Red Checker Men

Float the red checkers from your checker-board in a bowl of water and you will know why blood is red. Blood has millions and millions of little red wheels floating in a clear fluid. The professor calls them red corpuscles. Well,

Scott's Emulsion

makes red corpuscles. These little red wheels grow in the bone marrow. SCOTT'S EMULSION contains a power which feeds and puts new life into the bone marrow of pale people.

Considerate.

"Why, gracious, pa," said the only daughter, "what in the world are those queer arrangements you have placed in the vestibule?"

The old gentleman rubbed his gouty foot and softly chuckled.

"Not much, dearie," he responded. "You see, I noticed how long it takes for you and that young man to say good night, so I fitted up an electric heater to keep your feet from getting cold and a portable alarm clock to inform you of the breakfast hour."

Perfume in fancy Christmas packages for Christmas at Bests'.

GOVERN BY PEOPLE

AN AWAKENING IN THE ORIENT.

China to Have a Parliament—Imperial Edict Establishes Preliminary Assemblies in All Provinces.

Washington, Dec. 10.—The state department has received a translation of an imperial edict issued by the empress of China establishing deliberative assemblies in the provinces of the empire. The edict recites the fact that a decree has been promulgated calling for the establishment of a constitutional assembly in Pekin, which is to be the foundation of a national parliament. In order to provide some means by which an expression of public opinion can be obtained, the viceroys and the governors of the various provinces have been ordered to establish immediate deliberative assemblies in every provincial capital.

These assemblies are instructed to consider all questions relating to new institutions, or to changes of any kind. In the future when members are to be elected to the constitutional assembly the members of the provincial assemblies may be chosen for the seats in the national body. The edict contains the following warning:

"The officials shall elect competent and efficient men to act as members of the deliberative assemblies and under no circumstances shall men of evil reputation, or local "bosses," who seek only their own advancement, be chosen by them."

Borough President Removed.

Albany, N.Y., Dec. 10.—Governor Hughes has ordered the removal from office of John F. Ahearn, president of the borough of Manhattan, New York city, on the charges preferred against him by the City Club of New York, holding that the "neglect and misconduct alleged to prevail in the borough president's office," were for the most part made possible because of the want of that administrative care which it was the plain duty of the borough president to exercise.

When the stomach, heart or kidney nerves get weak, then these organs always fail. Don't drug the stomach nor stimulate the heart or kidneys That is simply a makeshift. Get a prescription known to druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample test sent on request by Dr. Shoop, Racine, Wis. Your health is surely worth this simple test. Sold by all druggists.

114 PRINCESS STREET.

ANOTHER BIG VESSEL.

New Steamer For Nothern Navigation Company.

Port Arthur, Ont., Dec. 10.—With the opening of navigation in 1908, the Northern Navigation company will put into commission a new monster passenger vessel of the same type and dimensions as the Huronic. The announcement was made by C. H. Nicholson, the general traffic manager, of Sarnia.

Mr. Nicholson is in the city this week, on his annual "closing up" visit.

"The Northern Navigation company's 1907 business was the heaviest on record," said Mr. Nicholson. "The year 1906 established what we considered the best yet, but this season's business will exceed the 1906 record by a wide margin."

Mr. Nicholson remarked that the success of the Sunday night Duluth trips on the Huronic contributed greatly to the season's splendid record.

Concerning the new boat, which it is hoped to place on the upper lakes run in 1908, Mr. Nicholson said it would be in every way the equal of the Huronic as to speed, conveniences and equipment. She would also make the Duluth trip once a week. The plans of the Huronic's sister ship are now under consideration.

"READY TO RUN."

Secretary of War Taft Sails For Home.

Berlin, Dec. 10.—Secretary of War Taft did not learn much about recent political developments in America until he reached here and spent his spare time reading his correspondence and the latest files of the New York newspapers. When he had posted himself as far as possible he smilingly repeated his willingness to run for president if he should be nominated.

He repeated what he had said before concerning the situation between the United States and Japan, and added that no importance could be attached to the recall of Viscount Aoki. He felt certain Aoki was not recalled owing to any strain in the relations between the two countries.

Mr. Taft sailed for New York from Cuxhaven, on the Hamburg-American Steamship company's liner, President Grant. He will cross the Atlantic as the guest of the company. He expects to reach New York December 18th.

