"I have left the laboratory," says Edison to a reporter the other day, "and am now a man of buisness. The electric light is perfected in all its branches, and I am bending all my time and energies in its introduction to the public. There will be no bulling or bearing of the stock. There will be no freezing out of stock holders, nor rings in the Board of Director. There will be no construction companies to eat up profits that belong to shareholders. All branches of the buisness are in our hands. We have our own lamp manufacturies, we make our own generators, and manufacture our own service pipes and conductors. We have leased the Morgan Iron works from John Roach for the manufacture of pipes through which to lay our wires, and before many years you will see the light in general use. We are forming companies in various cities; taking part of the stock ourselves. We shall deal only with men of capital and reputation; and there will be no shenanagin. The parent company will lay the plant in each city, and hold a tight rein. Already we have taken steps towards the introduction of the light in Newark, Chicago, Detroit, Toronto, Cincinnati, Washington, and other cities."

Twenty persons were killed or injured by a railway accident in France on Tuesday.

The Bill to abolish the Legislative Council of New Brunswick passed the Lower House on Tuesday, but it is said the Council will refuse to legislate itsself out of existence.

An attempt was made some nights ago to wreck a train on the Canadian Pacific Railway, about a quarter of a mile east of Ossowa Station, by placing a couple of fish-plates on the rails. The obstacle was discovered in time to prevent a mishap.

"Hail beauteous, bounteous, gladsome Spring"—this was Mark Twain's prize poem—but the dire diseases incident to Spring, spoil the romance. Burdock Blood Bitters is the prizeremedy, the remedy prized by all who have tried it as the best Blood Purfying Tonic and System Regulator in the market. An Oneida Indian, who is an ordained clergyman, preached in New York on Sunday, and in the course of his sermon quaintly rebuked the sin of profanity. He said he was thankful that "the Creator did not give the Indian enough language to allow him to be profane without fist learning English."

Various Causes.

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed, or the glands decayed. Its effects are beautifully shown on brashy, weak or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous.
