BABY'S FACE IN TERRIBLE STATE

Awful Humor Was Eating Away Face and Ears—Body Mass of Sores—Three Doctors Tried to Help Little Sufferer But She Grew Worse—After Spending Many Dollars On Doctors and Medicine

CUTICURA CURES IN TWO WEEKS AT COST OF 75c.

"I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away. Her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents, which is all it cost us to cure our baby, after spending many dollars on doctors and medicines without any benefit whatever. Mrs. George J. Steese, 701 Coburn St., Akron, Ohio, Aug. 30, 1905."

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce;
Compound Salatone, one ounce;
Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salatone and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

DOCTOR CONVICTED

INSURANCE VICE-PRESIDENT IN THE TOMBS.

Jury Find Dr. Gillette Guilty of Perjury—First Big Official Reached By the Law.

New York, Oct. 26.—The first conviction in the cases based on the disclosures in the legislative investigation of insurance affairs in 1905-06, was obtained by the district attorney's office on Thursday night, when a jury in the criminal branch of the supreme court found Dr. Walter R. Gillette, former vice-president of the Mutual Life Insurance company, guilty of perjury in the third degree. The verdict was accompanied with a recommendation for mercy. The maximum penalty for this degree of perjury is ten years' imprisonment.

Justice Dowling remanded Dr. Gillette to the Tombs. During the trial the defendant had been at liberty under $10,000 bonds.

The jury was out for one hour and twenty-five minutes. In the interval Dr. Gillette chatted with his son and daughter. If he was at all nervous he did not betray his state of mind. When called to face the jury, however, he paled perceptibly, the pallor giving way to a flush as he heard the verdict. For a moment he appeared surprised, but promptly recovered himself. He was accompanied by the son and daughter to the entrance to the Tombs.

Dr. Gillette is sixty-seven years of age and is well and favorably known in medicine, from the practice of which he retired some years ago.

He was born in Philadelpaia and is a graduate of Madison University, and of the College of Physicians and Surgeons of this city. He served in the civil war as acting assistant surgeon, and later coming here was made manager of the State asylum for the Insane and became consulting physician at several hospitals. Later he was associated with the insurance business, resigning only last year the vice-presidency of the Mutual. His home here is at 24 West Fortieth street.

Several witnesses swore to the reputation of the defendant for integrity, after which former Justice Hatch summed up for the defendant. His client, he said, had been made a scapegoat, while the really guilty officers of insurance companies had escaped prosecution. The Dobbs Ferry funds, he said, had been given the defendant by President McCurdy, of the Mutual, and his client held the money subject to McCurdy's order.

In conclusion Special Counsel Rand said that when the grand jury began its enquiry regarding special insurance funds, the disposition of which had been concealed from the policyholders, of funds used for "confidential legislative" purposes, they called Dr. Gillette a man of reputation and of character. He had a right to expect that he would tell the truth, but he had not.

"We don't attack his previous reputation," he said; "that is why he was made custodian of millions of the people's money. That is why such a man could conceal facts from a grand jury and why they expected him to tell the truth because he was a man of character and standing. That is the shame of it all."

VON BUELOW'S RUIN.

Widespread Conspiracy Aimed at German Chancellor.

PRINCE BUELOW.

Berlin, Oct. 26.—A widespread conspiracy to bring about the downfall of Prince Buelow, the imperial chancellor, has been discovered.

Recently there was issued a scurrilous pamphlet, in which Adolphus Brand brought serious charges against the chancellor. Prince Buelow thereupon instructed the public prosecutor to proceed against Brand for criminal libel.

The police have now searched Brand's residence, and discovered that he was the tool of the powerful political round-table clique, whose exposure and defeat were brought about by Prince Buelow five months ago.

It is said revelations will be made showing astounding corruption in the highest circles of the German empire.

Prince Buelow, who has many political enemies in high places, succeeded Prince Hohenlohe as imperial chancellor in October, 1900. There have been repeated unsuccessful attempts to discredit him in the eyes of the emperor.

The King And The Children.

While journeying to Balmoral by motor car from Tulchan lodge, where he had been the guest of A. B. Sassoon, the king turned aside and paid a brief visit to the orphanage of the Scottish Episcopal church at Aberlour, in which some 400 children are being trained. The children, drawn up before the royal car, sang the national anthem, and the king, having expressed to the choirmaster the pleasure their singing had given him, resumed his journey over the Banffshire hills. Canon Jupp, the founder, with whom the king conversed, afterwards related that the king had said: "Do tell everybody that I am very much pleased with what I have seen."

THE SPORT REVIEW.

The Scrimmage to Prevail in Rugby.

The Oxford Marathon at Woodstock on Thanksgiving day, open to county residents, has thirty entries.

The last chance of a meeting between Longboat and Shrubb is gone. The Indian will not go to New York.

Montreal is excited over to-day's attendance records are expected to be game, and all football and lacrosse broken. Dollar seats sold for $3.

