To Curtail Paving?

The Grey County Roads Committee was in town recently going over the streets and it is rumored that the committee does not intend to pave the road from the eastern to the western entrance, but only through the main portion of the village. We hope the committee is not entertaining any such idea. It would be unfair for the village to be obliged to pave the main street over the twenty foot width through the main street. Our portion of the paving contract would amount to more than that of the county.
