ENTITLED TO PARTICULARS

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;

Mix, and take a teaspoonful after meals and at bedtime, drinking plenty of water.

The above prescription has been found invaluable in the treatment of kidney, bladder and urinary troubles, and diseases arising therefrom, such as rheumatism, sciatica, lame back and lumbago, and we feel that the public are entitled to particulars concerning it.

A prominent physician states that the excellent results that have been obtained from the use of the mixture are due to its direct action upon the kidneys, assisting them in their work of filtering all poisonous waste matter and acids from the blood and expelling same in the urine, and at the same time restoring the kidneys to a healthy condition.

He further states that anyone suffering from afflictions of this nature will find it to be very beneficial, and suggests that it be given a trial.

Tips For The Farmers

BY UNCLE JOSH.

Superintendent Putnam says that the attendance at farmers' institute meetings this year has so far been better than last year.

The boy who does not love the farm had better be away from it, but many a boy would love it better if he were given more interest and concern in some part of the management.

"You can't get the best men in small factories," says Mr. Barr, "and as long as these exist you never will get the best milk or best cheese. If good men are wanted, pay them well and they will pay you in the long run."

Better let the colt go unshod as long as you can. Nothing better for the feet than the bare earth.

A rather curious case was recently tried in a Welsh county court. Farmers in that district exchanged help in harvest time and a farm hand sent by his employer to assist in this way a neighbor while so doing got an injury by which the sight of one eye was destroyed. He sued his employer, under the workmen's compensation acts and if he had been employed on his own master's farm would have been entitled to compensation. But as he did not get the injury on his own master's farm the judge was most reluctantly compelled to refuse the claim because the injury was not got while engaged in his ordinary work on his own master's farm.

In an exchange, F. C. Elford gives some particulars of the poultry department at Macdonald College. In the article he says:

At present there are about 800 laying hens and pullets kept at the college. The breeds represented are Barred Plymouth Rocks, White Wyandottes, Rhode Island Reds, and Buff Orpingtons, White Leghorns and Black Minorcas are being added to these.

The laying hens are being housed principally in colony houses, though we have one continuous house to accommodate 300 hens. The colony houses are of two sizes, 14x20 feet, and 8x12 feet, to hold 50 and 25 hens, respectively. The- are placed in an open field. A temporary fence is put around each house until the hens get used to their home; it is then removed, and the birds allowed to roam at will. The houses are 8x12x7 feet high. The window faces the south, and is 3½x5 feet. The floor is first made by nailing fast to two runners 6x8 inches. These runners project a foot at either end, and are bevelled so as to be able to haul the houses around. With the exception of the east end, where the roost is situated, the house is made of single matched boards. The ceiling is made of three or four-inch boards laid an inch or two apart. The attic is filled with loose straw. A small door in the gable allows for ventilation. The roof is sheeted, and covered with rubberoid roofing. We have used the cotton screen in place of the window, but have returned to glass.

The houses have given very satisfactory results, and I know of no other style of house that would, for the ordinary farmer, prove as satisfactory. The straw loft and easily-opened window allows for ideal ventilation. There is, consequently no moisture, the bane of Canadian poultry houses. The houses are convenient, in that they can be hauled into the orchard, the pasture field, or the stubble field—in fact, anywhere that there might be feed going to waste that the farm flock of hens could turn into eggs. In the fall these houses can be drawn up to a sheltered spot near the house or barn, so as to be convenient for winter feeding. The cost of such a house to a handy farmer need not exceed $1 per hen accommodation.

Have Perfect Circulation.

You should have good circulation of the blood and also see to it that the blood which circulates is of proper quality. Both results can be secured by use of Wade's Iron Tonic Pills (Laxative). These pills are a true tonic because they build up the very source of life and energy. They are a great nerve strengthener and blood maker. In boxes, 25c., at Wade's drug store. Money back if not satisfactory.

The Judge's Regards.

