## Proposed Policy Comes Under Fire

The Town of Newcastle council has proposed that some of the cost of streetlighting both capital and operating be taken from the general budget which would, as such, distribute the cost throughout the rural and urban areas alike. It is a new venture in financing streetlighting but one that has created a storm in the rural areas which is only natural and surely could have been expected.

Council. Woodyard points out that rural residents in a majority of cases already provide lighting on their own property without the help of the municipality and cannot be expected to now be taking some of the load of municipal projects where they do not receive a direct benefit. Taxpayers in such as Orono, Newcastle, Bowmanville who have for years paid their own costs would receive the benefit with rural assessment being taken into consideration for streetlighting costs in those particular areas.

It is interesting to note that council has somewhat introduced a user-benefit, user-pay policy for recreation and culture. The street lighting proposal, however, is a direct contradiction of their philosophy being instituted in recreation and culture. Instead of reigning down on expenditure they would be opening the door and most proposals for street lighting expansion would be decided with a political base.

It will be interesting to witness the debate this coming Monday and it is expected that there could well be some turn-around.

## Ganaraska awaits watershed plan OK

(Intended for last week)

The Ganaraska Region Conservation Authority presented their Watershed plan to the public in Newcastle last week with eight residents attending. A similar presentation in Port Hope attracted six area residents.

The Watershed Plan outlines the intentions of the Authority in both a five year plan and a twenty year plan.

In speaking with the secretary-manager, Doug Palmer, the plan is presently in a state of limbo awaiting comments from the Ministry of Natural Resources.

The Authority have submitted the plan to both the Ministry and all affected municipalities and has received comments back from all municipalities including the Town of Newcastle.

Palmer states the authority does not expect to receive comment back from the Province until sometime in 1984. As a result no action is expected on the plan until 1985 when monies would be included in the budget for that particular year.

In the five year plan priority has been given to certain areas in the Town

of Newcastle including the area of the Hunter Creek which crosses Highway 115 south of the fourth line, the Orono Creek and the Wilmot Creek.

Palmer explains that this particular area would have preference for projects submitted by private individuals over those in other areas of the authority during this period of time. He points out that the authority has no specific projects that they would hope to carry out other than those submitted by the individual property owners.

The secretary-manager states that the Authority has a sum of money in the 1984 budget to hire a public relations officer who through articles to the news media and other means would make contact with the public outlining Authority programs available and assistance from the Authority. He said it could be that the public relations officer would make individual contact with owners.

Through the watershed plan the Authority is opting to have property owners take the initiative in preservation and conservation.

## Clarke High School News

by Kelly Anderson  
What a great band dance. To teachers a band dance means nuisance. This one wasn't at all.

About 500 students showed and we came out with approximately a \$500.00 profit.

Coney Hatch gave a respectable concert, the best the school has had for five years and everyone enjoyed themselves.

The Christmas break this year runs from December 19th to Monday, January 2. It will be a nice long vacation. Students and teachers alike are looking forward to it.

Career Week, this year will be quite different. The Guidance Department is planning to get all teachers and students to get involved and do something. The week is from December 12th to December 16th.

There is going to be a play presented in the future at Clarke.

Leading actors are: Jeff Lowery and Jeff Vanhaverbeke. Females at the school have shown an interest and have auditioned for part with Linda Vanderstoop, Brenda Bunting, Lana Veselinovic, Jackie Westbrook and Emma Martin receiving leading parts.

The play is called "Skin Of Our Teeth". It will be staged

## OTTAWA WANTS ELDORADO SOLD

Senator Jack Austin, in a recent newspaper report, is stated to have said that the federal government is asking the Canada Development Investment Corp. to seek a quick sale of Eldorado Nuclear Ltd. Austin who is in charge of the corporation said the sale of the crown corporation is a priority. The company reported sales of \$89 million in 1982 and a profit of \$11.2 million this first six months of this year. Austin would like to see the sale take place in 1984.

## SEEK RIGHT TO APPEAL

The Ministry of the Environment through the Attorney's General Office are seeking the right to appeal a court decision which turned aside an interim injunction sought by the Ministry against Regional Reclaimers as to the operation of their landfill site in the south-east corner of the Town of Newcastle.

