SEEING THE PINCH.

X-Rays as an Aid to a Perfect Fit in Boots.

In London the old style boot-shop assistant is disappearing. He used to say:

"Just walk about a little on that, will you, madam? Does that pinch?"

The ultra-modern, however, says: "Would you like to see your feet?" and leads his customer to the X-ray box.

A Kensington firm have just installed an X-ray apparatus for their customers. It consists of a large box underneath which is the X-ray tube in a lead-lined cabinet. This is covered with an aluminium plate, on which the feet are placed.

The instrument gives a clear picture of the bones of the front portion of the foot in relation to the welt of the boot or shoe, and the scientific boot assistant can thus achieve a perfect fit without any danger of contradiction

What Worried Him.

The young married couple were dining out. In the middle of their meal a tall and beautiful woman, passing near the table, gave the young man a look of recognition and a dangerous smile. So dangerous, in fact, was the smile that the young wife said: "John, who was that woman?" John held up his hand. "Now, for goodness sake," said he, "don't go bothering me about who she is. I shall have trouble enough explaining to her who you are."

SIGNS
