## Banking Service and Prosperity

PROSPERITY on the farm is largely dependent on factors beyond the realm of the farmers' control. There must be a good market demand for farm products and the production costs must be kept in proper relation with market returns. Our branch manager is thoroughly familiar with the business of farming and is ready to assist in carrying your farm program to a successful conclusion.

### A CONTRAST IN WEATHER

The contrast in weather conditions during the present summer in Southern and Northern Ontario and in Quebec has been of a most astonishing nature and holds more than a touch of irony for farmers generally. In the north and in Quebec the rain came in such copious quantities that crops were injured seriously in some districts. In Old Ontario, particularly in the south-east, crops sweltered day after day under a merciless sun for a period of nearly 2 months. rainfall figures for July afford the most striking illustration of what the countryside has borne. In Southern Ontario the rainfall was .53 inches, whereas the average figure is 3.5 inches of moisture. Quebec on the other hand, had the greatest rainfall in thirty years. The total for the month was 5.6 inches as compared with a normal of 3.7 inches.

### IN MEMORIAM

LARGE—In affectionate and loving memory of qur darling son and brother, Douglas, who left us so suddenly one year ago to-day, August 31st, 1929:—

A pure and lovely child,
He gave him in our keeping,
To cherish, undefiled.
But just as it was opening
To the glory of the day,
Down came the heavenly Gardener
And took our flower away.

Fondly remembered always—Mother, Daddy, Brothers, and little sister, Beth.

Niagara Falls.

## Curling Rink To Be Built In Flesherton

During the past several months the proposition for the building of a curling rink has been occupying the attention of curling enthusiasts, and the fruits of their labors are now being shown.

On Monday a meeting of all those interested in curling was held in the Munshaw House and the formation of a curling rink Company was proceeded wth. Mr. J. O. Dargavel was elected President, George McTavish Treas., and a committee composed of Messrs. W. Akitt, G. Brackenbury, J. McMillan and C. N. Richardson was appointed.

Plans have been secured for a rink 163x30 feet, approximately the same size as the Markdale rink. There will be a recreation room 30x17, and an ice surface 143x30, which allows for two games to be played at the same time. Several sites have been investigated and it has finally been narrowed down to a situation in Memorial Park, immediately in the rear of F. G. Karstedt's store. The financing of the proposition has just about been completed with over $2000 subscribed and only about $300 still to be secured.

The curling game was received with enthusiasm when it was installed here last winter, when about 20 members joined up when the club was formed with G. B. Welton as President. All playing was done on the side sheet of ice in the skating rink, but it was not satisfactory, as only one sheet of ice was available.

The price for erecting the building has been secured but the building contract has not yet been closed. It is expected that construction will be commenced at once, so that the curling fans will have an ice surface in plenty of time.

### CAMP MEETING

The Gospel Workers (D.V.) will hold their 10-day camp meeting at Clarksburg from Friday, September 5 to Sunday, September 14th. Four evangelistic services will be held each day— at 9 and 10.30 a.m.; 2:30 and 7:30 p.m. Preceding each preaching service a short time will be devoted to prayer, testimony, exhortation and singing.

Rev. T. M. Anderson of Wilmore, Ky., and Dr. P. Wiseman of Ottawa will be the principal speakers. The famous Musical Ramsays of Fort Wayne, Indiana, will have charge of the singing and music. Do not miss hearing them.

For particulars regarding accommodation write Rev. F. D. Goff, chairman of Committee, Drawer 5, Clarksburg, or G. W. Dinsmore, Thornbury.

### ENGAGEMENT

Mr. and Mrs. Thos. J. Thompson of Ripley announce the engagement of their daughter, Ethel Margaret, to Mr. David Howard McGee, son of Mrs. Richard Genoe and the late David McGee, the marriage to take plac the latter part of August.

### ENGAGEMENT

Mr. and Mrs. G. W. Alton, Markdale, announce the engagement of their eldest daughter, Kathleen Annis, to Mr. Harold Bird, Galt, only son of Mr. and Mrs. J. C. Bird, Toronto. the marriage to take place early in September.

