Good-will in business is that intangible something which oolds customers to the habit of patronizing the same sources of supply year after year. Its development depends largely upon personality, and it is the result of the peculiar personal service rendered to customers.

GM GENERAL MOTORS PRODUCTS

GM29-15

IN the building of General Motors cars, there is no compromise with quality. If a part fails to conform to specifications, it is rejected. Direct results are smooth performance, quietness, dependability, long life and unusually low prices. Gauge these qualities for yourself by driving the car of your choice. Look up your nearest dealer under "General Motors Cars" in the classified section of your 'phone book. He will explain G M A C, the economical time-payment plan, and the Owner Service Policy, which gives comforting assurance that the outstanding values of any General Motors car will endure.

GENERAL MOTORS CARS HAVE OUTSTANDING VALUE

THE GRASSHOPPER PEST

Many farmers in this district are complaining of the depredations of the grasshoppers this summer. In some sections they are tremendously numerous, and their appetites know no bounds. The grasshoper is said to be a dry weather product but it is apparently flourishing amid all the showers we have had during the past month. The oat crops are suffering greatly from the pest, and the farmers would be glad to see the last of them.

Walk on the
LEFT
of country roads
. . . Face the Traffic

This rule is important at all times, but especially so at dusk and at night.

At such times, no matter how careful the driver of a car is, he may not see you until he is very near to you and it may be impossible for him to stop in time to avoid inflicting serious injury.

Should he swerve to avoid hitting you, though you may escape injury others may be hurt.

Of the 524 fatalities on the highways of Ontario last year a large number were caused by persons walking *with* rather than *against* traffic.

Why take a chance?
