The annual day of Prayer was observed in the Presbyterian hall on Friday, February 12th, when a good attendance from both congregations were present. A piano selection by Mrs. Harry Houston (nee Mae Muir) opened the meeting, followed by a call to worship by the leader, Mrs. Sutherland, after which Hymn, "Lord speak to me that I may speak", was sung. Mrs. Sutherland led in Prayer. Mrs. Hermie McLean sang very sweetly, "In the secret of his presence how my soul delights to hide," and was also much enjoyed. Mrs. A. L. Hincks then led in Prayer for China, Japan, Korea, and Russia and silent prayer for one minute, following the naming of each country by leader, was observed. Scripture promises were read in unison, followed by hymn "Prayer is the Soul's sincere desire." Prayer for the near East, India and Africa was given. Then Mrs. Allie Muir, also a leader, gave a reading, after the offering was taken, Prayer was offered for Europe, North and South America by Mrs. Sutherland. Hymn, "Spirit of God descend upon my heart," was sung and the leader then led in prayer. PUSSYWILLOWS IN BUD

It was a pleasant surprise to find a hedge of willows in bud last Saturday, while sojourning near Kirkville. The pussies were out enjoying the warm sun which intermittently came out to coax forth these harbingers of spring. It is to be hoped that Jack Frost will not take advantage of his destructive powers and ruin these buds.—Collingwood Enterprise.

Paving operations for 1932 in the counties of Northumberland and Durham will be suspended for this year in order to cut expenses.

EUGENIA

Two jolly girls one moonlight night
Started out for a little walk.
They got a buggy ride; that's right,
But with whom?—they're guessing.
They're wondering whom this nice young man,
From Rock Mills way should be.
He's guessing,—thinking if he can
Whom those jolly girls could be.

WOMEN'S INSTITUTES: A RURAL ORGANIZATION

When the rural women of Wentworth County organized a Women's Institute in 1897 for "the dissemination of knowledge relating to domestic economy, including household architecture, with special attention to home sanitation, a better understanding of the economic and hygienic value of foods, clothing, fuel and more scientific care and training of children with a view of raising the general standard of health and morals of our people," little did they think that 35 years later the rural women of 28 countries scattered pretty well over the face of the earth, would follow their example.

The main purpose of the Women's Institutes is to provide educational opportunities for grown-ups bearing directly upon the responsibilities of home life. They are endeavoring to provide for the rural communities some of the advantages found in the larger centres, such at suitable meeting places, libraries, rest rooms, athletic fields, parks, rinks, etc. The criticism is sometimes heard that the Institutes of Ontario are composed largely of townswomen, when, as a matter of fact, surveys made at different times and in different parts of the province in recent years show 65½% of the members are living on the farm, 21 per cent. are made up of persons who have lived on the farm, and only 13½ per cent. have never lived on the farm. One of the chief factors contributing to success is that the residents of the villages and smaller towns are co-operating with many of the farm women in making the Institutes a forceful educational factor for women of responsibility, are encouraging wholesale social activities, are rendering a splendid service in cases of need, and are contributing very liberally in providing desirable community equipment and utilizing it to the best advantage.

It is the regret of some of the leaders that here and there we find branches which are so absorbed in the raising of money and providing supplies for community undertakings and relief that they are, to a large extent, overlooking the fact that the main purpose of the organization is that of education in nutrition, clothing, housing, health with a wholesale sprinkling of the cultural and entertaining Ontario has 1200 Women's Institutes with a membership of 41,000

PAY PORTION OF YOUR DEBT

Here is a sugestion that might well be heeded by every man and every woman who have the handling of money. "Buy Now" movements are no doubt, having a beneficial effect. Probably the movement to pay debts now is of even more importance. Many people could buy now if they could collect what is coming to them. Many others might renew their credit, and be able to buy if they could manage somehow to show a disposition to pay what they owe. It isn't always necessary to pay debts in full in order to renew confidence.

Cast iron roads guaranteed to last 500 years are being built in Great Britain. That's the kind where the cost of maintenance would be nil.

Damages caused by the explosion recently at the Collingwood Terminals elevator may reach from $25,000 to $40,000. Repairs are now under way and are not interfering in any way with the operation of the elevator.

A New Organization

An association of representatives of all county councils in the province to further the farmers' interests is likely to be the outcome of the conference held by Hon. Thos. L. Kennedy, Minister of Agriculture, at the Parliament Buildings recently with several hundred representatives of county councils from all parts of Ontario, who gathered at his behest to delve into farming problems. The Minister declared it would be non-political and would present its recommendations periodically to the Government. He stated it as his intention to have the Department of Agriculture in each county co-operate with the farmer to help him grow crops especially fitted to soil and climatic conditions to his county.
