

Good progress is being made on the new agricultural building at Bowmanville High School which is expected to be finished in time for the opening of school in September. The brick building is designed to fit in architecturally with the other extensions

which have been built in recent years and will provide additional facilities for teaching the fine points of farming to students from the surrounding rural areas.

**School Bus Trip**  
 The soaring temperatures of Thursday, June 27, did nothing to dampen the spirits of the 45 children and adults who went on Bethesda School annual bus trip. Just before setting out everyone gathered in the schoolroom to present the teacher, Mrs. Rosevear, who was leaving after five years in Bethesda, with a beautiful set of gifts.

Genial bus driver Fred Daves took us down No. 2 to Cobourg and to General Electric where we saw several types of plastic articles being made. Then on to the cool, cool park at the beach. From here we went to Barnum House, a fine old Georgian type home now a museum. It was hard to pull ourselves away. A special treat was to hear Mr. Robert Russell of Cobourg, our excellent guide, play the old Collard and Collard piano - made in England in 1824.

drove back through Cobourg, past the original Victoria University building - the beginning of Toronto University - up to 401 and arrived home at 4:30. It was a good day - educational, sociable and refreshing.