At Hamilton, in a slander case between civic officials and representatives, regarding a charge of loafing, the judge paid his respects to the officials. He said it seemed to be the popular idea that as soon as a man got a job for the city that he should try how little he could do for the pay received. His lordship severely condemned the practice and said that men were not put in these positions to rob the public. They were there to work all the time, not loaf. Any man who drank during working hours should be dismissed at once, without explanation. That would be somewhat of a remedy for the existing evils.

A PRESCRIPTION

TO RELIEVE ALL CATARRH SUFFERERS HERE.

All Sufferers Here Can Make Some Up and Try It Anyway As No Harm Can Result.

The coming months will be a harvest for the doctors and patent medicine manufacturers unless great care is taken to keep the feet dry, also dress warmly.

This is the advice of a well-known authority and should be heeded by all who are subject to rheumatism, kidney and bladder troubles and especially catarrh. While the latter is considered by most sufferers an incurable disease there are few men or women who will fail to experience great relief from the following simple home prescription, and if taken in time it will prevent an attack of catarrh during the coming season.

Here is the prescription which any one can mix: Fluid Extract Dandelion, one half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and use in teaspoonful doses after each meal and again at bedtime.

These are mostly vegetable ingredients and can be obtained from any good prescription pharmacy at small cost.

The Compound Kargon in this prescription acts directly upon the eliminative tissues of the kidneys to make them filter and strain from the blood, the poisons that produce all forms of catarrhal affections. Relief is often felt even after the first few doses and it is seldom that the sufferer ever experiences a return attack within the year.

This prescription makes a splendid remedy for all forms of blood disorders and such symptoms as lame back, bladder weaknesses and rheumatism pains are entirely dispelled.

As this valuable, though simple, recipe comes from a thoroughly reliable source, it should be heeded by every afflicted reader.

Actress And Her Fists.

Seattle, Jan. 17.—Miss Ruby Bridges leading woman of "The Man of the Hour," company, who in private life is Mrs. John S. Hale, wife of the manager, was arrested on a charge of assault, the warrant having been sworn to by Miss Cecil Kern, ingenue in the same organization. Miss Bridges was taken from her hotel to Justice George's court and admitted to bail in $25. Her case was postponed with the understanding that she will appear, plead guilty and pay her fine. The arrest is the result of an encounter, just as the curtain fell after the third act Tuesday night. According to Miss Kern, the assault was unprovoked and the result of long-standing jealousy. According to Manager Hale, Miss Kern has been in the habit of standing in the wings and "guying" Miss Bridges, with the result that when the latter had been provoked beyond human endurance "she did what you or I or any other man of spirit would have done to another man—just went out and punched her!"

Throat Catarrh

Delightful Cure Discovered That Cures Quickly.

A cough mixture slips over the sore spots, drops into the stomach and does little else but harm digestion.

It's different with "Catarrhozone," a remedy that cures because it gets at the trouble.

You inhale Catarrhozone.

Every breath you draw through the inhaler sends healing balsams and soothing antiseptics to the inflamed tissues.

You experience a pleasant sensation of warmth—tightness, soreness and coughing disappear—throat is strengthened and further attacks prevented.

Sick or well, use Catarrhozone, not because it cures, but because it prevents Catarrh, Colds, Bronchitis and Throat Trouble. Both pleasant and safe—try it.

Large one dollar outfit is guaranteed. Small (trial) size, 25c., all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

MACHINE COMPLETE

WIRELESS MESSAGES WRITTEN BY MACHINE.

Valdemar Poulsen Improves His Telephone System By Automatic Attachment.

Copenhagen, Jan. 17.—Valdemar Poulsen's latest improvement in his wireless telegraph system is an ink-writing apparatus, attached to the receiver. Mr. Poulsen, it will be recalled, is the inventor of the low-tension, continuous current as applied to wireless telegraphy and telephony, which does away with the explosive sparks of the Marconi system.

