DR. JAYNE'S EXPECTORANT.—This invaluable Medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known. All who have ever used it for Asthma, Cough, Spitting of Blood, Hooping Cough, Croup or Hives, Consumption, Chronic, Pleurisy; Hoarseness, pain and soreness of the breast, difficulty of Breathing, and every other disease of the Lungs and Breast, can and do attest to its usefulness. Bronchitis, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of consumption, is always cured by it. The usual symptoms of this disease (Bronchitis) are cough, soreness of the lungs or throat, hoarseness, difficulty of breathing, Asthma, Hectic Fever a spitting up of Phlegm or matter, and sometimes blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels which run through every part of the lungs. This Expectorant immediately suppresses the cough, pain, inflamation, fever, and difficulty of breathing, and produces a free and easy expectoration, and a cure is soon effected.

It always cures Asthma—two or three large doses will cure the Croup or Hives of Children, in from 15 minutes to an hour's time. It immediately subdues the violence of Whooping Cough, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with "Consumption," have been restored to perfect health by it.

Rev. Jonathan Going, D. D. President of Granville College, Ohio, says—"he was labouring under a severe cold, cough and hoarseness, and that his difficulty of breathing was so great that he felt himself in imminent danger of immediate suffocation, but was perfectly cured by using this expectorant."——Mrs. Dilker, of Salem, N. J. was cured of Asthma, of twenty years standing, by using two bottles of this medicine;——Mrs. Ward, also of Salem, was cured of the same complaint by one bottle.——A young lady, also of Salem, who was believed by her friends to be far gone with Consumption, was perfectly restored by three bottles.——Dr. Hamilton, of St. James, South Carolina, was greatly affected by a cough, hoarseness, and soreness of the lungs, and on using a bottle of this medicine, found permanent relief.

The following certificate is from a practising Physician, and a much respected clergyman of the Methodist Society, dated Modest Town, Va. August 27, 1838.

Dr. Jayne—Dear Sir—I have been using your Expectorant [illegible] months, and for all attacks of colds, inflammation in the lungs, consumption, asthma, pain, and weakness of the breast, it is decidedly the best medicine I have ever tried.

Very respectfully yours,
R. W. WILLIAMS, M. D.

Numerous other certificates might be added, but the above are considered sufficient evidence of its great usefulness.

J. WINER'S

COMPOUND SYRUP OF HOREHOUND AND ELECAMPANE,

FOR the speedy and effectual cure of Coughs, Colds, Asthma, Spitting of blood, Whooping Cough, Croup or Hives, Consumption, Pleurisy, Hoarseness, Pains and Soreness of the breast and lungs. Bronchitis, a disease that is sweeping hundreds to a premature grave, under the fictitious name of consumption, can be cured by this medicine. The usual symptoms of this disease (Bronchitis) are cough, soreness of the lungs or throat, hoarseness, difficulty of breathing, asthma, hectic fever, a spitting up of phlegm or matter, and sometimes blood. It is nothing more than an inflamation of the fine skin which line the inside of the whole of the wind tubes or air vessels which run thro' every part of the lungs.

The peculiar virtues of this compound have for a long time attracted the attention of the medical profession; and a lively interest has recently been directed to the development of these active powers and pulmonary qualities, which the proprietor is now able to gratify, and presents this medicine to the public with full confidence of its being the most safe and valuable remedy ever discovered and adapted to all diseases of the lungs, when any of the functions do not perform their natural or healthy action.

It is universally believed that God in his providence has not afflicted his children with pain and disease, without at the same time giving them something in the garden of nature that will not only mitigate, but in many cases entirely relieve them. With these views strongly impressed on my minds, every one should feel a desire to investigate to the utmost of his power, the great arcana of nature, and to draw from that source that instruction which the wisdom of man has failed to attain.

In presenting this article to the public, the proprietor was influenced by the hope that a medicine prepared with much care and strict regard to the chemical properties of its several ingredients, should take the place of thousands of irresponsible nostrums of the day with which the country is deluged.

The use of one bottle of the Syrup will be sufficient to convince the most sceptical of its beneficial effects.

Directions accompanying each bottle, with the signature of the proprietor, without which none are genuine.

Prepared and sold wholesale and retail, by J. WINER, Chemist and Apothecary, King Street, Hamilton.

For Sale at the Manufacturer's prices, by J. W. Brent, N. Palmer and Chas. Heath.

SANDS'S SARSAPARILLA.