The hearing will be held in Toronto on December 20th and will determine if the Ministry of the Environment can call for an appeal of the decision handed down early in November.

## LITTLE INTEREST SHOWN IN TOWN COMMITTEE

Ward Three (Clarke, Orono, Newcastle) and Ward One (Darlington Township) have shied away from the Town Recreation Committee and fewer than the required number of four have made application to sit on the committee from each Ward. Ward 2 (Bowmanville) provided more than the required four nominees to sit on the committee which is to stir recreation and culture in the Town of Newcastle.

Councillor members from Clarke and Darlington have been asked to supply further names of those who would sit on the committee. It is the intent to have four members from each Ward on the committee.

Council. Woodyard stated he felt two members from each Ward was enough.

The Town hopes to have the committee operating in the new year.

## ELECT OFFICERS

The Progressive Conservative Association recently elected their officers at a meeting held in the Orono Odd-fellow's Hall. Marion Manders was elected president with Marianne Zakarow, Deanna Wiley, Bob Craig, Bill Tomlinson, vice-presidents; Lorraine Lover, secretary; and area chairpersons as directors being, Terry Clifton, Darlington, Eleanor Colwell, Bowmanville, John Reid, Clarke-Newcastle and Gay Henning, president of the Young Progressive Conservatives.

## JUST MADE IT

There were a few hours of concern by Yvonne Maitland prior to opening of her Apple Blossom Shop in Orono last Friday at five o'clock. At noon the front door had yet to be installed but it all happened in time for the five o'clock ribbon cutting.

### The Wonder of God's Love

Have you ever stopped to think about  
The wonder of God's love?  
The golden dawn, the fields of corn,  
The stars that shine above.

Have you ever stopped to think about  
The wonder of God's earth?  
The endless seas, the fruitful trees,  
The miracle of birth.

Have you every stopped to think about  
The wonder of God's hand?  
The sunset's glow, the dancing snow,  
White waves that kiss the sand.

Oh, there is much to think about,  
How then can we deny  
That God must be - Eternity  
For all things cannot lie.

Patricia Emme

Sunday brought the first winter and storm in the form of snowy and icy roads. Some of us who live outside the village didn't get to church on this second Sunday of Advent. However, there were twenty-one there after the Sunday School pupils and their teachers had gone out to their classes. The Sunday School are preparing their

sometime in February. The play is about the history of man from the Ice Age to the future using one family to make the representation.

Christmas program to be given on Sunday morning December 18th.

Edna McCann says: Yesterday over tea and cookies, old Mr. Meers and I were talking about the differences between horse-drawn carriages and motor-cars. To my astonishment Mr. Meers remarked that a horse-drawn carriage used to travel an average of eleven miles an hour in downtown Toronto traffic. Today the average speed of an automobile along these same streets is six miles an hour. Do you think this is progress?

Here are some rules from The Master Diet Plan. It works!

1. Never order anything deep fried when you eat out.
2. Cook without oil. Meat broiled by itself is every bit as palatable as meat panfried in oil.
3. Poach the things you usually fry.

Think vegetables. They provide abundant natural vitamins, fibre and remarkably few calories. Rediscover potatoes. The potato is the most maligned staple in our diet, the first item abandoned by the weight watcher. In actuality a small potato may contain only 70 calories and seasoned with a little salt and coarsely ground pepper it is one of the tastiest and most nourishing of low calorie foods. Watch the sugar. Sugar is the only thing in our diet that contains nothing but calories.

Cook your vegetables in one kettle, one flavour another. Then be sure and save the juice, it contains the mineral, use it in soup. An onion improves the flavour of turnips.

In lighter vein:  
As a female letter carrier, I have been called many things

by people on my route - mail lady, mail marm, mail ma'am and so on. But my favourite greeting so far is: "Well if it isn't our postal-packin' mama!"

### ORONO SCOUTS VISIT TRENTON AIR BASE

A week ago Saturday 28 scouts and four leaders of the Orono Scout troop spent two days of the week-end at the Trenton Air Base along with a similar number of scouts from three other troops.

The scouts received instruction in winter survival as well as seeing a number of movies related to their course. The visit also included a tour of the base as well as inspecting a number of airplanes and movies relating to the use of some of the planes.

Although it was a winter survival week-end course the scouts slept in barracks.