IRISH MISS REMITTANCES.

Financial Worry Reflected in Emerald Isle.

Dublin, Dec. 10.—The financial worry in America is beginning to have its effect in Ireland.

There is a universal complaint among the peasantry regarding the non-arrival of remittances from the United States. They are usually counted on, specially during the month or so preceding Christmas.

Numerous complaints have been received from America regarding lack of employment and scarcity of money, and many of these find their ways into the local newspapers, accompanied by warnings to intending emigrants to remain at home—at all events, until the present trouble shall be over.

Religious Census of Manitoba.

Winnipeg, Dec. 10.—The religious census which was commenced Nov. 20th is complete and the following are the denominations with the number of adherents: Church of England, 22,812; Presbyterian, 21,872; Methodist, 16,312; Roman Catholic, 12,888; Baptist, 4,724; Congregational, 3,776; Evangelical Lutheran, 3,624; Hebrew, 2,840; Salvation Army, 836; various denominations, 4,632; no preference, 2,940; refused information, 1,084; not at home or no information available, 5,132. Total, 104,472.

Some other sects are Zoroasterians, Agnostics, Materialists, plain infidels, Mohammedans, Free Thinkers, Mormons, Swedenborgians, Mennonites, Christadelphians, those who call their particular belief "The Fatherhood of God and the Brotherhood of Man," others who claim to be of the "Church established by Christ while on earth," Ethical Spiritualists and Shakers, Children under four years were not counted.

Senator Fulford's Will.

Toronto, Dec. 10.—A lawsuit arising out of the will of the late Senator Fulford, who left an estate of six million dollars, came before Justice Riddell Monday. The action is brought by Dorothy Fulford Hardy against Mrs. Martha Fulford Sheriff, guardian litem for George Taylor Fulford, a son of the late senator. The plaintiff claims that under the interpretation of the will the difference between the annuities directed by the testator to be paid to each child while under the age of twenty-five, and the full one-third share of surplus income of the estate which would have been payable to each of the children had they been the full twenty-five years of age, does not accumulate to the benefit of the children, and is not to be paid them upon their arrival at the age of twenty-five, but falls into the general estate to be accumulated and invested. Judgment was reserved.

Scholarships For Australians.

Melbourne, Australia, Dec. 10.—The Age announces that Thomas Stanford, brother of the late Leland Stanford, the founder of Leland Stanford University at Palo Alto, California, intends to bequeath $250,000 to found eight annual scholarships at Leland Stanford University for young Australians, who must pledge themselves to return to Australia and employ the knowledge thus gained in developing their native country.

Thomas Stanford has lived in Australia for forty-seven years and wishes to link the two countries by an educational bond.

Tribesmen Ask Pardon.

Oran, Algeria, Dec. 10.—It is reported here that Bennia Nassen tribesmen, who recently attacked the French forces, have sent in emissaries asking for pardon. They took this step upon learning that the preparations to advance against them made by Gen. Liautey, the French commander-in-chief, had been successfully completed.

FOLLOW THE SURVEYORS.

Settlers Squatting on Newly-Surveyed Lands.

Winnipeg, Dec. 10.—P. R. A. Belanger, chief inspector of surveys for the department of the interior, passed through the city, yesterday, on his return trip to Ottawa. Mr. Belanger, with a staff of twelve assistants, spent the summer inspecting the works of the various surveyors who have been engaged for upwards of a year in the tract of territory between the fifth principal meridian, and the Macleod river, roughly speaking, about sixty townships. Mr. Belanger said they found the land to be of the very best, watered with pure soft water and a plentiful supply of hay. They found many squatters on the lands, and were continually followed by intending settlers, who wished to have the first selection of lands immediately they were surveyed and marked out. Others would go ahead of the party and locate themselves so that they might even have a better chance. On his return trip, Belanger said he met at least fifty families on their way out to settle on the newly surveyed lands.

Belanger has spent twenty-seven years surveying lands in Western Canada, having first been appointed to his present position by the government of the late Sir John A. Macdonald.

MAN SHOT AT DUCK.

Bullet Glanced Off Ice and Killed Another.