His new apparatus writes the wireless messages automatically, and the record is quite equal to that of the machines used, for example, to print mechanically the messages transmitted by the London and Paris cable. It can be used without telegraphists being present.

VALDEMAR POULSEN.

This latest invention, Mr. Poulsen announces, makes his system complete and ready to compete with the cables. Only slowness in delivery of several iron and steel machines ordered from abroad, he adds, has delayed the establishment of foreign wireless stations.

Since Thursday night the stations at Berlin and Newcastle-on-Tyne have been in communication with Mr. Poulsen's station at Lyngby, near here, and using the new writing machine. Mr. Poulsen claims that the experiments proved that the new method occupies less time than the cable. The rate of transmission averaged twenty-two words a minute. The reproduction was most reliable.

INDIAN WOMAN DROPS DEAD.

Two Men Crushed to Death in Prince Albert.

Prince Albert, Jan. 7.—The weather is still fine here, to-day has been spring like. The Sturgeon Lake Lumber company have their steam hauler at work. They hauled about fifteen thousand feet of lumber the second time it went over the road. James Hannah, an old Ontario boy, is the steersman, and James McCrum, the engineer. Last week while snowploughing on the river, two teams of horses with snowplough, dropped through, but they were fortunately got out in safety. Wolves are very thick around Swan River, and Red Deer river, they are killing sheep and will even come in the day time and take hens from the farmers. We were pleased to have a visit from Richard Sparks, one time a resident of Frontenac, near Parham. He met a great many people from Ontario. Mrs. C. Nelson, Swan River, is visiting her father, Joseph Soles. Andrew Holmes and family are soon to go to Vancouver to spend the winter. The bridge builders are making good progress with our bridge over the river. Gasoline sawing machines are very plentiful in Prince Albert.

On Wednesday while digging up snow an Indian woman dropped dead. She leaves two little babies.

On Thursday, two men were crushed to death in a gravelpit. The water had undermined the gravel, and caused it to cave in, the accident happened a short distance from the town.

Sleigh-riding down hill is getting to be a dangerous pastime for children, as no less than four have had limbs broken during the past week. A little girl has come to stay at F. Porter's. Mrs. Stuart is able to be out again. Visitors: Mrs. C. Nelson at her aunt's, Mrs. J. Hannah; Mrs. J. Stuart at S. A. Captain's. McClellan and Shepperd at John Soles; Mrs. W. Fouley at Mrs. A. Frazier's; Master Alfred Soles at his father's, J. Soles.

Officials Under Arrest.

Little Current, Manitoulin Island, Jan. 17.—There is a big sensation in the arrest of John McEachern, chief of police, on the charge of theft, following the big fire of December 1st. Several big stores were wiped out in the blaze and valuable stuff stolen. Alexander McEachern, the chief's brother, was also arrested. Both were committed for trial. Provincial Detective Miller also suspected Albert Bateman and chopped a hole in the kitchen floor, unearthing a large quantity of hardware. Bateman was sentenced to sixteen months in Central prison.

A Newark woman has left her husband and is suing him for divorce, because, as she alleges, he made her sleep on an ironing board. Wonder if he published the stereotyped announcement, "My wife, Mary Ann, having left my bed and board," and so forth?

When it comes to getting his dues, his satanic majesty never gets left.

FREE TO YOU—MY SISTER

FREE TO YOU AND EVERY SISTER SUFFERING FROM WOMEN'S AILMENTS.

I am a woman.
I know woman's sufferings.
I have found the cure.

I will mail, free of any charge, my home treatment with full instructions to any sufferer from women's ailments. I want to tell all women about this cure—you, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or Whites, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weakness peculiar to our sex.

I want to send you a complete 10 days' treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial; and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer, if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always result from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases and makes women well, strong, plump and robust. Just send me your address, and the free ten days' treatment is yours, also the book. Write to-day, as you may not see this offer again. Address:
