Flesherton Has Gain In Census Returns

Flesherton has gained in population during the past ten years and now has 484 people, in place of the 422 in the year 1921. It is the only village in this district, and in fact there are few better in Ontario, to make such a gain, which amounts to over 14 per cent. in population. The population of some of the villages near here are given out by the Dominion Bureau of Statistics as follows::

	Population 1931	1921
Beeton	563	583
Chatsworth	264	332
Creemore	591	653
Dundalk	674	675
Flesherton	484	422
Grand Valley	594	620
Hepworth	314	317
Markdale	886	882
Neustadt	454	422
Shallow Lake	325	362
Shelburne	1075	1072
Tara	459	545

Local and Personal

Mr. Wm. Bentham of Toronto was in town this Wednesday.

The half holidays in Flesherton are to come to a close this Thursday.

Mrs. G. Johnson is spending this week in Toronto.

Mr. Murray Inkster of Toronto was home over Sunday.

Miss Marie McEachnie was in town over the week end.

Mr. and Mrs. Jos. Armstrong of Toronto visited last week with their niece, Mrs. R. Croft in town.

Misses Shirley Murray and Lorene Cargoe of Toronto were home Saturday and Sunday.

Mr. and Mrs. Roy Neilson and two sons of Toronto attended the fair on Saturday.

Mrs. J. Whight is spending a week with her daughter, Mrs. Neilson in Toronto.

Dr. F. W. Murray and Jim were guests at Dr. E. C. Murray's over the week end.

Mrs. Carrie Dyer of Detroit is the guest of her sister, Mrs. Ella Blackburn.

Mr. and Mrs. F. W. Nicholson of Toronto are visiting Mr. and Mrs. Jos. Duncan and Miss V. Nicholson.

Mr. and Mrs. C. B. Perigoe and two daughters of Delhi spent the week end with Mr. and Mrs. Albert Stewart.

Dr. R. H. and Mrs. Henderson and Miss Helen Crawford of Toronto were week end visitors with Mrs. Ella Blackburn.

Mr. and Mrs. Chas. Phillips of Toronto spent a couple of days last week with the latter's father, Mr. John Bellamy.

Mr. and Mrs. John Stuart,son and daughter, motored from Burks Falls on Saturday in time to be present at the races in the afternoon.

Mr. and Mrs. John Latimer and Mr. and Mrs. F. Frye and son of Toronto attended the fair on Saturday and spent the week end with Mr. and Mrs. C. N. Richardson.

Mrs. H. A. McCauley has judging assignments at Kemble, Elmvale and Milton fall fairs. She has charge of domestic science sections at these fairs.

Miss Agnes Macphail, M.P., left on Wednesday of last week for Elgin House, Muskoka, to attend the annual conference of the Student Christian Movement.

Dr. F. W. Murray and Mr. Murray Inkster of Toronto each rendered a solo at the morning service of St John's United Church which, as usual, delighted the congregation.

Mr. and Mrs. J. W. Miller of Salmon Arm, B. C., and Mrs. Roy Thistlethwaite and daughter of Toronto are this week visiting their father, Mr. C. W. Belllamy.

Mr. and Mrs. Wm. Thompson and daughter, Dorothy, of Newmarket attended the fair on Saturday and spent the week end with his sister, Mrs. M. McDonald and Mrs. O. W Phillips.

Artemesia Rural school fair is to be held on the fair grounds at Flesherton on Thursday afternoon of this week. We understand that this is the last year for the championship school fair.

Mr. and Mrs. Geo. Johnson, Mr. H. C. LeGard and Mrs. Bert Magee of Eugenia attended the funeral of the late Mr. Dan Cameron, which took place in Toronto on Saturday afternoon. He was a brother of the late Mrs. H. C. LeGard and was born in the Priceville district.

Mr. and Mrs. H. Quigg, Mr. E. J. Swift and C. J. Crossley of Toronto were the guests of Mr. and Mrs. W. P. Crossley over the week end. Miss Ethel Cairns of Winnipeg was also a visitor and returned home with her mother, Mrs. Geo. Cairns, who has been here visiting her parents.

GRANT FLEMING, M.D. ~ ASSOCIATE SECRETARY

GUARD YOUR CHILD

It is possible to eradicate diphtheria from Canada. No longer need this disease be feared. No longer need children suffer and die as a result of diphtheria. The menace can be withdrawn and children can be protected from this severe and frequently fatal disease.

The germ which causes diphtheria is found in the throat and nose of those who are developing the disease or who actually have diphtheria. It persists for varying periods of time, during and after convalescence. Not a few apparently well persons are diphtheria carriers, that is, they harbor the germ although they are well.

Such being the case, it is obvious that, in our daily lives, we are almost sure to come in contact with such individuals and so be exposed to the diphtheria germs which they throw out in their coughs and sneezes or in talking. The germs pass out in the secretions of the mouth and nose, and may be transferred in the ways mentioned or in any other way, such as by means of the common drinking-cup which allows for the secretions of one person to reach others.

The only practical hope of controlling diphtheria is to render each individual invulnerable to the germs to whose attacks each one is exposed from time to time. Fortunately it is in our power to render ourselves resistant to such attacks. We can be armed with the forces which overcome the poisons given off by the diphtheria germ and which render the diphtheria germs powerless to do any harm.

We know, as the result of common experience, that the person who has recovered from an attack of diphtheria retains, as a result, some power, which he did not posess before, to resist subsequent attacks of the diphtheria germs. We say of such an individual that, as a result of the attack of the disease, he has become immune to diphtheria.

It is possible to secure this immunity without being exposed to the suffering and danger which accompany the disease. By the injection of diphtheria toxoid, which is a perfectly harmless substance, the body of the person injected develops the same protective forces as are produced during an actual attack of the disease, and so this person is rendered immune to diphtheria.