For the removal and permanent cure of all diseases arising from an impure state of the blood, or habit of the system, namely:

SCROFULA, or King's Evil, Rheumatism, obstinate Cutaneous Eruptions, Pimples, or Pustules on the face, Blotches, Boils, Chronic Sore Eyes, Ring Worm, Tetter, Scald head, Enlargement and pain of the bones and Joints, Stubborn Ulcers, Scabbiness, Scurvy, Swellings, or Lumpings, and diseases arising from improper use of Mercury, Aches, or Dropsy, Exostosis, Nodes, Mercurial Pains, Also, Chronic, Constitutional Disorders will be removed by this preparation.

Improvement in whatever regards the happiness and welfare of our race is constantly on the march to perfection, and with each succeeding day some new position is solved or some profound secret revealed, having been important and direct bearing over man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder! What rapid strides has science made in every department of civilized life! particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of the medium! How does the imagination kindle and our admiration glow at the ingenuity, the most approach to the standard of perfection, of the present time!—Through the elaborate investigations of Physiology, in the science of Life, and the Pathology of prevalent diseases, much valuable practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies have been sought after and discovered exactly adapted to combine with, neutralize and expel morbific matter, the cause of disease, and substitute healthy action in its place. The beautiful simplicity of this mode of treatment is not only suggested by the philosophy of disease, not only grateful to the sufferer, but perfectly in consonance with the operations of Nature, and satisfactory to the views and reasons of every intelligent, reflecting mind. It is thus that Sands's Sarsaparilla, scientific combination of essential principle of the most valuable vegetable substances, operates upon the system. The Sarsaparilla is combined with the most efficacious and powerful auxiliary properties, the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intrinsic value, and recommending it to the afflicted in terms the afflicted only can know.—It has long been a most important desideratum in the practice of medicine to obtain a remedy similar to this—one that would act on the liver, stomach and bowels with all the precision and potency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system.

The attention of the reader is respectfully called to the following certificates. However great these testimonies have been before from made by the use of this invaluable medicine, yet daily experience shows results still more remarkable. The proprietors here avail themselves of the opportunity of saying it is a source of constant satisfaction that they are made the means of relieving such an amount of suffering.

WONDERFUL EFFECTS OF SANDS'S SARSAPARILLA IN NORWICH, CONN.

Read the following from Mrs. Wm. Phillips, who has long resided at the Falls. The facts are well known to all the old residents in that part of the city.

Messrs. A. B. Sands & Co.—Sirs: Most gratefully do embrace this opportunity for stating to you the great relief I obtained from the use of your Sarsaparilla. I shall also be happy, through you, to publish to all who are afflicted, as I lately was, the account of my unexpected, and even for a long while despaired of cure. Mine is a painful story, and trying and sickening as is the narrative of it, for the sake of many who may be so situated, I will briefly yet as accurately state it.

Nineteen years ago last April a fit of sickness left me with an Erysipelas eruption. Dropsical collections immediately took place over the entire surface of my body, causing such an enlargement that it was necessary to add a foot yard to the size of my dresses around the waist. Next followed, upon my limbs, ulcers, painful beyond description, for 7½ years, both in summer and winter, the only mitigation of my suffering was found in pouring upon those parts cold water. From my limbs the pain extended over my whole body.—There was literally for me no rest by day or night. Upon living down these pains would shoot through my system, and compel me to arise, and for hours together, walk the house, so that I was almost entirely deprived of sleep. During this time the Erysipelas continued active, and the ulcers enlarged, and so deeply have these eaten, that to my [illegible] I have been subject to bleeding, during these almost twenty years I have consulted many physicians. These have called my disease—as it was attended with an obstinate cough and a steady and severe pain in my side—a dropsical consumption; and though they have been skilful practitioners, they were only able to afford my case a partial and temporary relief. I had many other difficulties too painful to describe. I have also used many of the medicines that have been recommended as infallible cures for this disease, yet these all failed, and I was most emphatically growing worse. In this critical condition, given up by friends, and expecting for myself, relief only in death, I was by the timely interposition of a kind Providence, furnished with your, to me, invaluable Sarsaparilla. A single bottle gave me an assurance of health, which for twenty years I had not once felt. Upon taking the second my enlargement diminished, and in twelve days from the 6th of October, when I commenced taking your Sarsaparilla, I was able to enjoy sleep and rest by night, as refreshing as any I every enjoyed when in perfect health. Besides, I was, in this short time, relieved from all those excruciating and unalleviated pains that had afflicted me day, as well as robbed me of my night's repose. The sores upon my limbs are healed, the Erysipelas ceased, and my size reduced nearly to my former measure.

This much do I feel it a privilege to say to the receivers of your health-restoring Sarsaparilla. A thousand thanks, sirs, from one whose comfort and whose hope of future health are due, under God, to your instrumentality. And may the same Providence that directed me to your aid, make you the happy and honored instruments of blessing others, as deeply and despairing as your much obliged and very grateful friend,

ASENATH M. PHILLIPS.
