EDITORIAL NOTES.

In these days of appeals for aid to the unemployed, a correspondent asks if the average citizen realizes that the people of Ontario are spending more than twice as much for gas and intoxicating liquors as they pay for educating their children.

* * *

Evening meetings of civic and other fathers will soon be proceeding throughout the country.. A busy man says he would seek office if business were conducted with promptness. Why should the councillors not have for a motto, "Cut the Cackle."

* * *

The tragedy which occurred early Sunday morning when the R-101 was totally destroyed and so many young English airship authorities perished, mitigates to some extent the successful flight of the sister ship, the R-100 which came to this country during the past summer. It is one of the worst disasters in the annals of British flying history.

MAXWELL

Mr. and Mrs. Thornton Pallister and family motored from the West and Mr. Vern Pallister who has spent the last few months in the West, returned home with them.

A VISIT WITH HIS DADDY

Evening rates on "Anyone" (station-to-station) calls now begin at 7 p.m. Night rates begin at 8.30 p.m. Just give "Long Distance" the number you want—it speeds up the service. If you don't know the distant number, "Information" will look it up for you.

Twice a week Jimmy stays up until eight-thirty. Daddy is on the road but he doesn't want to become a stranger to his son. And so, every Monday and Thursday evening, he pays a visit by telephone.

It doesn't cost much because he waits until eight-thirty when the lowest night rates begin. It amounts to about the price of a movie for a call and in return he gets something beyond money — the voices of his wife and his little boy — a touch of home — moments of affection for them all to remember and look forward to.

Many people away from home are using the telephone these days to have regular visits with their families. Out-of-town calls are so simple to make and they are quick and inexpensive. They are the next best thing to being really home.

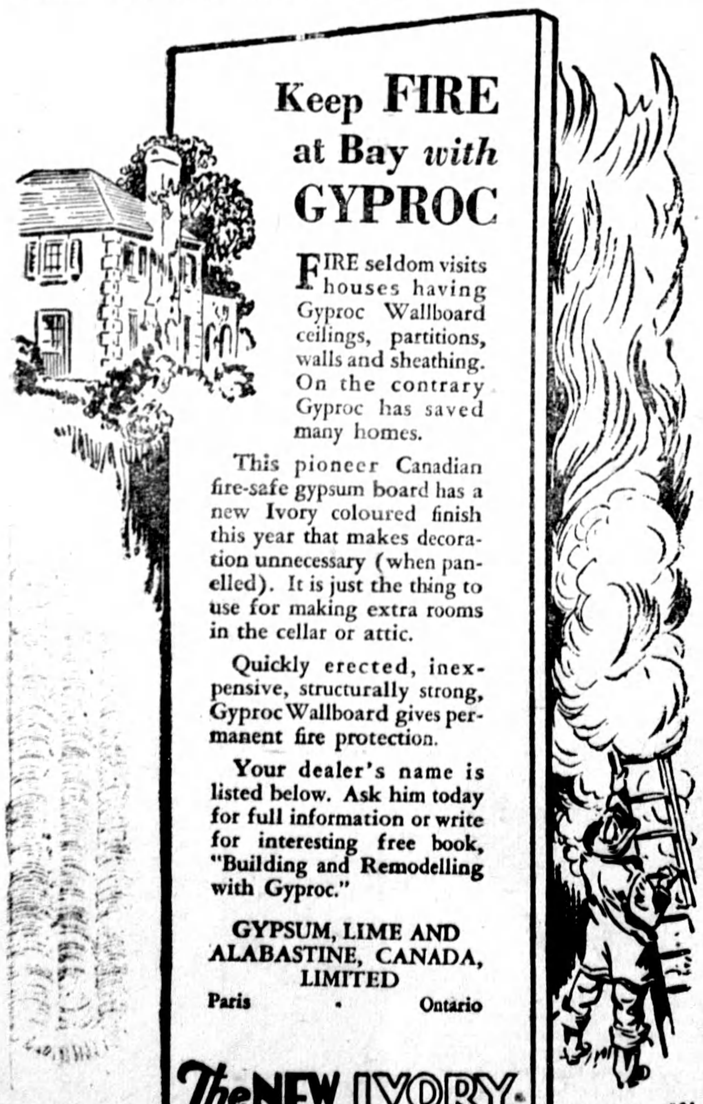
Keep FIRE at Bay *with* GYPROC



FIRE seldom visits houses having Gyproc Wallboard ceilings, partitions, walls and sheathing. On the contrary Gyproc has saved many homes.

This pioneer Canadian fire-safe gypsum board has a new Ivory coloured finish this year that makes decoration unnecessary (when panelled). It is just the thing to use for making extra rooms in the cellar or attic.

Quickly erected, inexpensive, structurally strong, Gyproc Wallboard gives permanent fire protection.

Your dealer's name is listed below. Ask him today for full information or write for interesting free book, "Building and Remodelling with Gyproc."

Something For Nothing

Ruskin says, "Things of quality, necessarily demand high prices; those things which tend toward cheapness demoralize arts and manufactures." He was right, a wise old sage, who in his day had the vision of a Rockfeller or Ford. He realized and knew the value of Quality. So it is today. You cannot buy a wool suit for the same price you pay for a half wool and cotton suit. This same argument applies to every line of merchandise. Try to buy a five dollar gold piece for less than the Government standardized value and see how successful you are. So don't expect "something for nothing." Your own judgment and knowledge of values are what you should be governed by. Don't use snay judgment. Your merchant in your community will only too willingly assist in explaining values to you. It is his duty to do so. Won't you give him the opportunity? By doing this you, the merchant and your community are al benefitted. This is co-operation and finally spells success.
