of $3.75 to $4.12½ per cwt for export ewes and $3 to $4.12½ a head for butchers' sheep.

Lambs—Very few yearlings offered and not much demand. Spring lambs sold readily at $2.50 to $4.50 per cwt.

Hogs—Unchanged at $6.87½ per cwt for selections of 160 to 200 lbs natural weight, off car, $6.25 per cwt for fat and $6 per cwt for light.

Volcanic Eruptions

Are grand, but Skin Eruptions rob life of joy. Only 25 cts a box. Cure guaranteed. Sold by all druggist. 2

MORTGAGE SALE.

Under and by virtue of the power, contained in a certain Mortgage which will be produced at the time of sale, there will be offered for sale by PUBLIC AUCTION by James Carson, Esquire, Auctioneer, at Knapp's Hotel in the Town of Durham on

Monday, the 9th of July, 1900

at two o'clock in the afternoon, the following property: Park Lot No. 9 on the North Side of Lambton Street in the Town of Durham in the County of Grey and Province of Ontario containing by admeasurement 84400 square links (about four fifths of one acre) be the same more or less.

On the property are said to be the following improvements: A one and one-half story frame dwelling 25 feet x 16 feet with a one and one-half story frame addition 20 feet x 19 feet with stone cellar under the main dwelling and stone foundation under the addition. The stone foundation is said to be arranged for brick veneering and the said addition is not completed. There is also on the property another old building which may be used for a stable. The property is very desirably situated on a leading Street a short distance East of the Registry Office and is a property that a mechanic should be able, by his own work, to greatly improve and increase the value of, making it a profitable investment.

Terms: A deposit of twenty per cent of the purchase money will be required to be paid in cash upon the day of sale. For further terms and conditions of sale, which will be liberal, apply to Auctioneer or to

ADVERTISING PAYS

—xxxx—

provided that the advertiser is able to do what he advertises to do and a man is a fool to pay good money for advertising what he is not able to carry out for the public soon find out that such a man is a deception and a fraud. I am not professing to do business for fun or entirely for the other fellow's benefit but I have found during the twenty years that I have been doing business in Hanover and Durham that I can make the most money for my self by doing the very best I can in every instance to save money for my customers. Every customer who once does business with me to his own profit continues to patronize me and gives me, not only his business, but his influence and this accounts for the very large business that I am doing to-day. Farmers are now busy and will not be paying much attention to business affairs while busily engaged on their farms. Some of them, however, will require to borrow money and I wish to say that I am at present lending at five per cent and in some cases at less. I am also paying closer attention than ever before to the collection of old debts and claims placed in my hands will be collected if it is possible by any means in the world to to get the money—no charge for my trouble if nothing collected. I also buy old notes. I have had great success in settling up and arranging business entanglement and difficulties and in making settlements with creditors and any such business placed in my hands will be faithfully attended to the profit, I think, of them who deal with me. I have always a number of farms in hand which I am able to sell at very low figures and on very easy terms. After so long a residence in this locality I have formed a connection with all the leading Loan Companies and when they have farms in hand for sale they are placed in my hands and I am thus always in a position to offer bargains. I have always on hand farms and other propertis belonging to myself which I am always ready either to sell or exchange for other property. Just now I happen to have a splendid 100 acre farm and a very fine 64 acre farm, both well situated in Bentinck and each having good buildings. I will sell them or trade them. I also offer at a sacrifice Lot 28, Con. 2, W. G. R., Bentinck, 100 acres, belonging to a man who has gone out west and is bound to sell at some price. I place insurances in good companies at lower rates and in fact attend to all kinds of financial business. My rule continues to be "Always prompt—never negligent.

H. H. MILLER,
Hanover.
