FRONTENAC'S METHODS.

Manner of Considering Tenders Should Be Changed.

Financial Post, Toronto.

The county of Frontenac, called for tenders up till July 4th, upon an issue of $60,000 4½ per cent. debentures, to liquidate an overdraft maturing at different dates between 1909 and 1918. Several bond houses refused to tender on this issue. One dealer stated to the Post that he refused to tender because "a certain man offered to get them irrespective of tenders." Two other houses refused to allow their bids to stand when they heard that a bid was to be considered which arrived after the time set for closing of tenders. The number of instances in which many municipalities have failed to adhere to the conditions set out in their call for tenders have become altogether too common lately. The manner in which they have accepted for consideration the tenders which they receive is becoming altogether too loose in some towns or cities in Ontario. Some of the bond houses are attempting to put a stop to it and it is to be hoped that they will succeed. It will be unfortunate for Canadian towns and cities if the consideration of tenders should ever become as loose in this province or in the newer provinces as is the case in the province of Quebec. In Quebec there are towns and cities which have utterly queered their issues by (to put it mildly), carelessness in their treatment of the tenders they have received in the past.

Three rules should be rigidly adhered to by all municipalities calling for tenders:

(1) Make the hour for receiving tenders identical with the hour for considering them.

(2) The clause, "The highest tender not necessarily accepted," should never be made use of to give the municipality the right to reject all bids so that in a few minutes or a few hours afterwards a bid may be received and accepted slightly higher than the best bid refused.

(3) If tenders are rejected they should be returned without being made known to the competing bidders.

Frock For Little Girl.

The accompanying cut shows a pretty frock for a little girl, the design being practical for various materials. Pink chambray gingham was used for the little dress from which the sketch was made, the trimming consisting of handsome white batiste embroidery and tucking of the fine white mull. This tucking was used for the yoke and undersleeves, and was finished by a little edge of Cluny.

Ottawa Citizen: "Jack" Williams, captain of the O.A.A.C. baseball team, has left for Maine, where he will spend his vacation. Williams may go back to Queen's in the fall.

NO ACCIDENTS IN NATURE.

Every Calamity, No Matter How Great Has a Definite Beginning.

There are no accidents in nature.

The avalanche that without a moment's warning rushes headlong down the mountain side is not an accident.

For years previous tiny atoms have been crystallizing, and adding their minute weight to the mass which left its base when the accumulation reached a certain point.

Neither is baldness an accident. The infinitesmally small germ which is the cause of dandruff and baldness, feeds silently and long before the result is seen.

The small germs which thrive on the scalp and which are the cause of baldness and dandruff cannot exist, however, when Newbro's Herpicide is applied.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and $1. G. W. Mahood, special agent.

Some people think they are in the manufacturing line because they make promises.