It is becacse this is so that our statement that diphtheria can be eradicated from Canada is not merely a hope or a dream, but is a practical possibility which is within our reach. We can make diphtheria disappear, but it will not do so until each and every parent realize the responsibility to guard each and every child against diphtheria. When this is done, diphtheria will become a rare disease and the lives of children will be saved.

Toronto Man Killed In Highway Accident

One of the worst of the many car accidents which have occurred near Flesherton this year took place in front of Mr. Robt. Best's farm, 1½ miles south of town Saturday afternoon. Fred Ockenden of Toronto was so severely injured thaa he died while being taken to the Markdale hospital. Brian Smith, owner of the car, and Jack McCallum, all of Toronto, were with him in the car at the time and the former received severe cuts and was kept in the Markdale hospital until Sunday. McCallum was uninjured.

The accident is said to have occurred when the driver lost control of the car as it was coming down the Red School Hill, at an allegedly admitted speed of 55 miles an hour. The car went into the ditch turned sideways and on hitting an obstruction leaped into the air landing on the car top 28 feet distant, throwing two of the occupants 48 feet away and continued with another 23 foot leap, landing on top of a wire fence, where it came to rest, McCullum with it. Ockenden and Smith fell on a heap of stones, the former receiving a fractured skull and the latter severe head cuts and bruises. Dr. J. E. Milne of town was called to the scene, and the injured man was conveyed to the Markdale hospital but died on the way there.

Dr. Martin of Dundalk was called and ordered an inquest to be held in Flesherton on Saturday afternoon next at 2 p.m. The jury for the occasion is composed of Geo. Brackenbury, foreman, O. W. Phillips, G. B Welton, C. J. Bellamy, W. A. Hawken A. Down, W. I. Henry and Albert Stewart.

The car is a complete wreck and is at present stored in Geo. Brackenbury's garage.

High School Field Day

Perhaps the most important event of the present term to every student of the Flesherton high school will be the annual field day to be held on Tuesday of next week. Many records will be shattered by both boys and girls in the junior and senior competition, judging by the performances displayed in practice. The senior boys' events promise to be exceedinly keen, the top hole of the vaulting standards being already too low. Every parent should come and witness a whole afternoon's sport of running, jumping and vaulting. A handsome shield is to be presented to the winning team of athletes, as well as medals for individuals, provides the necessary incentive.

The O.A.C. Apiculture exhibit at the C.N.E. attracted much interest. A number of visited stated that they had abstained from eating honey for fear of getting fat. They were informed that honey is absorbed directly into the blood stream and acts as an immediate source of energy, also that many entrants in the swimming marathons used honey in their training diets and that some actually consumed honey during the races.

A peculiar accident happened near Dornoch when a big fruit truck driven by Frank Bondi of Mount Forest, struck and kill a horse belonging to Mr. Colin McIntyre.

TheLate Mrs. Pedlar

Mary Matilda Tweed, wife of Mr. Wm. Pedlar of Rock Mills, who passed away on Tuesday of last week, was born in the township of Tiny in the year 1863 and came to Artemesia township with her stepfather, James Plewes, who ran the "Little Mill," later known as Loucks' mill. She was married in 1883 to Mr. Wm. Pedlar, who survives her. There were born to them six children, two boys and four girls. The boys are Hugh, editor of the Oxbow, Sask., Herald, and Lewis at home. The girls were Elsie May and Annie (Mrs. George Hargrave) both deceased, Dora Augusta (Mrs. Cecil Meldrum) and Mary Helen (Mrs. John Wickens) of Kimberley. The deceased lady was more or less bedfast since May.

She was taken to the G. & M. hospital in Collingwood with the hope that such help would be given nature as to prolong her life, if her health could not be restored to the old time vigor. The disease had made such progress that death came three weeks later.

The funeral took place on Thursday afternoon of last week, interment taking place in Salem cemetery. The service was conducted by her pastor, Rev. Wolstencroft, of the Baptist church, with which she had been connected for eight years. The deceased lady was very highly esteemed in the community, and a large concourse of friends attended to pay their last respects.

The palbearers were Messrs. John McKee, Fred Pedlar, Samuel Phillips, Thos. Phillps, Ray and Laurie Pedlar.

The floral offerings were profuse the casket being surrounded with a beautiful bower of bloom. Among the tributes, besides those from the family, relatives and friends was a spray from the Baptist Church, Rock Mills, and Flesherton Eastern Star Chapter 170.

The flower bearers were: James and Ita Pedlar, Doris and Laura Pedlar, Bobby and Donald Meldrum, Odessa, Lottie and Delbert Wickens.

NOTICE

I wish to withdraw notice which appeared in the issue of The Advance on September 17, 1931, concerning debts contracted by my wife, and hereby apologize for the same, as I do not wish to cast my reflection on her or any member of the family.

—THOS. W. BRADY.

STODDART—ALEXANDER

A wedding took place aa St. John's United Church parsonage, at 12.30 p. m. Wed., Sept. 23, when the marriage of Miss V. Hazel, elder daughter of Mr. and Mrs. Robt. Alexander, and Mr. Norman A. Stoddart, son of Mr. and Mrs. Wm. Stoddart of Markdale, was performed by the Rev. W. J. Scott. After the ceremony the bridal party went to the home of the bride's parents, where a dainty wedding dinner was served. Miss Doll Barrett of Owen Sound attended the bride and Mr. Cecil Alexander supported the groom. After a short honeymoon at Orangeville the young couple will take up residence at the groom's farm at Markdale.

According to rumors in Guelph, that city is shortly to have a new post office.