Ottawa Citizen: The Ottawa College students will paint the Limestone City red if the "Varsity" boys pull out ahead.

Despite reports to the contrary, the prospects are that there will be a professional hockey league in Ontario this season, comprising teams in Toronto, Berlin, Guelph and perhaps one or two other points.

McGill has taken up English rugby with enthusiasm. A large percentage of the students are from the maritime provinces and from England, and the introduction of the game has been often suggested.

Ottawa's new hockey rink is about completed. It is in the heart of the city, and can be much more easily reached than either of the old ones. It is the same size as the Arena at Montreal, seating the same number of persons, while the ice surface is also the same.

David Hartley, Peterboro's lone distance pedestrian, who was announced to set to walk from Bowmanville to Toronto and return to Peterboro, via Port Hope, a distance of 144 miles, in thirty-eight hours, has called the trip off. He is willing to undertake the feat, he says, but financial support was not forthcoming from his friends.

It is likely that there will be a new hockey league in the west this year. The Winnipeg Hockey Club is thinking seriously of breaking from the C.A.A.U. and will join hands with Kenora, Brandon, Portage la Prairie and Strathcona in the formation of a five club professional league. A meeting of the Winnipeg club is to be held next week to come to a decision.

Ottawa Free Press: Just in the hour of victory, College is up against a proposition which might seriously hamper their chances in the fight for the Intercollegiate championship. McDonald, the fast centre half, who starred in the game against 'Varsity, last Saturday, will probably leave the squad through parental opposition. His loss will be badly felt, particularly in view of the fact Joron is out of the game for the season, and O'Neil is laid up with his ankle. College still hopes to beat Queen's, despite the loss of some of its best men.

WORK ON THE G.T.P.

COLLINGWOOD SCHREIBER'S TRIP.

Work on the Line Between Portage la Prairie and That Point Hindered By Lack of Men—Wages and Supplies Are Much Higher—The Progress Made.

Ottawa, Oct. 24—Collingwood Schreiber, chief consulting engineer for the government, has just returned from an inspection trip of the Grand Trunk Pacific line now under construction between Portage la Prairie and Saskatoon. Mr. Schreiber reports that with favorable weather conditions for the next few weeks the rails will be laid all the way from Portage la Prairie to Saskatoon.

At present 123 miles of road are opened for traffic, and nearly another hundred is now ready to be opened. "The great difficulty in the way of the constructors," says Mr. Schreiber, "is the lack of ties and the scarcity of labor." While he was in the west some three hundred men in one section of the road left work to go into the harvest fields, where the wages paid are as high as $3.50 per day. The contractors are now paying $2.25 per day for ordinary labor, and even at that figure find it almost impossible to obtain men. At Saskatoon everything has been in readiness for three weeks to begin laying the rails eastward to join the completed end of the line out from Portage la Prairie, but though several hundred men were booked for employment only thirty-two were obtainable.

The cost of the prairie section is averaging between $23,000 and $24,000 per mile, although it was originally estimated that the cost would only be about $13,000 per mile. Wages were 50 per cent. higher than three years ago, and the cost of supplies runs from 50 to 100 per cent. higher. Settlement along the new line is going on rapidly, and Mr. Schreiber states that his observation of the crop conditions leads him to believe that the western farmers, in view of the high prices, will realize as much in cash for grain this year as they did last year. By the end of next year he expects to see the G.T.P. trains running from Winnipeg to Edmonton.

To Vaccinate Aged Emperor.

Pall Mall Gazette.

The Emperor Francis Joseph has shown himself to be an exceptional monarch in yet another instance. As a rule, you do not often hear of an emperor who is minded to bare his arm to the lancet of the vaccinator. It will be said, on the other hand, that you hear even less often of an emperor contracting smallpox. Still, the Austrian emperor is to be vaccinated after his return from the Austrian manoeuvres. Smallpox is rife in Vienna, and his doctors are of opinion that age is no prophylactic. So it would seem when one of the wittiest and the most evergreen of the earls of Winchelsea died in the seventies of one of the eruptive fevers of childhood.

After maturity many a man has considered it a blessed thing that his mother's apron strings were so strong.

THE ORTHODOX JEWS

In Germany Dissatisfied With Position.

Berlin, Oct. 26.—The Orthodox Jews of Germany are not satisfied with their position. They say that Christians are preferred to them in the army; that it is practically impossible for a Jew to rise above the rank of a captain, and that the government uses all means to discourage Jews who wish to adopt a military career.

Nor is this all. At the recent annual congress of the Association of German Jews a number of resolutions were adopted. It was resolved to demand equal rights for Jews in the army and to protest against the policy of the government, which offers rewards in the form of special appointments to Jews who are willing to relinquish their faith and become Christians. It was furthermore resolved to protest against the deportation of Jews who had escaped from Poland and Russia into Germany, and to demand that all foreign Jews be given a chance to become German subjects when they so desired.

A committee of Jews will call on the kaiser and present him with a copy of the resolutions within a few days.