Campbellton, N.B., Dec. 10.—The expected happened at Sayabec, Que., when James K. Pollock was arrested on a charge of causing the death of Gervais Gauthier, near that place. The arrest was made by two detectives from Quebec, who have been working on the case for several days. The arrest was made at the Red River mill of John Henderson & Co., about twelve miles from Sayabec. Pollock was taken to the jail at Rimouski, but will be brought back to Sayabec, when the preliminary examination begins. Pollock has the sympathy of the people of Sayabec, who believe that he did not intentionally kill Gauthier. The story, as given out, is that Pollock fired at a duck, and that the bullet glanced off a piece of ice, and penetrated Gauthier's side.

VOTES FOR MARRIED WOMEN.

Council to Ask Legislature to Amend Act.

Toronto, Dec. 10.—The city council has decided to ask the legislature to amend the municipal act, so as to give married women votes at municipal elections. A deputation of ladies and gentlemen waited on the council in behalf of the married women, who desire the municipal franchise, and council passed a resolution, on motion of Alderman Bengough, to the effect that application be made to the legislature to amend the municipal act, so as to provide that married women be placed on the same footing with regard to the franchise as widows and spinsters. At present widows and spinsters who own property can vote at municipal elections, but women with husbands cannot.

The Late Dr. Moritz Schmit.

Frankfort-on-Main, Dec. 10.—The death is announced of Professor Moritz Schmit, the well-known laryngologist. He removed a polypus from the throat of Emperor William several years ago and for this service the emperor conferred upon him the title of excellency.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe that Dr. Shoop tells mothers everywhere to give it without hesitation even to very young babes. The wholesome green leaves and tender stems of a lung healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the doctor uses, "The Sacred Herb." Demand Dr. Shoop's. Take no other. Sold by all druggists.

"They are poor writers but eminently good business men," is the exclamation as one looks over the Montreal business proclamation issued by the Witness with the autographs of the captains of finance. The special industrial number is a credit to the newspaper. Montreal's commercial interests, her industries, her transportation facilities, and many other factors in her greatness, are described in racy style.

Bibles, prayer books, hymn books, sacred songs and oratorios, for sale at McDermott Bros.

The Challenge.

There never was a more glorious age in which to live than the present. There never was a time that so challenged the spirit of man by the chance of splendid achievement. There never were days that called more for high spirit and strong courage and devoted deeds. There are causes that challenge us as they invite our aid. To the coward the age is mean and inglorious. To the brave man and true, who will risk for the right, and dare by his deed, it offers the chance divine. What means it to you? Are you going to skulk in the rear, or are you going to accept the challenge of the age and go forward?

Address, Mr. Casson for free literature.

SPLIT, BRITTLE, DULL HAIR.

All Come From Dandruff, Which is Caused By a Germ.

Split hair, hard hair, lustreless hair, brittle hair, falling hair, all owe their origin to dandruff, which is caused by a measly little microbe that burrows into the scalp, throwing up the cuticule into dandruff scales and sapping the vitality of the hair at the root causing the several diseased conditions of the hair till it finally falls out. Modern science has discovered a remedy to destroy the dandruff microbe, which is combined in Newbro's Herpicide, the delightful hair dressing. Allays itching instantly and makes hair soft as silk. Take no substitute; nothing "just as good." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and $1. G. W. Mahood, special agent.

PREVENTION OF CANCER.

Eminent Physician Recommends a Simple Life.

Berlin, Dec. 10.—Dr. Czerny, of Heidelberg, an eminent authority on cancer, reviewing the latest German researches into the nature and treatment of the disease, recommends a simple life as among the best means of preventing cancer. He advises that the skin be kept most scrupulously clean, that rich food be avoided, that liquid irritants be avoided. There are, he says, 40,000 deaths from cancer annually in Germany. He admits that X-Rays and radium have frequently checked cancerous growths, and occasionally cured them. He finds that no certain conclusion as to their efficacy is to be drawn. Further research is necessary.

"Brick's Tasteless" is sold in Kingston at Gibson's Red Cross Drug Store.

E. D. Rotter, Chicago, followed his wife and son to North Bay, and attempted to abduct the little boy. He was arrested.

Fresh Air By Compulsion.

London, Dec. 10.—It has been reported to the Camilford district council that at a house in St. Cleather two of the occupied bedrooms have no windows, but only open apertures. It was stated that the house was very clean and that no person had died there recently until eighty years of age, and some were ninety. The council decided to call on the owners to put windows to each room.
