What We Have to Offer

NO ONE chartered Bank in Canada has anything greater to offer the business community than its contemporaries unless it be in the character of the service it renders. During its life, the Bank of Commerce has developed a distinct individuality through the kind or service maintained in its daily transactions. The commercial aspect of this individuality is found in the many unique services for which the Bank of Commerce is peculiarly equipped.

Horse Ran Away With Hay Rake; J. Watson Injured

Mr. Joseph Watson of Saugeen Junction had a narrow escape from serious accident and possibly death while working in a field on his farm on Thursday morning of last week. Mr. Watson was busy raking hay in a field when the inside tug on the harness on one of the horses became unhitched and he stepped down in front of the rake to hitch it again. He was wearing a straw hat at the time and an extra heavy gust of wind came, blowing it off his head, causing the horses to suddenly bolt and run away. Mr. Watson was knocked down and carried along the field by the teeth of the rake rolling him along as it went. In the mad career over the ground the tongue of the rake suddenly broke, causing the broken end to stick into the earth and upsetting the implement. Mr. Thos. Watson, a brother, working in the next field saw the runaway, but before he could reach the scene of the accident and render assistance the horses had quieted down. Mr. Watson was badly shaken up, had several deep gashes on his legs and also a deep cut on his back caused by the tine on the rake. His escape was miraculous and after a few days enforced absence from work was able to be around again.
