

Nursery School observes Hallowe'en

The Orono Nursery School, held daily at the Orono United Church, also jumped into the Hallowe'en celebrations and both classes arrived during the week in their individual costumes. The Nursery School was not to be outdone by other groups in the community and it was a great occasion for the youngsters.

Agri-News

by: John E. Finlay
Agricultural Representative

CROP CONDITIONS UPDATE: Harvesting of crops has progressed well over the past few weeks and is probably ahead of normal. Soybeans are at least 95 percent combined with average to above average yields of 35 bushels per acre. Cutting of silage corn is also completed with slightly below average yields of 12 to 13 tons per acre/the grain corn has matured well despite the later spring planting dates. The crop has dried down in the field to between 26 and 30 percent moisture. Average yields are quite variable but better than expected. We project the average yield to be 75 bushels per acre, down from the exceptional yield of 92 bushels per acre in 1982.

Many farmers are completing tillage work. An increased acreage of winter wheat has been seeded. We have some concern for excess growth of wheat due to the warmer than average September and October. The cereal grain crops were generally poor in quality and yield.

The vegetable season is nearing completion, with abundant supplies of pump-

kins, squash, cauliflower and cabbage now on the market. The apple harvest has been slow as producers have had to wait for better colour. The apple crop will have a below average year with hail damage, sizing problems due to the hot summer and the colour problem. A lower proportion of the crop will make the higher priced fancy grade.

Feed supplies should be adequate on most farms, although a few will be purchasing additional corn due to a poor cereal grain crop. Forage quality is above average. Milk production appears to be up on most dairy farms, putting stress on quota requirements.

Many beef producers are in the process of weaning calves on pasture and selling them to local feedlots. Prices are very depressed for slaughter cattle, hogs and dairy breeding stock.

Despite the many adverse weather conditions, local crops in general have done well compared to other areas.

Better breathing course

year. More people are seeking help from asthma programs and Better Breathing Courses, which give help and support to those who suffer from chronic respiratory impairment. The Lung Association's School program is in great demand, with its message of a healthy life-style and smoking prevention. In research projects too, the Lung Association is in the forefront of the battle against lung disease.

"We must continue to expand and grow," says Dr. Fisher. "We must serve the people who look to us for help, and this can only be achieved through increasing and continued public support of the Christmas Seal Campaign."

tips to help trim wastage and save money.

This "Summary Day" Program has been planned to conclude the Adult Program, "More Cents Than Dollars". As well as our two informative speakers, there will be special displays presented by the participating groups. These will include such things as Sprouting Various Beans and Seeds, Garnishing Ideas and Innovative Ways to Use Leftovers.

This program is open to everyone. Come and bring a friend!

Sod turned for new College building

Friday morning, Ruth Milne, Chairman of the Durham College Board of Governors, and Sam Cureatz, M.P.P. for Durham East, the riding in which the College is situated, turned the sod to mark the beginning of construction for a new Skill Trades and Technology Building at Durham College.

The Board Chairman explained that Durham is again embarking on a building program to accommodate its growing student population. The new building will not only bring increased emphasis on high technology, but will provide much needed classroom and instructional space.

There will be eight new classrooms, a robotics lab, a process control lab, a drafting room, a fibre optics lab, two electronic labs, and two CAD/CAM rooms with a central computer area. The College is doubling the size of the existing H-Block machine

shop. There will also be a new precision metal fabrication area, and a fitter-welder room.

Ruth Milne stated that the new building should accommodate up to 600 students, and will alleviate heavy student use of the main building. It will cost about three million dollars, and should be operational by Fall of 1984.

Also participating in the ceremony were Sam Cureatz, M.P.P. for Durham East, who brought a congratulatory message from the Minister of Colleges and Universities, Dr. Bette Stephenson. Howard Shepard, Northumberland M.P.P. also spoke briefly. Lawrie Kerridge, Director of Planning and Development for the Ministry of Colleges and Universities, congratulated the College on its new building program.

Those in attendance included Regional Chairman, Gary Herrema; Mayors Allan

"Ring up savings" join Orono meeting

by: Barbara McNinch
MORE CENTS THAN DOLLARS: Join us Tues-

Pilkey of Oshawa; Bill McLean of Ajax; Garnet Rickard of the Town of Newcastle; and William Ballinger of Uxbridge. Other dignitaries present were Norm Williams, Chairman of the Council of Regents; Stan Lovell also of the Council; Architects Peter Eberlee, Denny Bryan and Brian Saul of Totten, Sims and Hubicki; Rod Andrew, Director of Personnel at General Motors; John Powell of Dupont (Canada) Inc.; Harry Tresise and Bert Wierenga of the DO-IT Committee. They were introduced by Mel Garland, Durham College President, who acted as Master of Ceremonies. College Board members, administration, staff and students were also present for the occasion.

day, November 8, 1983 from 1:00 - 3:30 p.m. at the Orono Community Centre for an exciting afternoon that will help you ring up savings at the meat counter and save money and energy in the kitchen.

Not all beef is steak - there are over 25 different retail cuts to choose from. Knowing the variety of cuts lets you take advantage of the more economical cuts. Mr. Ronald Death from Windcrest Farms Meat Sales will show you how, using some of the cuts from the front quarter can stretch your dollar deliciously and how to take advantage of specials on larger cuts by being your own butcher. He will, also, discuss the benefits of bulk buying. You may even be lucky and win one of the steaks or roasts donated by Mr. Death for door prizes.

Did you know the kitchen uses more energy than almost any other room in the house? Mrs. Lynne Andrews from Ontario Hydro will offer you

Tenders For Pupil Transportation

Separate tenders are invited to supply:

- a 72 passenger school bus and driver for the transportation of pupils from Cramahe, Haldimand Townships and the Village of Colborne to Colborne Public School and
- a 60 passenger school bus and driver for the transportation of pupils from Cramahe Township to Cramahe South Public School.

Sealed tenders clearly marked "Pupil Transportation" will be received by Mr. J.A. Bird, Business Administrator and Treasurer, The Northumberland and Newcastle Board of Education, 834 D'Arcy Street, P.O. Box 470, Cobourg, Ontario, K9A 4L2 until 3:00 p.m. Monday, November 21, 1983.

Conditions, specifications and tender forms are available at the same address.

All queries regarding these tenders are to be directed to Mr. R.E. Clitheroe, Supervisor of Transportation, Phone (416) 372-6871.

Purchase Order No. 97188.