### ENGAGEMENT

Dr. Mary Tryon announces the engagement of her sister, Margaret Janet Tryon, B.A., youngest daughter of the late Mr. and Mrs. George W. Tryon of Priceville, to Rev. Harvey Howey, B.A., of Swastika, Ont., youngest son of the late Mr. James Howey and Mrs. Howey of Owen Sound, the marriage to take place August 28th in Metropolitan church, Toronto, at 4:30 p.m.

### BORN

## An Heroic Rescue

Master Morris Armstrong, son of Rev. A. E. Armstrong, performed an act of heroism Monday evening that should be recognized by the proper authorities. Young Morris saved another lad from death by drowning at Meaford harbor. Gordon Randle, 10-year-old grandson of Mr. Harvey Helstrop, was the boy rescued.

About 6 o'cloock in the evening he was playing on the barge which had brought lumber here for the Seaman Kent Co. He jumped from the barge to the dock, tripped and fell into the water between the barge and the pier. Without a moment's resitation Morris Armstrong, fully dressed, plunged in after his companion. He held him until the ship's captain, attracted by the shouts, pulled them both out. Young Randle was unconscious a few minutes, but a little work brought him to. He was taken to his grandfather's home by one of the ship's crew and is little the worse for his thrilling experience. The act of life saving by Morris Armstrong will no doubt be properly recognized. —Meaford Mirror.

[Note—Morris is a brother of Mr. George Armstrong, who is employed in Mr. F. H. W. Hickling's store and a nephew of Mrs. Hickling. He is to be congratulated upon the presence of mind which promoted him to act so quickly in a time of extreme need.]

## Up-to-date Hospital

Dr. R. L. Carefoot of Markdale opened a private hospital in Markdale on April 22nr last, which has been doing good work. This was a second effort to start a private hospital there, but for several reasons the first attempt fell through. In April last Dr. Carefoot purchased a suitable property, and has associated with him a young graduate physician, D. Fyne.

The hospital has, since its opening, passed through its portals 75 patients. On Saturday last twelve patients were treated, a record so far.

A large variety of diseases have been treated, including goitre in all its degrees, tonsils, adenoids, and mastoids removed, appendicitis, and in fact all cases of ordinary surgery is attended to, as well as many maternity cases.

The equipment is very complete, including distillery for making distilled water, breathing tests for goitre, sterilizers, and just last week a thoroughly up-to-date X-ray apparatus was installed. When The Advance called on Monday the patients included three goitre cases. Dr. Carefoot has been wonderfully successful with this class of disease.

The building occupied is very suitable for its purpose, located on a quiet street. The premises as a whole has seventeen rooms and there are beds to accomodate ten ypatients. The place is still undergoing improvements and renovation, which, when completed, will make of it a going concern of which Dr. Carefoot may well be proud.

NOTICE—Good accommodation can be had while in Toronto at Mrs. Williams', 679 Bathurst St. Car takes you right to Exhibition. Phone TRinity 0472; also parking space.

## Miniature Golf Sweeps Canada

A despatch from Ottawa says: Other lines of business are being affected, some adversely and some favorably, by the spread of miniature golf. From the manufacturers of golf clubs it is learned that orders for putters, the only club which is being used on the miniature courses, are months behind and the apparent rapid growth in the number of these courses which are being constructed is expected to make the demand for putters increase even more.

The moving picture industry is said to be feeling adversely the effect of the popularity of the new diversion. It is the claim of numerous moving picture houses that a noted decrease has been found in the number of paying patrons since this novelty has come into vogue. It is stated that the moving picture houses do not attribute the decrease in patronage to the general economic depression as much as to the growth of popularity in miniature golf.

It is also found that the miniature golf courses are tending to have a concentrating effect on other types of business such as soft drink stands, gasoline and quick lunch stands. It is said that the courses are usually located in an area where there is available ground adjacent and after the courses have begun to draw the crowds a soft drink stand, gasoline station or quick lunch will be constructed to get the trade from the course.

Miniature golf has undoubtedly hit the particular liking of a number of Canadians throughout the entire country and the number of courses is increasing every day. The change has come about within the period of a year.

Mr. Alfred Platt of east Garafraxa received settlement in full of his claim for the loss of a team of horses and a cow in the electrical storm of about four weeks ago.
