One of the worst storms we have had this winter started early Sunday morning and lasted all day, piling the snow very deep in places. The roads were very heavy and in some places almost impassable. The snow plow went through on Monday morning, putting them in good shape again.

Fish as candles? Certainly, some of them, sometimes. Oulachons, small oily fish taken in British Columbia waters, are also known as "candlefish" a name derived from the fact that Indians sometimes dry them and use them as candles.

On Friday night a very enjoyable time was spent in the McKinnon hall when a large crowd was present, and partook of the good supper which was given. A program was afterwards enjoyed with choruses by the C.G.I.T.; duet, Mrs. Dan Campbell and Mr. John Nichol; reading, Mrs. Wm. McMillan; solo, Mrs. (Rev.) Sutherland. This was followed by a debate on resolved "that conditions in farming were more conducive to happiness 50 years ago than to-day." The affirmative side was upheld by Mrs. Dan Campbell and Mrs. Henry Tucker, and the negative by Mrs. Archie McCuaig and Mrs. Chas. Tucker. The judges, Rev. Stewart, Herb McInnis and Mrs. Harry Houston, gave their decision in favor of the affirmative. The debate was very interesting and caused much fun. There were other numbers on the program, but the persons failed to be present. The proceeds of the evening amounted to $42.

Mr. Geo. Campbell of Owen Sound was a recent visitor with his uncle, Mr. George Campbell.

The Chesley Enterprise says: "up in Wiarton, according to the Canadian Echo, mothers are keeping late hours at bridge parties and the old song about the little girl pleading in the bar-room for father to come home to his wife and family is likely to be changed to "Mother, dear mother, come home with me now, the clock in the steeple strikes two. You said you were coming right home to dear dad, as soon as your last game was through."

—SCOTLAND Yard "flying squad" will shortly experiment with a new type of motor tire, already tried out privately, which is claimed to be invulnerable to skidding, bursts and punctures. Now, if some guy will kindly invent a rubber bumper that will take up all the shock when a car tries to climb a tree or a telephone post, or does things along the line of knocking down fences.

Many around here are ill with colds.

Mrs. Ed. Heard and family spent a few days visiting in Shelburne.

PROTON STATION

Mr. W. G. Prosser was too ill to fill his appointments at Hopeville, Inistioge and Proton Station on Sunday. We hope that he will be better before next Sunday.

Proton Station hockey boys again tried their luck with Flesherton boys; to be sure they came off second best in a 5-2 score, but they are plucky to play at all against a practised team. They have no place to practice whatever, except in a game, and just begin to hit their stride at the last period. Nothing like perseverance.

Messrs. Bates, L. Wauchope, E. Lyons and E. Park were in Toronto last week and attended the West Toronto-Owen Sound hockey game.

Mr. Jackson of Berkeley is visiting at the home of Mr. H. Jackson here.

News seems to be exceedingly scarce; nothing much doing that would interest the public. Where there are a few congregated the chief topics of conversation seems to be the low prices, business depression and the U.F.O. stores.

PORTLAW

Mr F. Weatherall of the South Line met with serious disaster on Wednesday of last week, when his large barn with hay, straw, grain, fowl and implements was destroyed by fire. Mr. Weatherall was doing his chores about six o'clock in the morning when he fell through a scaffold, causing the lantern he was carrying to explode. He was stunned by the fall and unable to beat out the flames that quickly spread. He was fortunate enough to revive sufficiently in time to get out of the barn, and thus avert a more serious calamity. Mr. Weatherall has since been confined to the house suffering from shock and injury to his spine. The animals were all saved and are being cared for by neighbors.

Roy McMullen, second son of Mr. and Mrs. Richard McMullen, was the victim of a very painful accident on Friday last. He was operating a buzz saw at home when the back of his right hand was struck above the knuckles by the saw, inflicting a very nasty wound, and injuring bones and tendons. Dr. Carr-Harris dressed the wound.

Congratulations to Mr. and Mrs. Clarence Watson, recently married. May they enjoy a long and happy journey through life.

Mr. and Mrs. Russel Patton moved to Rocklyn and has taken possession of the Cornfield farm.

On account of the storm Rev. Pope was unable to make his appointment here and at Wareham last Sunday. Only one Sunday missed this winter is a pretty good record for Mr. Pope, considering the roads and weather he sometimes has to contend with.

Distance will lend quite a bit of enchantment to winter.

Master Artie Proctor spent the week end with his grandparents, Mr. and Mrs. Proctor, in Kimberley.

Another fair "Lilly" has joined the horseback riders. Don't be like the lady, who, a few days ago let her pony get away from her and had to walk home. A genteman, after seeing the pony canter homeward minus the rider, made haste to go and find the young lady. Soon he heard her coming along laughing and talking to her chum. See, he was the caretaker of the school and looks after all interests there.

Some people think every season comes at the wrong time of the year.

The great deeds that men do live after them. Some men's deeds are not appreciated until too late, and this may be the case of W.E.N. Sinclair, the local legislature. Mr. Sinclair has the complete confidence of his following in the house. His contribution to the speech from the throne and also to the issue concerning Toronto University have proven him to be a man of sound judgement. It is just possible that the great Liberal party in Ontario which listened to dictation from Ottawa made a great blunder in rejecting Mr. Sinclair for the noisy petrel from Elgin county, who up to this date, has fallen short of making much of an impression.—Creemore Star.
